TEACHER'S REMARKS ON CLASSIFICATION

I teach the 1st 3rd 5th 7th grades. But some pupils, for instance one of my girls take 3rd year work but reads in the second reader and my seventh grade pupils take fifth year spelling. They are all so poor in spelling and grammar. Those in the 7th grade seem to know nothing of grammar.

I tried so hard to get them to use the Smith's Arithmetic and the Gowdy grammar, but it was in vain. I use the Smith's Arithmetic and also the grammar, even though they haven't a book. I write the lessons on the black board.

Some pupils are so much higher advanced than others in the same class. Some have such irregular attendance. I'm going to try and get a dictionary, because it is so hard to do with out one.

TO THE TEACHER:

This Preliminary Report should show the present organization of your school, and the condition of your schoolroom and grounds. It will enable me to give you prompt and valuable assistance during your present term of school. Please fill out carefully with ink, and mail to me at the close of the FIRST WEEK of school. Due credit will be given you for filing this report promptly.

TEACHER'S REMARKS ON CLASSIFICATION

Mr Moore —

Have had quite a lot of trouble in placing my pupils in their classes. The teachers register of last year said to place pupils in certain classes, while their report cards which she gave them, did ~~dont~~ not say the same. Have them placed now & I sincerly hope that this report will be satisfactory.

TO THE TEACHER: 127

This Preliminary Report should show the present organization of your school, and the condition of your schoolroom and grounds. It will enable me to give you prompt and valuable assistance during your present term of school. Please fill out carefully with ink, and mail to me at the close of the FIRST WEEK of school. Due credit will be given you for filing this report promptly.

Teacher's name Clara A. Schneider Address while teaching Mt. Olive, Ill Forest E. S. Dist. No. 7

TEACHER'S REMARKS ON CLASSIFICATION

I think that my school is crowded for a rural school. I have seven grades, having them all except the sixth. I cannot alternate any more however as this is the year for the 1-2-3-5-7 grades and the pupils have had the lower grade work. I have also eighth grade this year. This is due to those children having to go to Confirmation this past winter. This, however they will try and remedy for the coming year. No. 17 did not pass his examination.

TO THE TEACHER:

This Preliminary Report should show the present organization of your school, and the condition of your schoolroom and grounds. It will enable me to give you prompt and valuable assistance during your present term of school. Please fill out carefully with ink, and mail to me immediately after the school is organized. Due credit will be given for filing this report promptly.

Failure to file this Report in the Superintendent's Office will be entered in his Record against the Teacher as Dereliction of Duty.

This reporting sheet corresponds to a page of your Classification Register (*not Attendance Register*); please fill it out with ink from your Classification Register and return to me at the end of the last month of the term. It will be kept for public inspection. Study the plan given below and follow it accurately. If you have not a Classification Register in your School *let me know at once;* also inform the President of your School Board or your Director.

The Register can be obtained at the County Superintendent's office.

Please endeavor to have a Register provided for your school *at once*, so that all the schools may be classified before the end of the term.

How to Classify Your School in the Classification Register.

1st. Read the course of study carefully; notice the number of grades and the work that each grade includes.

2d. Ascertain in which grade of the Course each pupil has *most* of his work, and classify him in that grade. If he has not all of his studies in this grade, mark the grade in which such other studies are found, under the headings for these respective studies. (See sample form in Register.)

3d. When a pupil has completed a study and passed a satisfactory examination, credit him with it in the column of "Studies Completed this Term," also record it in the "Record of Studies Completed," in the back part of the Register. This record should show every study which each pupil completes, until he finishes the course and graduates from the district school. The graduating of classes is one of the greatest incentives that can be used in keeping pupils from "dropping out" of school. Diplomas for graduation will be furnished by the County Superintendent for all pupils who finish the course of study.

4th. The "Syllabus of Classes" shows every class in each study, and the pupils (indicated by numbers) belonging to it, also the pages canvassed by each class during the term. The names of pupils belonging to each class may be found by referring to the names, corresponding to each number, in the column of "Names of Pupils."

5th. The *first* classification of any school is the most difficult, and should be made with much care. Succeeding teachers should not change the classification left by their predecessors without good reason.

6th. The classification as left by each teacher should show the status of each pupil at the *close* of each term each being classified in the grade which he has just *finished.*

7th. A pupil changing from one school to any other in which this Register is used, may receive from his teacher a certificate of his standing, which will enable the teacher whose school he enters to classify him without examination.

8th. *Certificates of Promotion* and Monthly Reports to Parents may be found to be valuable helps.

9th. Be *just* and *fair* in your markings, neither too high nor too low, so as to avoid clashing of opinion by successive teachers.

All persons are warned against making or publishing this blank, or any modification of it, as it belongs to a series consisting of "Welch's System of Supervision," and is under copyright.

Write Answers to the following Questions:

Is your daily program posted up in your school room? Yes

Do you make *daily* preparation for your work? Yes.

Do you give Oral Language Lessons to the First and Second Reader classes, and have them write from ten to twenty minutes daily? Yes.

Do you spend at least fifteen minutes daily in giving special drills in writing to all grades? Not every day.

Do you have those in the Third and Fourth Reader grades write at least one letter each week besides other language work? No.

Do you give Number Work to the lower grades daily? Yes.

Do you try to decorate your school room? Yes.

TEACHER'S REMARKS TO SUPERINTENDENT

(NOTE.—State what your school needs in apparatus, blackboards, etc.; also give the names of pupils not provided with books, naming the books needed. Suggest wherein the County Superintendent can co-operate with you for the advancement of your school, etc.)

A well and more blackboard are needed. A globe and a chart would be of great use.

Failure to file this Report in the Superintendent's Office will be entered in his Record against the Teacher as Dereliction of Duty.

This reporting sheet corresponds to a page of your Classification Register (*not Attendance Register*); please fill it out with ink from your Classification Register and return it to me at the end of the last month of the term. It will be kept for public inspection. Study the plan given below and follow it accurately. If you have not a Classification Register in your School *let me know at once;* also inform the President of your School Board or your Director.

The Register can be obtained at the County Superintendent's office.

Please endeavor to have a Register provided for your school *at once*, so that all the schools may be classified before the end of the term.

How to Classify Your School in the Classification Register.

1st. Read the course of study carefully; notice the number of grades and the work that each grade includes.

2d. Ascertain in which grade of the Course each pupil has *most* of his work, and classify him in that grade. If he has not all of his studies in this grade, mark the grade in which such other studies are found, under the headings for these respective studies. (See sample form in Register.)

3d. When a pupil has completed a study and passed a satisfactory examination, credit him with it in the column of "Studies Completed this Term," also record it in the "Record of Studies Completed," in the back part of the Register. This record should show every study which each pupil completes, until he finishes the course and graduates from the district school. The graduating of classes is one of the greatest incentives that can be used in keeping pupils from "dropping out" of school. Diplomas for graduation will be furnished by the County Superintendent for all pupils who finish the course of study.

4th. The "Syllabus of Classes" shows every class in each study, and the pupils (indicated by numbers) belonging to it, also the pages canvassed by each class during the term. The names of pupils belonging to each class may be found by referring to the names, corresponding to each number, in the column of "Names of Pupils."

5th. The *first* classification of any school is the most difficult, and should be made with much care. Succeeding teachers should not change the classification left by their predecessors without good reason.

6th. The classification as left by each teacher should show the status of each pupil at the *close* of each term each being classified in the grade which he has just *finished.*

7th. A pupil changing from one school to any other in which this Register is used, may receive from his teacher a certificate of his standing, which will enable the teacher whose school he enters to classify him without examination.

8th. *Certificates of Promotion* and Monthly Reports to Parents may be found to be valuable helps.

9th. Be *just* and *fair* in your markings, neither too high nor too low, so as to avoid clashing of opinion by successive teachers.

All persons are warned against making or publishing this blank, or any modification of it, as it belongs to a series consisting of "Welch's System of Supervision," and is under copyright.

Write Answers to the following Questions:

Is your daily program posted up in your school room? Yes

Do you make *daily* preparation for your work? Yes

Do you give Oral Language Lessons to the First and Second Reader classes, and have them write from ten to twenty minutes daily? Yes

Do you spend at least fifteen minutes daily in giving special drills in writing to all grades? Yes

Do you have those in the Third and Fourth Reader grades write at least one letter each week besides other language work? Yes, nearly. *

Do you give Number Work to the lower grades daily? Yes

Do you try to decorate your school room? Yes

*. Followed work as outlined in the State Course of Study.

Teacher's Remarks to Superintendent

(NOTE—State what your school needs in apparatus, blackboards, etc.; also give the names of pupils not provided with books, naming the books needed. Suggest wherein the County Superintendent can co-operate with you for the advancement of your school, etc.)

This school needs more blackboard, badly, also new text books. We are using Fish's arithmetic, which is a very old book making it very hard to follow the course. We are at present using Harvey's grammar, also the Electic geography both of which are old books. Have no well, and the coal house very old.

Teacher's Remarks to Superintendent

(NOTE—State what your school needs in apparatus, blackboards, etc.; also give the names of pupils not provided with books, naming the books needed. Suggest wherein the County Superintendent can co-operate with you for the advancement of your school, etc.)

This school needs more reference books, a globe, and also more smaller seats for the little children.

Failure to file this Report in the Superintendent's Office will be entered in his Record against the Teacher as Dereliction of Duty.

This reporting sheet corresponds to a page of your Classification Register (*not Attendance Register*); please fill it out with ink from your Classification Register and return it to me at the end of the last month of the term. It will be kept for public inspection. Study the plan given below and follow it accurately. If you have not a Classification Register in your School *let me know at once;* also inform the President of your School Board or your Director.

The Register can be obtained at the County Superintendent's office.

Please endeavor to have a Register provided for your school *at once*, so that all the schools may be classified before the end of the term.

How to Classify Your School in the Classification Register.

1st. Read the course of study carefully; notice the number of grades and the work that each grade includes.

2d. Ascertain in which grade of the Course each pupil has *most* of his work, and classify him in that grade. If he has not all of his studies in this grade, mark the grade in which such other studies are found, under the headings for these respective studies. (See sample form in Register.)

3d. When a pupil has completed a study and passed a satisfactory examination, credit him with it in the column of "Studies Completed this Term," also record it in the "Record of Studies Completed," in the back part of the Register. This record should show every study which each pupil completes, until he finishes the course and graduates from the district school. The graduating of classes is one of the greatest incentives that can be used in keeping pupils from "dropping out" of school. Diplomas for graduation will be furnished by the County Superintendent for all pupils who finish the course of study.

4th. The "Syllabus of Classes" shows every class in each study, and the pupils (indicated by numbers) belonging to it, also the pages canvassed by each class during the term. The names of pupils belonging to each class may be found by referring to the names, corresponding to each number, in the column of "Names of Pupils."

5th. The *first* classification of any school is the most difficult, and should be made with much care. Succeeding teachers should not change the classification left by their predecessors without good reason.

6th. The classification as left by each teacher should show the status of each pupil at the *close* of each term each being classified in the grade which he has just *finished.*

7th. A pupil changing from one school to any other in which this Register is used, may receive from his teacher a certificate of his standing, which will enable the teacher whose school he enters to classify him without examination.

8th. *Certificates of Promotion* and Monthly Reports to Parents may be found to be valuable helps.

9th. Be *just* and *fair* in your markings, neither too high nor too low, so as to avoid clashing of opinion by successive teachers.

All persons are warned against making or publishing this blank, or any modification of it, as it belongs to a series consisting of "Welch's System of Supervision," and is under copyright.

Write Answers to the following Questions:

Is your daily program posted up in your school room? yes

Do you make *daily* preparation for your work? yes

Do you give Oral Language Lessons to the First and Second Reader classes, and have them write from ten to twenty minutes daily? our writing period is 15 min.

Do you spend at least fifteen minutes daily in giving special drills in writing to all grades? yes.

Do you have those in the Third and Fourth Reader grades write at least one letter each week besides other language work? yes.

Do you give Number Work to the lower grades daily? yes.

Do you try to decorate your school room? yes. as well as we can.

Teacher's Remarks to Superintendent

(NOTE—State what your school needs in apparatus, blackboards, etc.; also give the names of pupils not provided with books, naming the books needed. Suggest wherein the County Superintendent can co-operate with you for the advancement of your school, etc.)

The blackboards are in a fair condition. The pupils are provided with the necessary books. The equipment in general are in good conditions.

Failure to file this Report in the Superintendent's Office will be entered in his Record against the Teacher as Dereliction of Duty.

This reporting sheet corresponds to a page of your Classification Register (*not Attendance Register*); please fill it out with ink from your Classification Register and return it to me at the end of the last month of the term. It will be kept for public inspection. Study the plan given below and follow it accurately. If you have not a Classification Register in your School *let me know at once;* also inform the President of your School Board or your Director.

The Register can be obtained at the County Superintendent's office.

Please endeavor to have a Register provided for your school *at once*, so that all the schools may be classified before the end of the term.

How to Classify Your School in the Classification Register.

1st. Read the course of study carefully; notice the number of grades and the work that each grade includes.

2d. Ascertain in which grade of the Course each pupil has *most* of his work, and classify him in that grade. If he has not all of his studies in this grade, mark the grade in which such other studies are found, under the headings for these respective studies. (See sample form in Register.)

3d. When a pupil has completed a study and passed a satisfactory examination, credit him with it in the column of "Studies Completed this Term," also record it in the "Record of Studies Completed," in the back part of the Register. This record should show every study which each pupil completes, until he finishes the course and graduates from the district school. The graduating of classes is one of the greatest incentives that can be used in keeping pupils from "dropping out" of school. Diplomas for graduation will be furnished by the County Superintendent for all pupils who finish the course of study.

4th. The "Syllabus of Classes" shows every class in each study, and the pupils (indicated by numbers) belonging to it, also the pages canvassed by each class during the term. The names of pupils belonging to each class may be found by referring to the names, corresponding to each number, in the column of "Names of Pupils."

5th. The *first* classification of any school is the most difficult, and should be made with much care. Succeeding teachers should not change the classification left by their predecessors without good reason.

6th. The classification as left by each teacher should show the status of each pupil at the *close* of each term each being classified in the grade which he has just *finished.*

7th. A pupil changing from one school to any other in which this Register is used, may receive from his teacher a certificate of his standing, which will enable the teacher whose school he enters to classify him without examination.

8th. *Certificates of Promotion* and Monthly Reports to Parents may be found to be valuable helps.

9th. Be *just* and *fair* in your markings, neither too high nor too low, so as to avoid clashing of opinion by successive teachers.

All persons are warned against making or publishing this blank, or any modification of it, as it belongs to a series consisting of "Welch's System of Supervision," and is under copyright.

Write Answers to the following Questions:

Is your daily program posted up in your school room? yes.

Do you make *daily* preparation for your work? not all of it.

Do you give Oral Language Lessons to the First and Second Reader classes, and have them write from ten to twenty minutes daily? yes.

Do you spend at least fifteen minutes daily in giving special drills in writing to all grades? not every day.

Do you have those in the Third and Fourth Reader grades write at least one letter each week besides other language work? yes.

Do you give Number Work to the lower grades daily? yes.

Do you try to decorate your school room? Not much.

Teacher's Remarks to Superintendent

(NOTE—State what your school needs in apparatus, blackboards, etc.; also give the names of pupils not provided with books, naming the books needed. Suggest wherein the County Superintendent can co-operate with you for the advancement of your school, etc.)

Failure to File this Report in the Superintendent's Office will be entered in his Record against the Teacher as a Dereliction of Duty.

This reporting sheet corresponds to the classification section of your Combined Register; please fill it out with ink from your Register and return to me at the end of the last month of the term. It will be kept for public inspection. Study the plan given below and follow it accurately. If you have not a Combined Register in your School let me know at once; also inform the President of your School Board or your Director.

The Register can be obtained at the County Superintendent's office.

Please endeavor to have a Register provided for your school at once, so that your school may be classified before the end of the term.

How to Classify Your School in the Classification Register.

1st. Read the course of study carefully; notice the number of forms and the work that each form includes.

2d. Ascertain in which form of the Course each pupil has most of the work, and classify him in that form. If he has not all of his studies in this form, mark the form in which such other studies are found, under the headings for these respective studies. (See sample form in Register.)

3d. When a pupil has completed a study and passed a satisfactory examination, credit him with it in the column of "Studies Completed this Term," also record it in the "Record of Studies Completed," in the back part of the Register. This record should show every study which each pupil completes, until he finishes the course and graduates from the district school. The graduating of classes is one of the greatest incentives that can be used in keeping pupils from "dropping out" of school. Diplomas for graduation will be furnished by the County Superintendent for all pupils who finish the course of study.

4th. The "Syllabus of Classes" shows every class in each study, and the pupils (indicated by numbers) belonging to it, also the pages canvassed by each class during the term. The names of pupils belonging to each class may be found by referring to the names, corresponding to each number, in the column of "Names of Pupils."

5th. The first classification of any school is the most difficult, and should be made with much care. Succeeding teachers should not change the classification left by their predecessors without good reason.

6th. The classification as left by each teacher should show the status of each pupil at the close of each term each being classified in the grade which he has just finished. In making your recommendations in the section at right of "Pages Canvassed this Term," be just. This section classifies this school for your successor. Make no recommendations that you would not folow scrupulously were you to continue work in this school next term.

7th. A pupil changing from one school to any other in which this Register is used, may receive from his teacher a certificate of his standing, which will enable the teacher whose school he enters to classify him without examination.

8th. **Certificates of Promotion** and Monthly Reports to Parents are valuable helps and may be obtained from the County Superintendent.

9th. Be just and fair in your markings, neither too high nor too low, so as to avoid clashing of opinion by successive teachers.

The following will assist you in making your Report accurately:

Total Number of Days of Absence—This will be the sum of the days of absence of all pupils enrolled during the term. Do not count the days a pupil was "dropped" as "days of absence." When a pupil is "dropped" he is not a member of your school and hence cannot be considered as "absent" in the sense in which the word "absent" is here used.

Absence that is less than half a day will be reported as a half day's absence; for example, if a pupil comes before the close of the forenoon recess, count him tardy only; but if he should not arrive until after the forenoon recess, count him absent a half day. Observe the same rule for the afternoon session.

Total Number of Days of Attendance—This will be the sum of the days of attendance of all pupils enrolled during the term. The total number of days of attendance, plus the total number days of absence, should ALWAYS equal the total number days of membership. This fact will enable you to test the accuracy of your results.

Average Daily Attendance—This is found by dividing the total days of attendance by the number of days taught. Always express the quotient as a whole number. A fraction that is less than a half should be dropped, but a fraction that is a half or more should be called 1.

Number Violating Compulsory Attendance Law—The law requires all pupils between the ages of seven and sixteen to attend school regularly at least twenty-four consecutive weeks. It does not apply to pupils who live more than two miles from school.

Whole Number of Days Taught—Count every day for which you draw pay as taught.

Average Cost of Tuition per Month per Pupil This is found by dividing the amount paid the teacher per month by the average daily attendance for the term.

Write Answers to the Following Questions:

1. Is your daily program posted up in your school room? Yes

2. Do you make daily preparation for your work? Yes

3. Do you give Oral Language Lessons to the First and Second Reader Classes, and have them write from ten to twenty minutes daily? 15 minutes daily

4. Do you spend at least fifteen minutes daily in giving special drills in writing in all grades? 10 minutes

5. Do you have your pupils use pen and ink in Writing Lessons? Yes

6. Where do you expect to teach next term? Uncertain

7. If you do not at present have a position for next term, will you notify this office as soon as you get the promise of a position—and give the name of the school? Yes

TEACHERS' ANNUAL REPORT

SCHOOL YEAR 1924–1925

To the Teacher or Superintendent: The State and National authorities need and demand all the data called for in this report. You are rendering a valuable service by a careful and prompt filling out of each item. For common schools of one teacher, items with starred numbers only are to be filled. In schools of two or more teachers the data should be collected by the Superintendent or Principal and embodied in one report. Two copies are to be filed with the County Superintendent within one week after the close of school.

* 1. Name of School Sunnyside Dist. No. 127 Macoupin County, Illinois.

Enrollment Note: All whose names have been enrolled during the year should be reported and classified as they are at the close of the year before promotion, or at the time they may have left the district.

Mr. W. J. Rull, Clerk
Board of Directors, District #127

Gentlemen:

On November 2 I visited the Sunnyside School, District #127. Mrs. Mabel Crouch is well qualified and experienced for her work. I am sure you appreciate her value in your community as you have reemployed her a number of years. I hope you will be able to keep her many more.

You are to be congratulated on keeping your school on the recognized list and equipping it as well as you have. Although this is an old building, it serves the purpose pretty well. I hope you will always order the Pupils Reading Circle Books as you have done in the past. These books are the cheapest and best you can buy for all the children.

Sincerely yours,

I. K. Juergensmeyer
County Superintendent of Schools

To Directors,
Sunnyside School District #127,
Macoupin County, Illinois.

Dear Sirs:

Today your County Superintendent Mr. Wilhite and I visited your school. I beg to make the following suggestions:

(1) I observe that you are putting on a new roof. It seems that the building is hardly worth any repairs.

(2) The support of the floor seems to be in bad condition as the floor is very uneven.

(3) The stove is in bad condition and should be replaced by a modern room heater placed in the Northeast corner of the room. With such a heater there would be some ventilation.

(4) The walls are very dirty and dark. They should be repainted in colors suggested by Mr. Wilhite.

(5) You need two sets of supplementary readers for the children of the second grade. You need a set of reference books. It would be fine if you had the Pupils Reading Circle books as your children would get much pleasure and information out of them.

Your library is small but it will soon be satisfactory if you add the Pupils Reading Circle books and a few other worthy books annually.

These suggestions are made to the end that your children may have the best possible school privileges.

Very truly yours,

Assistant Superintendent

Gentlemen:

Based on an inspection of the sanitary facilities at Sunnyside School, District #127 Macoupin County, made April 12, 1939 we conclude that the following sanitary defects exist:

a) The well is subject to contamination by shallow ground water seepage which may enter through cracks that can develop in the brick well lining; rain, waste pumpage, dust, bird and dog contamination which may enter the well through cracks in and around the boards which support the pump; dust, bird and dog contamination that may be washed into the well through cracks in the split-base pump;contaminated waste pumpage which will saturate the ground surrounding the well and which may re-enter it.

In order to correct these sanitary defects at the school, we recommend the following improvements:

1. Pour a 6 inch reinforced concrete wall around the outside of the present well lining to a depth of at least 8 feet below the surrounding ground surface. Directions for such construction are shown on page 8 of the enclosed bulletin.

2. Reconstruct the well platform with a 4 inch concrete slab extending beyond the walls at least one foot in all directions. A short iron pipe sleeve, whose diameter will allow the passage of the pump cylinder, should be placed in the platform at the time of construction. Sleeve should extend about one inch into the pump base. The pump should rest directly on the concrete and be firmly bolted in place as shown in Fig.6 of the enclosed bulletin.

3. Replace the split-base pump with a pump having a one piece circular base, and a stuffing box surrounding the pump rod.

4. Provide a substantial, water tight trough 15 feet in length to carry waste pumpage away from the immediate vicinity of the well.

5. Sterilize the well water after the above improvements have been made and before it is used for drinking purposes. The procedure for sterilization is described on pages 16 and 17 of the enclosed bulletin.

ADDRESS ALL CORRESPONDENCE TO THE ACTING DIRECTOR
IN REPLY REFER TO FILE S. E.

After completing the above recommendations (pertaining to the water supply) the water quality may be checked by sending a sample to the laboratory of the State Department of Public Health at Springfield. The sample must be collected in a sterile bottle provided by the laboratory. When writing to the State Department of Public Health for a container, please mention that repairs have been made as recommended. There is no charge for the analysis other than the cost of mailing the container.

It was noted that the lid in the boys' privy was off of one hinge and propped open. The sanitary pit privies as installed at the school are of the type approved by this department since they are designed to be flytight. For this reason, the lids are made self-closing so that insects cannot enter the pit through the seats. In order to maintain this effectiveness the lids must be hinged and self-closing. They should not be propped open.

Since the school officials are responsible for the protection of the pupils' while at school, it is important that the above recommendations be fulfilled.

If the engineers of this department can be of service in connection with your water supply or sewerage problems, we shall be pleased to be so advised.

We shall appreciate an acknowledgement of this letter and information regarding the action taken toward following the above recommendations.

NOTES TO TEACHERS AND DIRECTORS

SEC. 187. The Schedule, or Schedules, shall be delivered to one of the Directors, who shall, if requested, give the teacher a receipt for the same. It shall be the duty of the Director to examine carefully such Schedule, or Schedules, with at least one other Director, and correct any errors, and if such Schedule has been made according to law, they shall certify to the same.

SEC. 81. The Township Treasurer shall pay out no funds of any school district except upon an order of the Board of Directors, signed by the President and Clerk, or by a majority of the Board. When an order issued for the wages of a Teacher is presented to the Treasurer and is not paid for want of funds, the Treasurer shall endorse it over his signature, "not paid for want of funds" with the date of presentation, and shall make and keep a record of such endorsement. Such order shall thereafter draw interest at the legal rate until paid, or until the Treasurer shall notify the Clerk in writing that he has funds to pay such order, and the Treasurer shall make and keep a record of such notices, and hold the funds necessary to pay such order until it is presented. Such order shall draw no interest after notice is given to the Clerk.

SEC. 188. The school month shall be the same as the calendar month. But a Teacher shall not be required to teach on Saturdays or legal school holidays, which are the first day of January, the fourth day of July, the twenty-fifth day of December, and any day appointed by the President or Governor as a day of fast or thanksgiving, and no deduction shall be made from the time or compensation of a Teacher on account of such days.

SEC. 186. In all districts controlled by a Board of Directors, Teachers shall make schedules of the names of all pupils attending school, in the form prescribed by this Act, and when pupils reside in two or more districts, townships or counties, separate schedules shall be kept for each district, township or county. Boards of Education may require Teachers to make schedules, or Statements certifying the number of days' attendance for each month, as shown by their registers, which shall be certified by the Board of Education, and be subject to the same requirements as schedules. Schedules shall be certified by the Teacher.
