Brushy Mound #110

1-7-3-7

This school was located directly south of Carlinville. I found it by using the road passing the coal mine. Teacher Zelma Meiher, now Mrs. Leo Young.

School-Brushy Mound

TEACHER'S REMARKS ON CLASSIFICATION

I have omitted the subject of Rature Study in order to give more time to Reading and Spelling, as the pupils are very poor in these branches

TO THE TEACHER:

This Preliminary Report should show the present organization of your school, and the condition of your schoolroom and grounds. It will enable me to give you prompt and valuable assistance during your present term of school. Please fill out carefully with ink, and mail to me immediately after school is organized. Due credit will be given for filing this report promptly.

TO THE TEACHER:

This Preliminary Report should show the present organization of your school, and the condition of your schoolroom and grounds. It will enable me to give you prompt and valuable assistance during your present term of school. Please fill out carefully with ink, and mail to me immediately after school is organized. Due credit will be given you for filing this report promptly.

TEACHER'S REMARKS ON CLASSIFICATION

TO THE TEACHER:

This preliminary Report should show the present organization of your school, and the condition of your schoolroom and grounds. It will enable me to give you prompt and valuable assistance during your present term of school. Please fill out carefully with ink, and mail to me at the close of the FIRST WEEK of school. Due credit will be given you for filing this report promptly.

This preliminary Report should show the present organization of your school, and the condition of your school-room and grounds. It will enable me to give you prompt and valuable assistance during your present term of school. Please fill out carefully with ink, and mail to me at close of the FIRST WEEK of school. Due credit will be given you for filing this report promptly.

Failure to file this Report in the Superintendent's Office will be entered in his Record against the Teacher as Dereliction of Duty.

This reporting sheet corresponds to a page of your Classification Register (not Attendance Register); please fill it out with ink from your Classification Register and return to me at the end of the last month of the term. It will be kept for public inspection. Study the plan given below and follow it accurately. If you have not a Classification Register in your School let me know at once; also inform the President of your School Board or your Director.

The Register can be obtained at the County Superintendent's office.

Please endeavor to have a Register provided for your school at once, so that all the schools may be classified before the end of the term.

How to Classify Your School in the Classification Register.

1st. Read the course of study carefully; notice the number of grades and the work that each grade includes.

2d. Ascertain in which grade of the Course each pupil has most of his work, and classify him in that grade. If he has not all of his studies in this grade, mark the grade in which such other studies are found, under the headings for these respective studies. (See sample form in Register.)

3d. When a pupil has completed a study and passed a satisfactory examination, credit him with it in the column of "Studies Completed this Term," also record it in the "Record of Studies Completed," in the back part of the Register. This record should show every study which each pupil completes, until he finishes the course and graduates from the district school. The graduating of classes is one of the greatest incentives that can be used in keeping pupils from "dropping out" of school. Diplomas for graduation will be furnished by the County Superintendent for all pupils who finish the course of study.

4th. The "Syllabus of Classes" shows every class in each study, and the pupils (indicated by numbers) belonging to it, also the pages canvassed by each class during the term. The names of pupils belonging to each class may be found by referring to the names, corresponding to each number, in the column of "Names of Pupils."

5th. The first classification of any school is the most difficult, and should be made with much care. Succeeding teachers should not change the classification left by their predecessors without good reason.

6th. The classification as left by each teacher should show the status of each pupil at the close of each term each being classified in the grade which he has just finished.

7th. A pupil changing from one school to any other in which this Register is used, may receive from his teacher a certificate of his standing, which will enable the teacher whose school he enters to classify him without examination.

8th. Certificates of Promotion and Monthly Reports to Parents may be found to be valuable helps.

9th. Be just and fair in your markings, neither too high nor too low, so as to avoid clashing of opinion by successive teachers.

Write Answers to the following Questions:

•
Is your daily program posted up in your
school room? Part of the time.
Do you make <i>daily</i> preparation for your
work? Yes Div.
Do you give Oral Language Lessons to the
First and Second Reader classes, and have
them write from ten to twenty minutes daily?
Yes sir.
Do you spend at least fifteen minutes daily
in giving special drills in writing to all grades?
Ges Dir.
Do you have those in the Third and Fourth
Reader grades write at least one letter each
week besides other language work?
Do you give Number Work to the lower
grades daily? ALN BIN.
Do you try to decorate your school room?

All persons are warned against making or publishing this blank, or any modification of it, as it belongs to a series consisting of "Welch's System of Supervision," and is under copyright.

TEACHER'S REMARKS TO SUPERINTENDENT

(Note.—State what your school needs in apparatus, black-boards, etc.; also give the names of pupils not provided with books, naming the books needed. Suggest wherein the County Superintendent can co-operate with you for the advancement of your school etc.)

your school, etc.)
The school is

Failure to file this Report in the Superintendent's Office will be entered in his Record against the Teacher as Dereliction of Duty.

This reporting sheet corresponds to a page of your Classification Register (not Attendance Register); please fill it out with ink from your Classification Register and return it to me at the end of the last month of the term. It will be kept for public inspection. Study the plan given below and follow it accurately. If you have not a Classification Register in your School let me know at once; also inform the President of your School Board or your Director.

The Register can be obtained at the County Super-

intendent's office.

Please endeavor to have a Register provided for your school at once, so that all the schools may be classified before the end of the term.

How to Classify Your School in the Classification Register.

1st. Read the course of study carefully; notice the number of grades and the work that each grade includes.

2d. Ascertain in which grade of the Course each pupil has most of his work, and classify him in that grade. If he has not all of his studies in this grade, mark the grade in which such other studies are found, under the headings for these respective studies.

(See sample form in Register.)

3d. When a pupil has completed a study and passed a satisfactory examination, credit him with it in the column of "Studies Completed this Term," also record it in the "Record of Studies Completed," in the back part of the Register. This record should show every study which each pupil completes, until he finishes the course and graduates from the district school. The graduating of classes is one of the greatest incentives that can be used in keeping pupils from "dropping out" of school. Diplomas for graduation will be furnished by the County Superintendent for all pupils who finish the course of study.
4th. The "Syllabus of Classes" shows every

class in each study, and the pupils (indicated by numbers) belonging to it, also the pages canvassed by each class during the term. The names of pupils belonging to each class may be found by referring to

the names, corresponding to each number, in the column of "Names of Pupils."

The first classification of any school is the most difficult, and should be made with much care. Succeeding teachers should not change the classification left by their predecessors without good reason.

The classification as left by each teacher should show the status of each pupil at the close of each term each being classified in the grade which he has just finished.

7th. A pupil changing from one school to any other in which this Register is used, may receive from his teacher a certificate of his standing, which will enable the teacher whose school he enters to classify him without examination.

8th. Certificates of Promotion and Monthly Reports to Parents may be found to be valuable helps.

9th. Be just and fair in your markings, neither too high nor too low, so as to avoid clashing o' opinion by successive teachers.

Write Answers to the following Questions:

Is your daily program posted up in your
school room?
Do you make daily preparation for your
work?
Do you give Oral Language Lessons to
the First and Second Reader classes, and
have them write from ten to twenty minutes
daily? Mot every day.
Do you spend at least fifteen minutes
daily in giving special drills in writing to
all grades?
Do you have those in the Third and
Fourth Reader grades write at least one
letter each week besides other language
work ?
Do you give Number, Work to the
lower grades daily?
Do you try to decorate your school
room? / /ss.

Failure to file this Report in the Superintendent's Office will be entered in his Record against the Teacher as Dereliction of Duty.

This reporting sheet corresponds to a page of your Classification Register (not Attendance Register); please fill it out with ink from your Classification Register and return it to me at the end of the last month of the term. It will be kept for public inspection. Study the plan given below and follow it accurately. If you have not a Classification Register in your School let me know at once; also inform the President of your School Board or your Director.

The Register can be obtained at the County Superintendent's office.

Please endeavor to have a Register provided for your school at once, so that all the schools may be classified before the end of the term.

How to Classify Your School in the Classification Register.

1st. Read the course of study carefully; notice the number of grades and the work that each grade includes.

2d. Ascertain in which grade of the Course each pupil has most of his work, and classify him in that grade. If he has not all of his studies in this grade, mark the grade in which such other studies are found, under the headings for these respective studies.

(See sample form in Register.)

3d. When a pupil has completed a study and passed a satisfactory examination, credit him with it in the column of "Studies Completed this Term," also record it in the "Record of Studies Completed," in the back part of the Register. This record should show every study which each pupil completes, until he finishes the course and graduates from the district school. The graduating of classes is one of the greatest incentives that can be used in keeping pupils from "dropping out" of school. Diplomas for graduation will be furnished by the County Superintendent for all pupils who finish the course of study.
4th. The "Syllabus of Classes" shows every

class in each study, and the pupils (indicated by numbers) belonging to it, also the pages canvassed by each class during the term. The names of pupils belonging to each class may be found by referring to the names, corresponding to each number, in the column of "Names of Pupils."

5th. The first classification of any school is the most difficult, and should be made with much care. Succeeding teachers should not change the classification left by their predecessors without good reason.

The classification as left by each teacher should show the status of each pupil at the close of each term each being classified in the grade which he has just finished.

7th. A pupil changing from one school to any other in which this Register is used, may receive from his teacher a certificate of his standing, which will enable the teacher whose school he enters to classify him without examination.

8th. Certificates of Promotion and Monthly Reports to Parents may be found to be valuable helps.

9th. Be just and fair in your markings, neither too high nor too low, so as to avoid clashing o' opinion by successive teachers.

Write Answers to the following Questions:

Is your daily program posted up in your
school room?
Do you make dily preparation for your
work? Some-times
Do you give Oral Language Lessons to
the First and Second Reader classes, and
have them write from ten to twenty minutes
daily?
Do ou spend at least fifteen minutes
daily in giving special drills in writing, to
all grades? Motoslong
Do you have those in the Third and
Fourth Reader grades write at least one
letter each week besides other language
work?
Do you give Number Work to the
lower grades daily?
Do you try to decorate your school
room? <u>Jld</u>

Failure to file this Report in the Superintendent's Office will be entered in his Record against the Teacher as Dereliction of Duty.

This reporting sheet corresponds to a page of your Classification Register (not Attendance Register); please fill it out with ink from your Classification Register and return it to me at the end of the last month of the term. It will be kept for public inspection. Study the plan given below and follow it accurately. If you have not a Classification Register in your School let me know at once; also inform the President of your School Board or your Director.

The Register can be obtained at the County/Super-

intendent's office.

Please endeavor to have a Register provided for your school at once, so that all the schools may be classified before the end of the term.

How to Classify Your School in the Classification Register.

1st. Read the course of study carefully; notice the number of grades and the work that each grade includes.

2d. Ascertain in which grade of the Course each pupil has most of his work, and classify him in that grade. If he has not all of his studies in this grade, mark the grade in which such other studies are found, under the headings for these respective studies.

(See sample form in Register.) 3d. When a pupil has completed a study and passed a satisfactory examination, credit him with it in the column of "Studies Completed this Term," also record it in the "Record of Studies Completed," in the back part of the Register. This record should show every study which each pupil completes, until he finishes the course and graduates from the district school. The graduating of classes is one of the greatest incentives that can be used in keeping pupils from "dropping out" of school. Diplomas for graduation will be furnished by the County Superin-

tendent for all pupils who finish the course of study. 4th. The "Syllabus of Classes", shows every class in each study, and the pupils (indicated by numbers) belonging to it, also the pages canvassed by each class during the term. The names of pupils belonging to each class may be found by referring to

the names, corresponding to each number, in the column of "Names of Pupils."

The first classification of any school is the most difficult, and should be made with much care. Succeeding teachers should not change the classification left by their predecessors without good reason.

6th. The classification as left by each teacher should show the status of each pupil at the close of each term each being classified in the grade which he has just finished.

7th. A pupil changing from one school to any other in which this Register is used, may receive from his teacher a certificate of his standing, which will enable the teacher whose school he enters to classify him without examination.

8th. Certificates of Promotion and Monthly Reports to Parents may be found to be valuable helps.

9th. Be just and fair in your markings, neither too high nor too low, so as to avoid clashing o' opinion by successive teachers.

Do you make daily preparation for your work?_yes Do you give Oral Language Lessons to

school room? Ves.

Write Answers to the following Questions:

Is your daily program posted up in your

the First and Second Reader classes, and have them write from ten to twenty minutes

Do you spend at least fifteen minutes daily in giving special drills in writing to all grades? 18 minutes.

Do you have those in the Third and Fourth Reader grades write at least one letter each week besides other language work?___

Do you give Number Work to the

lower grades daily? Yes

Do you try to decorate your school

All persons are warned against making or publishing this blank, or any mod lification of it, as it belongs to a series consisting of "Welch's System of Super vision," and is under copyright.

Teacher's Remarks to Superintendent

(NOTE-State what your school needs in apparatus, blackboards, etc.; also give the names of pupils not provided with books, naming the books needed. Suggest wherein the County Superintendent can co-operate with you for the advance ment of your school, etc.)

#### Failure to File this Report in the Superintendent's Office will be entered in his Record against the Teacher as a Dereliction of Duty.

This reporting sheet corresponds to the classifica-This reporting sheet corresponds to the classifica-tion section of your Combined Register; please fill it out with ink from your Register and return to me at the end of the last month of the term. It will be kept for public inspection. Study the plan given be-low and follow it accurately. If you have not a Combined Register in your School let me know at once; also inform the President of your School Board or your Director.

The Register can be obtained at the County Superintendent's office.

Please endeavor to have a Register provided for your school at once, so that your school may be classified before the end of the term.

#### How to Classify Your School in the Classification Register.

1st. Read the course of study carefully; notice the number of forms and the work that each form in-

Ascertain in which form of the Course each pupil has most of the work, and classify him in that form. If he has not all of his studies in this form, mark the form in which such other studies are found, under the headings for these respective studies. (See sample form in Register.)

3d. When a pupil has completed a study and passed a satisfactory examination, credit him with it in the column of "Studies Completed this Term," also record it in the "Record of Studies Completed," in the back part of the Register. This record should show every study which each pupil completes, until he finishes the course and graduates from the district school. The graduating of classes is one of the greatest incentives that can be used in keeping pupils from "dropping out" of school. Diplomas for graduation will be furnished by the County Superintendent for all pupils who finish the course of study.

4th. The "Syllabus of Classes" shows every class the study, and the pupils (indicated by numbers) belonging to it, also the pages canvassed by each class during the term. The names of pupils belonging to each class may be found by referring to the names, corresponding to each number, in the column of "Names of Pupils."

5th. The first classification of any school is the most difficult, and should be made with much care. Succeeding teachers should not change the classification left by their predecessors without good reason. 6th. The classification as left by each teacher should show the status of each pupil at the close of each term each being classified in the grade which he

has just finished. In making your recommendations in the section at right of "Pages Canvassed this Term," be just. This section classifies this school for your successor. Make no recommendations that you would not folow scrupulously were you to continue work in this school next term.

7th. A pupil changing from one school to any other in which this Register is used, may receive from his teacher a certificate of his standing, which will enable the teacher whose school he enters to classify him without examination.

8th. Certificates of Promotion and Monthly Reports to Parents are valuable helps and may be ob-

tained from the County Superintendent.
9th. Be just and fair in your markings, neither too high nor too low, so as to avoid clashing of opinion by successive teachers.

#### The following will assist you in making your Report accurately:

Total Number of Days of Absence—This will be the sum of the days of absence of all pupils enrolled during the term. Do not count the days a pupil was "dropped" as "days of absence." When a pupil is "dropped" he is not a member of your school and hence cannot be considered as "absent" in the sense in which the word "absent" is here used.

Absence that is less than half a day will be reported as a half day's absence; for example, if a pupil comes before the close of the forenoon recess, count him tardy only; but if he should not arrive until after the forenoon recess, count him absent a half day. Observe the same rule for the afternoon recession.

session.
Total Number of Days of Attendance—This will be Total Number of Days of Attendance—This will be the sum of the days of attendance of all pupils enrolled during the term. The total number of days of attendance, plus the total number days of absence, should ALWAYS equal the total number days of membership. This fact will enable you to test the accuracy of your results.

Average Daily Attendance—This is found by dividing the total days of attendance by the number of

viding the total days of attendance by the number of days taught. Always express the quotient as a whole number. A fraction that is less than a half should be dropped, but a fraction that is a half or more should be called 1.

Number Violating Compulsory Attendance Law— The law requires all pupils between the ages of seven and sixteen to attend school regularly at least twenty-four consecutive weeks. It does not apply to pupils who live more than two miles from school.

Whole Number of Days Taught—Count every day

for which you draw pay as taught.

Average Cost of Tuition per Month per Pupil This is found by dividing the amount paid the teacher per month by the average daily attendance for the term.

Wille Auswels to the following Questions:
1. Is your daily program posted up in your
school room?
2. Do you make daily preparation for your
work?
3. Do you give Oral Language Lessons to
the First and Second Reader Classes, and have
them write from ten to twenty minutes daily?
4. Do you spend at least fifteen minutes
daily in giving special drills in writing in all grades? And ow three day
5. Do you have your pupils use pen and
ink in Writing Lessons?
6. Where do you expect to teach next term?
7. If you do not at present have a position
for next term, will you notify this office as
soon as you get the promise of a position—and

# Failure to File this Report in the Superintendent's Office will be entered in his Record against the Teacher as a Dereliction of Duty.

This reporting sheet corresponds to the classification section of your Combined Register; please fill it out with ink from your Register and return to me at the end of the last month of the term. It will be kept for public inspection. Study the plan given below and follow it accurately. If you have not a Combined Register in your School let me know at once; also inform the President of your School Board or your Director.

The Register can be obtained at the County Superintendent's office.

Please endeavor to have a Register provided for your school at once, so that your school may be classified before the end of the term.

## How to Classify Your School in the Classification Register.

1st. Read the course of study carefully; notice the number of forms and the work that each form includes.

2d. Ascertain in which form of the Course each pupil has most of the work, and classify him in that form. If he has not all of his studies in this form, mark the form in which such other studies are found, under the headings for these respective studies. (See sample form in Register.)

3d. When a pupil has completed a study and passed a satisfactory examination, credit him with it in the column of "Studies Completed this Term," also record it in the "Record of Studies Completed," in the back part of the Register. This record should show every study which each pupil completes, until he finishes the course and graduates from the district school. The graduating of classes is one of the greatest incentives that can be used in keeping pupils from "dropping out" of school. Diplomas for graduation will be furnished by the County Superintendent for all pupils who finish the course of study.

4th. The "Syllabus of Classes" shows every class in each study, and the pupils (indicated by numbers) belonging to it, also the pages canvassed by each class during the term. The names of pupils belonging to each class may be found by referring to the names, corresponding to each number, in the column of "Names of Pupils."

5th. The first classification of any school is the most difficult, and should be made with much care. Succeeding teachers should not change the classification left by their produces or without good reason.

tion left by their predecessors without good reason.
6th. The classification as left by each teacher should show the status of each pupil at the close of each term each being classified in the grade which he

has just finished. In making your recommendations in the section at right of "Pages Canvassed this Term," be just. This section classifies this school for your successor. Make no recommendations that you would not follow scrupulously were you to continue work in this school next term.

7th. A pupil changing from one school to any other in which this Register is used, may receive from his teacher a certificate of his standing, which will enable the teacher whose school he enters to classify him without examination.

8th. Certificates of Promotion and Monthly Reports to Parents are valuable helps and may be obtained from the County Superintendent.

9th. Be just and fair in your markings, neither

9th. Be just and fair in your markings, neither too high nor too low, so as to avoid clashing of opinion by successive teachers.

## The following will assist you in making your Report accurately:

Total Number of Days of Absence—This will be the sum of the days of absence of all pupils enrolled during the term. Do not count the days a pupil was "dropped" as "days of absence." When a pupil is "dropped" he is not a member of your school and hence cannot be considered as "absent" in the sense in which the word "absent" is here used.

Absence that is less than half a day will be reported as a half day's absence; for example, if a pupil comes before the close of the forenoon recess, count him tardy only; but if he should not arrive until after the forenoon recess, count him absent a half day. Observe the same rule for the afternoon recession.

session.

Total Number of Days of Attendance—This will be the sum of the days of attendance of all pupils enrolled during the term. The total number of days of attendance, plus the total number days of absence, should ALWAYS equal the total number days of membership. This fact will enable you to test the accuracy of your results.

Average Daily Attendance—This is found by di-

Average Daily Attendance—This is found by dividing the total days of attendance by the number of days taught. Always express the quotient as a whole number. A fraction that is less than a half should be dropped, but a fraction that is a half or more should be called 1.

Number Violating Compulsory Attendance Law—The law requires all pupils between the ages of seven and sixteen to attend school regularly at least twenty-four consecutive weeks. It does not apply to pupils who live more than two miles from school.

pils who live more than two miles from school.
Whole Number of Days Taught—Count every day
for which you draw pay as taught.
Average Cost of Tuition per Month per Pupil This
is found by dividing the amount paid the teacher per
month by the average daily attendance for the term.

#### Write Answers to the Following Questions:

<del></del>
1. Is your daily program posted up in your
school room?yls_:
2. Do you make daily preparation for your
work?
3. Do you give Oral Language Lessons to
the First and Second Reader Classes, and have
them write from ten to twenty minutes daily?
yes.
4. Do you spend at least fifteen minutes
daily in giving special drills in writing in all
grades?
5. Do you have your pupils use pen and
ink in Writing Lessons? if!
6. Where do you expect to teach next term?

7. If you do not at present have a position for next term, will you notify this office as soon as you get the promise of a position—and give the name of the school?

Vacation Address:

#### NOTICE.

DISTRICTS OF ONE BUILDING—Make out this report in duplicate, and file one copy with the clerk of the school board to be filed with the township treasurer, and mail the other copy to the county superintendent at the close of school.

IN OTHER DISTRICTS—In districts having two or more buildings and a superintendent, only one copy is to be made by the principal of each building and filed with the superintendent, who is to consolidate the several reports and make one copy for the clerk of the school board to be filed with the township treasurer, and one to be mailed to the county superintendent at the close of school.

To be filled out in duplicate by Teacher or Principal in charge of building and both copies filed with the County Superintendent at the close of school

#### NOTICE.

In districts having two or more buildings and a superintendent, only one copy is to be made by the principal of each building and filed with the superintendent, who is to consolidate the several reports and make two copies of the same and file with the county superintendent at the close of school.

Teachers are requested to fill out each item of this report. This is the initial report for data that is consolidated for the State and forwarded to the U.S. Commissioner of Education. Much depends upon the accuracy of your answers.

## SCHOOL YEAR 1925—1926

To the Teacher or Superintendent: The State and National authorities need and demand all the data called for in this report. You are rendering a valuable service by a careful and prompt filling out of each item. For common schools of one teacher, items with starred numbers only are to be filled. In schools of two or more teachers the data should be collected by the Superintendent or Principal and embodied in one report. Two copies are to filed with the County Superintendent within one week after the close of school.

### SCHOOL YEAR 1943-1944

To the Teacher or Superintendent: The State and National authorities need and demand all the data called for in this report. You are rendering a valuable service by a careful and prompt filling out of each item. For common schools of one teacher, items with starred numbers only are to be filled. In schools of two or more teachers the data should be collected by the Superintendent or Principal and embodied in one report. One copy is to be filled with the County Superintendent within one week after the close of school.

### SCHOOL YEAR 1944-1945

To the Teacher or Superintendent: The State and National authorities need and demand all the data called for in this report. You are rendering a valuable service by a careful and prompt filling out of each item. For common schools of one teacher, items with starred numbers only are to be filled. In schools of two or more teachers the data should be collected by the Superintendent or Principal and embodied in one report. One copy is to be filled with the County Superintendent within one week after the close of school.

# SCHOOL YEAR 1945-1946

To the Teacher or Superintendent: The State and National authorities need and demand all the data called for in this report. You are rendering a valuable service by a careful and prompt filling out of each item. For common schools of one teacher, items with starred numbers only are to be filled. In schools of two or more teachers the data should be collected by the Superintendent or Principal and embodied in one report. One copy is to be filed with the County Superintendent within one week after the close of school.

### **SCHOOL YEAR 1947-1948**

To the Teacher or Superintendent: The State and National authorities need and demand all the data called for in this report. You are rendering a valuable service by a careful and prompt filling out of each item. For common schools of one teacher, items with starred numbers only are to be filled. In schools of two or more teachers the data should be collected by the Superintendent or Principal and embodied in one report.

One copy is to be filed with the County Superintendent within one week after the close of school.

### DISTRICT 110; BRUSHY MOUND

### BOARD OF DIRECTORS

Henry Behme, Pres. Carlinville
Earl W. Ramey, Clerk Carlinville
Theodore Hammann Carlinville

### October 13, 1943

Mr. Earl W. Ramey, Clerk Board of Directors, District 110 Carlinville, Illinois

Gentlemen:

On October 6 I visited the Brushy Mound School, District 110. Mrs. Caroline Rademacher is well qualified and has had several years of experience in teaching. I am sure that she is making you an excellent teacher. She is very much interested in her work and the children seem to be very respectful and studious.

You are to be congratulated upon the way you have kept your school on the approved list. Your building is old but, on the whole, it is well equipped and serves your purpose pretty well. I am glad you have always been ordering the Pupils Reading Circle Books from the State Reading Circle Board. I hope that you will order them this year and every year as they are the cheapest and best books you can buy for all the children in year school. The floors could be recleaned, varnished and waxed, and also the interior of the building needs to be redecorated when you have available funds.

I notice in your claim for state aid that you had an overdraft of \$164.51. I also notice that you levied only \$1200 for educational purposes, giving you a rate of .86 in place of 1.00. This caused your state id to be less than it should be. Therefore, I suggest that next year you raise your levy to 1.00 and also increase your rate for milding purposes to about .20 in place of .08. This will increase your state aid considerably and give you additional funds to make your school more attractive to the children and equip it better. The children in Brushy Mound are just as deserving as are the children of any other school district in Macoupin County and I am sure that no one will object to a few cents additional tax if you get an equal amount of state aid.

Sincerely yours,

I. K. Juergensmeyer County Superintendent of Schools

# STATE OF ILLINOIS DEPARTMENT OF PUBLIC HEALTH SANITARY ENGINEERING LABORATORIES SPRINGFIELD

C. W. Klasson, Action

ZHARRYZK KEROUESN, CHIEF ENGINEER

EUGENE S. CLARK, BACTERIOLOGIST

JAMES G. WEART, JR., CHEMIST

SANITARY ANALYSIS OF WATER FROM Cerlinville Private Supply
Source42-ft. dug. well, Erushy Mound School House, Dist. #110
Date collectedAug24, 1936
Collected by C. A. Glessner, School Clerk for
Remarks
Sediment Slight
Turbidity3
Odor faintly disagreeable
Nitrite nitrogen
Nitrate nitrogen
Chloride
Bacteria per ml. (37° C.)Innumerable
Bacteria of the colon group:
In portions of 10 ml.
Presumptive tests5.±
Confirmatory tests

This analysis indicates that the water was contaminated and was not safe to drink at the time the sample was collected.

The well appears to be subject to contamination caused by shallow ground water and rain seeping through the upper portion of the well lining. Also dust, dog and bird contamination may be washed under the pump base and through the manhole into the well. Therefore, we recommend that the well be reconstructed as follows:

- l. Pour a six-inch reinforced concrete wall around the outside of the present well lining to a depth of 8 feet, or remove the old lining and build a proper form in which to pour the concrete. (See bulletin.)
- 2. Build a new reinforced concrete platform, inserting an iron pipe sleeve in the concrete, underneath the pump base and extending into the pump base at least an inch, as illustrated in the bulletin.
- 3. After the above repairs are made the well should be sterilized with chlorinated lime as outlined on page 11 of our bulletin on wells.

Unless these improvements are made the well cannot be considered a satisfactory source of drinking water.

b1<u>-1</u>

Mr. Karl Kerstein, County Supt. of Schools, Carlinville, Illinois.

Chief Sanitary Engineer

SEL Form 10B—(34361)

### CONCERNING THIS SANITARY ANALYSIS

The statements on the reverse side are based not only on the analytical results, but also on the description of the source as furnished by you or already on file in this office. It is further recommended as follows:

- (a) If the water is unsafe to drink, abandon the supply for one of known safety or bring the water to a boil before use, until the suggested improvements have made the supply safe.
  - (b) If the source is not satisfactory, make the suggested improvements immediately.
  - (c) If the water is safe, take care to keep it safe by protecting the supply from contamination.

A laboratory examination of the water has been made to show the presence of absence of waste matter of human or animal origin. If the water is contaminated by surface wash or sewage, then parasitic intestinal worms, amedic cysts or germs of intestinal diseases, such as cause bowel complaint, diarrhea, dysentery or typhoid fever, may be present in the water, thus endangering the health of persons drinking the water. The analytical terms and results are briefly explained as follows:

Physical and Chemical Tests: "Sediment" through "Chloride." A desirable water has an attractive appearance (no sediment or turbidity) and has no objectionable odor or taste. Chemical results are given in parts per million.

Bacteriological Tests: "Bacteria per mi." indicates the number of microorganisms present in one milliliter (ml.) of water (20 drops). The result reported gives the number of bacteria which will grow at body temperature (37°C or 98°F). These bacteria may not be of intestinal origin and therefore may not be of sanitary importance. Occasionally the test plates are overcrowded so that no bacterial count can be obtained. In such case the report shows "Innumerable" indicating more than 1000 bacteria per ml.

"Bacteria of the colon group" "Presumptive" "Confirmatory Tests": A water containing bacteria of intestinal origin (colon bacteria), if placed in a sugar broth (lactose), will cause fermentation and production of gas in 24 or 48 hrs. By means of further laboratory tests the presence of these bacteria in 10 ml. portions is indicated by a +, their absence by a -. The numeral preceding the sign shows the number of portions giving that result.

Example: 2+3— indicates that two 10 ml. portions of the sample did show and three portions did not show colon bacteria present.

After receipt of the sample in the laboratory it requires from two to five days to complete the sanitary analysis.

### VERNON L. NICKELL

SUPERINTENDENT OF PUBLIC INSTRUCTION

### RURAL SCHOOL ANNUAL REPORT AND APPLICATION FOR RECOGNITION

For School Year 1944-1945

To be filed by all districts with one or two teachers

This report is to be made in triplicate by the teacher and signed by both the teacher and the clerk of the board. The teacher is to keep one copy for the files of the school. Not later than October 1st, two copies are to be delivered to the county superintendent of schools who, in turn, will forward a copy to the State Office. For assistance in filling in the report, see the Rural Elementary School Handbook, Office of Superintendent of Public Instruction.
