GRADE LEVEL TARGETS AND BROCHURES PART II

- **Brochures are an excellent way to communicate what students should know and be able to do at the end of the school year. What a great way to inform community, parents, and students!**
- **The sample brochures within this binder are designed to give you ideas for your own classroom.**
- **The CD that is enclosed within the binder allows you the capability to custom-design your own brochure.**

To edit the brochures to meet your specific needs, double click on the text you wish to replace and type in the text box or dialog box that will appear. The brochure uses MicroSoft WordArt and text boxes. If you are unfamiliar with WordArt or using text boxes, please refer to "Help" on your computer. Basic formatting procedures apply. You should be able to "drag and drop," graphics, change fonts, resize graphics, etc.
