## SPECIAL REPORT

Give general condition of your schoolroom with regard to cleanliness, desks, stove, windows and decorations

A new floor having been put in, my floor is easily kept looking nice. The desks are double. Stove old, and has no coat. Have six windows, and only three curtains. Several pictures on the walls to relieve the bareness.

No. volumes in library Have no library General condition of library books Have none. Do you keep a Library Record? No. Have you a suitable book-case? No. Give full name of dictionary as it appears on the cover Webster's International Dictionary. Condition Good Kind of blackboard in use Painted Boards. Condition Very Good. What is the general condition of your school grounds? Since school began I have succeeded in interesting the pupils in regard to a pretty school ground. We have worked hard on our yard, and now it is in a good condition.

No. living trees on school grounds Six State condition of outbuildings, Boys' In a fair condition, but has nothing to screen it from the public. Girls' The same as the Boys'. Coal house An old one, looks as if it was ready to fall down. Teacher's salary per month, $ 40.00

Term ends April, (about the last of April.) 1911

Teacher's name Gladys B. Lorton Address while teaching Virden, Illinois.

## TEACHER'S REMARKS ON CLASSIFICATION

Taking the pupils as a whole, they are very dumb, are unwilling to work and are very mischievious. I don't think it wholly the pupils fault. For the last three years they have done just about as they pleased. I have three seventh graders. Two are bright; but they don't seem to know what studying really is. They are very poor in arithmetic. I had to begin with fractions, and found they couldn't get along very well with them. The class isn't able to begin on Percentage yet, but think they will in about a week. The fifth graders are not so bright as the seventh graders. Their trouble lies in arithmetic, also. When keeping along with the course of study in everything except arithmetic. I devote all the time I possible can on the seventh and fifth year arithmetic classes. They are improving nicely, now. Have only one pupil in the third grade. She does very nice work in everything. Have one second grade pupil. She is doing fine work in everything. Have three first graders. Two of them are doing most excellent work. The third is a foreigner, and as he uses English, only at school, is rather slow. But he too, gets along nicely. Have three Primary pupils. They have been doing so nicely, that they are ready to start on the first reader.

Teacher's name Gladys B. Lorton Address while teaching Virden, Illinois.

## TEACHER'S REMARKS ON CLASSIFICATION

All pupils are up with the required work. Have a school of pupils who are eager and willing to learn, and never complain of an assignment that I make. The sixth year people are poor in Arithmetic and Language. I have two first grades. Last year I had some that I did not promote. This year I have a class beginning the first grade. They can not do the work that the class of last year does, so I have them in a class by themselves.

TO THE TEACHER: 12

This Preliminary Report should show the present organization of your school, and the condition of your schoolroom and grounds. It will enable me to give you prompt and valuable assistance during your present term of school. Please fill out carefully with ink, and mail to me at the close of the FIRST WEEK of school. Due credit will be given you for filing this report promptly.

## TEACHER'S REMARKS ON CLASSIFICATION

Our school room is in very good condition. We have new single seats, a nice book case, Smiths Heater and Ventilator, a new teacher's desk and chair. The black boards are wooden but are in good condition. There are three cloak rooms. A new fence would improve the looks of our school yard. The fence we have is hedge and rail.

**TEACHER'S REMARKS ON CLASSIFICATION**

Previous teachers have not graded this school, as it is advised in the State Course. Naturally, the pupils had all their books and objected to being placed in any class other than the one into which they had been promoted. However I can not teach all seven giddes and do the required amount of work. I do not have any established program yet because I am trying to find out the work the pupils are really capable of doing. I think the three "fourth Grade" people can do "fifth Grade" work all right. But I should like your advice in regard to the "Sixth Grade". If it is taught this year, then they will either have seventh next year or omit it and go to Eighth. When would be the better time to change them? I shall send you a copy of my daily program later if it is necessary.

Since I am a new teacher I did not feel like going into a school and changing it so much unless I had the approval of the County Supt. Was I right in so?

## TEACHER'S REMARKS ON CLASSIFICATION

The Classification of the pupils who were here last year naturally is O.K. with me and I think O.K. but several who have moved in this district from elsewhere is poor. I am giving them a chance to "study up" but I'm afraid I will be compelled to put some of them in lower grade. The trouble I think lies in lack of attendance and indifference.

The library in general is a sad state as far as reading books (Stories etc) is concerned but a dandy new up-to-date encyclopedia has been purchased which helps immensely - give us time, we'll get there

THIS MARGIN FOR BINDING

**Failure to file this Report in the Superintendent's Office will be entered in his Record against the Teacher as Dereliction of Duty.**

This reporting sheet corresponds to a page of your Classification Register (*not Attendance Register*); please fill it out with ink from your Classification Register and return to me at the end of the last month of the term. It will be kept for public inspection. Study the plan given below and follow it accurately. If you have not a Classification Register in your School *let me know at once;* also inform the President of your School Board or your Director.

The Register can be obtained at the County Superintendent's office.

Please endeavor to have a Register provided for your school *at once*, so that all the schools may be classified before the end of the term.

---

### How to Classify Your School in the Classification Register.

1st. Read the course of study carefully; notice the number of grades and the work that each grade includes.

2d. Ascertain in which grade of the Course each pupil has *most* of his work, and classify him in that grade. If he has not all of his studies in this grade, mark the grade in which such other studies are found, under the headings for these respective studies. (See sample form in Register.)

3d. When a pupil has completed a study and passed a satisfactory examination, credit him with it in the column of "Studies Completed this Term," also record it in the "Record of Studies Completed," in the back part of the Register. This record should show every study which each pupil completes, until he finishes the course and graduates from the district school. The graduating of classes is one of the greatest incentives that can be used in keeping pupils from "dropping out" of school. Diplomas for graduation will be furnished by the County Superintendent for all pupils who finish the course of study.

4th. The "Syllabus of Classes" shows every class in each study, and the pupils (indicated by numbers) belonging to it, also the pages canvassed by each class during the term. The names of pupils belonging to each class may be found by referring to the names, corresponding to each number, in the column of "Names of Pupils."

5th. The *first* classification of any school is the most difficult, and should be made with much care. Succeeding teachers should not change the classification left by their predecessors without good reason.

6th. The classification as left by each teacher should show the status of each pupil at the *close* of each term each being classified in the grade which he has just *finished.*

7th. A pupil changing from one school to any other in which this Register is used, may receive from his teacher a certificate of his standing, which will enable the teacher whose school he enters to classify him without examination.

8th. *Certificates of Promotion* and Monthly Reports to Parents may be found to be valuable helps.

9th. Be *just* and *fair* in your markings, neither too high nor too low, so as to avoid clashing of opinion by successive teachers.

---

**Write Answers to the following Questions:**

Is your daily program posted up in your school room? Yes.

Do you make *daily* preparation for your work? Yes.

Do you give Oral Language Lessons to the First and Second Reader classes, and have them write from ten to twenty minutes daily? Yes.

Do you spend at least fifteen minutes daily in giving special drills in writing to all grades? Yes

Do you have those in the Third and Fourth Reader grades write at least one letter each week besides other language work? Twice a month.

Do you give Number Work to the lower grades daily? Yes

Do you try to decorate your school room? Yes.

All persons are warned against making or publishing this blank, or any modification of it, as it belongs to a series consisting of "Welch's System of Supervision," and is under copyright.

### TEACHER'S REMARKS TO SUPERINTENDENT

(NOTE.—State what your school needs in apparatus, blackboards, etc.; also give the names of pupils not provided with books, naming the books needed. Suggest wherein the County Superintendent can co-operate with you for the advancement of your school, etc.)

Irregular attendance main drawback to school. School was to have been in session seven months. Closed on account of no scholars.

**Failure to file this Report in the Superintendent's Office will be entered in his Record against the Teacher as Dereliction of Duty.**

This reporting sheet corresponds to a page of your Classification Register (*not Attendance Register*); please fill it out with ink from your Classification Register and return to me at the end of the last month of the term. It will be kept for public inspection. Study the plan given below and follow it accurately. If you have not a Classification Register in your School *let me know at once;* also inform the President of your School Board or your Director.

The Register can be obtained at the County Superintendent's office.

Please endeavor to have a Register provided for your school *at once,* so that all the schools may be classified before the end of the term.

---

## How to Classify Your School in the Classification Register.

1st. Read the course of study carefully; notice the number of grades and the work that each grade includes.

2d. Ascertain in which grade of the Course each pupil has *most* of his work, and classify him in that grade. If he has not all of his studies in this grade, mark the grade in which such other studies are found, under the headings for these respective studies. (See sample form in Register.)

3d. When a pupil has completed a study and passed a satisfactory examination, credit him with it in the column of "Studies Completed this Term," also record it in the "Record of Studies Completed," in the back part of the Register. This record should show every study which each pupil completes, until he finishes the course and graduates from the district school. The graduating of classes is one of the greatest incentives that can be used in keeping pupils from "dropping out" of school. Diplomas for graduation will be furnished by the County Superintendent for all pupils who finish the course of study.

4th. The "Syllabus of Classes" shows every class in each study, and the pupils (indicated by numbers) belonging to it, also the pages canvassed by each class during the term. The names of pupils belonging to each class may be found by referring to the names, corresponding to each number, in the column of "Names of Pupils."

5th. The *first* classification of any school is the most difficult, and should be made with much care. Succeeding teachers should not change the classification left by their predecessors without good reason.

6th. The classification as left by each teacher should show the status of each pupil at the *close* of each term each being classified in the grade which he has just *finished.*

7th. A pupil changing from one school to any other in which this Register is used, may receive from his teacher a certificate of his standing, which will enable the teacher whose school he enters to classify him without examination.

8th. *Certificates of Promotion* and Monthly Reports to Parents may be found to be valuable helps.

9th. Be *just* and *fair* in your markings, neither too high nor too low, so as to avoid clashing of opinion by successive teachers.

All persons are warned against making or publishing this blank, or any modification of it, as it belongs to a series consisting of "Welch's System of Supervision," and is under copyright.

## Write Answers to the following Questions:

Is your daily program posted up in your school room? Yes

Do you make *daily* preparation for your work? Yes

Do you give Oral Language Lessons to the First and Second Reader classes, and have them write from ten to twenty minutes daily? Most generally.

Do you spend at least fifteen minutes daily in giving special drills in writing to all grades? not always for want of time

Do you have those in the Third and Fourth Reader grades write at least one letter each week besides other language work? I try to.

Do you give Number Work to the lower grades daily? Most always.

Do you try to decorate your school room? no Sir

## Write Answers to the following Questions:

Is your daily program posted up in your school room? Yes sir until just a short time ago.

Do you make *daily* preparation for your work? Yes sir.

Do you give Oral Language Lessons to the First and Second Reader classes, and have them write from ten to twenty minutes daily? Yes usually.

Do you spend at least fifteen minutes daily in giving special drills in writing to all grades? Most always.

Do you have those in the Third and Fourth Reader grades write at least one letter each week besides other language work? Yes sir.

Do you give Number Work to the lower grades daily? Yes sir.

Do you try to decorate your school room? I already has a number of pictures on the wall but I did try to make it look a little cleaner by taking down the leaves from around the pictures which were covered with dust.

## Teacher's Remarks to Superintendent

(NOTE—State what your school needs in apparatus, blackboards, etc.; also give the names of pupils not provided with books, naming the books needed. Suggest wherein the County Superintendent can co-operate with you for the advancement of your school, etc.)

We need new desks, and a new stove. We got a book case this winter, and now we need books to go in it.

Most of the pupils need dictionaries Their parents don't think they need them, so have not got them for them. Our stove will not keep fire as it should. Also need a teacher's desk.

The arithmetics, Grammar, Languages and History are not the ones prescribed by the State Course.

Water not good so we have to carry water from the nearest house.

The few library books we have are not catalogued so I will not send you a report of Library Books.

**Failure to file this Report in the Superintendent's Office will be entered in his Record against the Teacher as Dereliction of Duty.**

This reporting sheet corresponds to a page of your Classification Register (*not Attendance Register*); please fill it out with ink from your Classification Register and return it to me at the end of the last month of the term. It will be kept for public inspection. Study the plan given below and follow it accurately. If you have not a Classification Register in your School *let me know at once;* also inform the President of your School Board or your Director.

The Register can be obtained at the County Superintendent's office.

Please endeavor to have a Register provided for your school *at once*, so that all the schools may be classified before the end of the term.

---

## How to Classify Your School in the Classification Register.

1st. Read the course of study carefully; notice the number of grades and the work that each grade includes.

2d. Ascertain in which grade of the Course each pupil has *most* of his work, and classify him in that grade. If he has not all of his studies in this grade, mark the grade in which such other studies are found, under the headings for these respective studies. (See sample form in Register.)

3d. When a pupil has completed a study and passed a satisfactory examination, credit him with it in the column of "Studies Completed this Term," also record it in the "Record of Studies Completed," in the back part of the Register. This record should show every study which each pupil completes, until he finishes the course and graduates from the district school. The graduating of classes is one of the greatest incentives that can be used in keeping pupils from "dropping out" of school. Diplomas for graduation will be furnished by the County Superintendent for all pupils who finish the course of study.

4th. The "Syllabus of Classes" shows every class in each study, and the pupils (indicated by numbers) belonging to it, also the pages canvassed by each class during the term. The names of pupils belonging to each class may be found by referring to the names, corresponding to each number, in the column of "Names of Pupils."

5th. The *first* classification of any school is the most difficult, and should be made with much care. Succeeding teachers should not change the classification left by their predecessors without good reason.

6th. The classification as left by each teacher should show the status of each pupil at the *close* of each term each being classified in the grade which he has just *finished.*

7th. A pupil changing from one school to any other in which this Register is used, may receive from his teacher a certificate of his standing, which will enable the teacher whose school he enters to classify him without examination.

8th. *Certificates of Promotion* and Monthly Reports to Parents may be found to be valuable helps.

9th. Be *just* and *fair* in your markings, neither too high nor too low, so as to avoid clashing of opinion by successive teachers.

All persons are warned against making or publishing this blank, or any modification of it, as it belongs to a series consisting of "Welch's System of Supervision," and is under copyright.

**Write Answers to the following Questions:**

Is your daily program posted up in your school room? Yes.

Do you make *daily* preparation for your work? Yes.

Do you give Oral Language Lessons to the First and Second Reader classes, and have them write from ten to twenty minutes daily? Yes.

Do you spend at least fifteen minutes daily in giving special drills in writing to all grades? Yes.

Do you have those in the Third and Fourth Reader grades write at least one letter each week besides other language work? Haven't any 3rd or 4th grade.

Do you give Number Work to the lower grades daily? Yes.

Do you try to decorate your school room? Try, but haven't succeeded.

## Teacher's Remarks to Superintendent

(NOTE—State what your school needs in apparatus, blackboards, etc.; also give the names of pupils not provided with books, naming the books needed. Suggest wherein the County Superintendent can co-operate with you for the advancement of your school, etc.)

We are in need of a new teachers desk and chair - also pictures for the walls of the school-room.

**Failure to file this Report in the Superintendent's Office will be entered in his Record against the Teacher as Dereliction of Duty.**

This reporting sheet corresponds to a page of your Classification Register (*not Attendance Register*); please fill it out with ink from your Classification Register and return it to me at the end of the last month of the term. It will be kept for public inspection. Study the plan given below and follow it accurately. If you have not a Classification Register in your School *let me know at once;* also inform the President of your School Board or your Director.

The Register can be obtained at the County Superintendent's office

Please endeavor to have a Register provided for your school *at once*, so that all the schools may be classified before the end of the term.

---

## How to Classify Your School in the Classification Register.

1st. Read the course of study carefully; notice the number of grades and the work that each grade includes.

2d. Ascertain in which grade of the Course each pupil has *most* of his work, and classify him in that grade. If he has not all of his studies in this grade, mark the grade in which such other studies are found, under the headings for these respective studies. (See sample form in Register.)

3d. When a pupil has completed a study and passed a satisfactory examination, credit him with it in the column of "Studies Completed this Term," also record it in the "Record of Studies Completed," in the back part of the Register. This record should show every study which each pupil completes, until he finishes the course and graduates from the district school. The graduating of classes is one of the greatest incentives that can be used in keeping pupils from "dropping out" of school. Diplomas for graduation will be furnished by the County Superintendent for all pupils who finish the course of study.

4th. The "Syllabus of Classes" shows every class in each study, and the pupils (indicated by numbers) belonging to it, also the pages canvassed by each class during the term. The names of pupils belonging to each class may be found by referring to the names, corresponding to each number, in the column of "Names of Pupils."

5th. The *first* classification of any school is the most difficult, and should be made with much care. Succeeding teachers should not change the classification left by their predecessors without good reason.

6th. The classification as left by each teacher should show the status of each pupil at the *close* of each term each being classified in the grade which he has just *finished.*

7th. A pupil changing from one school to any other in which this Register is used, may receive from his teacher a certificate of his standing, which will enable the teacher whose school he enters to classify him without examination.

8th. *Certificates of Promotion* and Monthly Reports to Parents may be found to be valuable helps.

9th. Be *just* and *fair* in your markings, neither too high nor too low, so as to avoid clashing of opinion by successive teachers.

All persons are warned against making or publishing this blank, or any modification of it, as it belongs to a series consisting of "Welch's System of Supervision," and is under copyright.

**Failure to file this Report in the Superintendent's Office will be entered in his Record against the Teacher as Dereliction of Duty.**

This reporting sheet corresponds to a page of your Classification Register (*not Attendance Register*); please fill it out with ink from your Classification Register and return it to me at the end of the last month of the term. It will be kept for public inspection. Study the plan given below and follow it accurately. If you have not a Classification Register in your School *let me know at once;* also inform the President of your School Board or your Director.

The Register can be obtained at the County Superintendent's office.

Please endeavor to have a Register provided for your school *at once*, so that all the schools may be classified before the end of the term.

---

## How to Classify Your School in the Classification Register.

1st. Read the course of study carefully; notice the number of grades and the work that each grade includes.

2d. Ascertain in which grade of the Course each pupil has *most* of his work, and classify him in that grade. If he has not all of his studies in this grade, mark the grade in which such other studies are found, under the headings for these respective studies. (See sample form in Register.)

3d. When a pupil has completed a study and passed a satisfactory examination, credit him with it in the column of "Studies Completed this Term," also record it in the "Record of Studies Completed," in the back part of the Register. This record should show every study which each pupil completes, until he finishes the course and graduates from the district school. The graduating of classes is one of the greatest incentives that can be used in keeping pupils from "dropping out" of school. Diplomas for graduation will be furnished by the County Superintendent for all pupils who finish the course of study.

4th. The "Syllabus of Classes" shows every class in each study, and the pupils (indicated by numbers) belonging to it, also the pages canvassed by each class during the term. The names of pupils belonging to each class may be found by referring to the names, corresponding to each number, in the column of "Names of Pupils."

5th. The *first* classification of any school is the most difficult, and should be made with much care. Succeeding teachers should not change the classification left by their predecessors without good reason.

6th. The classification as left by each teacher should show the status of each pupil at the *close* of each term each being classified in the grade which he has just *finished.*

7th. A pupil changing from one school to any other in which this Register is used, may receive from his teacher a certificate of his standing, which will enable the teacher whose school he enters to classify him without examination.

8th. *Certificates of Promotion* and Monthly Reports to Parents may be found to be valuable helps.

9th. Be *just* and *fair* in your markings, neither too high nor too low, so as to avoid clashing of opinion by successive teachers.

All persons are warned against making or publishing this blank, or any modification of it, as it belongs to a series consisting of "Welch's System of Supervision," and is under copyright.

**Write Answers to the following Questions:**

Is your daily program posted up in your school room? Yes

Do you make *daily* preparation for your work? Yes

Do you give Oral Language Lessons to the First and Second Reader classes, and have them write from ten to twenty minutes daily? Yes

Do you spend at least fifteen minutes daily in giving special drills in writing to all grades? When possible

Do you have those in the Third and Fourth Reader grades write at least one letter each week besides other language work? Yes

Do you give Number Work to the lower grades daily? Yes

Do you try to decorate your school room? Yes

## Teacher's Remarks to Superintendent

(NOTE---Suggest wherein the County Superintendent can co-operate with you for the advancement of your school, etc.)

Our School room is in good condition. We have new single seats, good book case, new Teachers desk and chair, a Smiths Heater and Ventilater and several nice pictures. There are two cloak rooms and a hall. If we had new slate black boards I think this school could soon be standardized.

**Failure to File this Report in the Superintendent's Office will be entered in his Record against the Teacher as a Dereliction of Duty.**

This reporting sheet corresponds to the classification section of your Combined Register; please fill it out with ink from your Register and return to me at the end of the last month of the term. It will be kept for public inspection. Study the plan given below and follow it accurately. If you have not a Combined Register in your School let me know at once; also inform the President of your School Board or your Director.

The Register can be obtained at the County Superintendent's office.

Please endeavor to have a Register provided for your school at once, so that your school may be classified before the end of the term.

---

**How to Classify Your School in the Classification Register.**

1st. Read the course of study carefully; notice the number of forms and the work that each form includes.

2d. Ascertain in which form of the Course each pupil has most of the work, and classify him in that form. If he has not all of his studies in this form, mark the form in which such other studies are found, under the headings for these respective studies. (See sample form in Register.)

3d. When a pupil has completed a study and passed a satisfactory examination, credit him with it in the column of "Studies Completed this Term," also record it in the "Record of Studies Completed," in the back part of the Register. This record should show every study which each pupil completes, until he finishes the course and graduates from the district school. The graduating of classes is one of the greatest incentives that can be used in keeping pupils from "dropping out" of school. Diplomas for graduation will be furnished by the County Superintendent for all pupils who finish the course of study.

4th. The "Syllabus of Classes" shows every class in each study, and the pupils (indicated by numbers) belonging to it, also the pages canvassed by each class during the term. The names of pupils belonging to each class may be found by referring to the names, corresponding to each number, in the column of "Names of Pupils."

5th. The first classification of any school is the most difficult, and should be made with much care. Succeeding teachers should not change the classification left by their predecessors without good reason.

6th. The classification as left by each teacher should show the status of each pupil at the close of each term each being classified in the grade which he has just finished. In making your recommendations in the section at right of "Pages Canvassed this Term," be just. This section classifies this school for your successor. Make no recommendations that you would not folow scrupulously were you to continue work in this school next term.

7th. A pupil changing from one school to any other in which this Register is used, may receive from his teacher a certificate of his standing, which will enable the teacher whose school he enters to classify him without examination.

8th. Certificates of Promotion and Monthly Reports to Parents are valuable helps and may be obtained from the County Superintendent.

9th. Be just and fair in your markings, neither too high nor too low, so as to avoid clashing of opinion by successive teachers.

---

**The following will assist you in making your Report accurately:**

Total Number of Days of Absence—This will be the sum of the days of absence of all pupils enrolled during the term. Do not count the days a pupil was "dropped" as "days of absence." When a pupil is "dropped" he is not a member of your school and hence cannot be considered as "absent" in the sense in which the word "absent" is here used.

Absence that is less than half a day will be reported as a half day's absence; for example, if a pupil comes before the close of the forenoon recess, count him tardy only; but if he should not arrive until after the forenoon recess, count him absent a half day. Observe the same rule for the afternoon session.

Total Number of Days of Attendance—This will be the sum of the days of attendance of all pupils enrolled during the term. The total number of days of attendance, plus the total number days of absence, should ALWAYS equal the total number days of membership. This fact will enable you to test the accuracy of your results.

Average Daily Attendance—This is found by dividing the total days of attendance by the number of days taught. Always express the quotient as a whole number. A fraction that is less than a half should be dropped, but a fraction that is a half or more should be called 1.

Number Violating Compulsory Attendance Law—The law requires all pupils between the ages of seven and sixteen to attend school regularly at least twenty-four consecutive weeks. It does not apply to pupils who live more than two miles from school.

Whole Number of Days Taught—Count every day for which you draw pay as taught.

Average Cost of Tuition per Month per Pupil This is found by dividing the amount paid the teacher per month by the average daily attendance for the term.

## TEACHER'S REMARKS TO SUPERINTENDENT

(NOTE—State what your school needs in apparatus. blackboards, etc.; also give the names of pupils not provided with books, naming the books needed. Suggest wherein the County Superintendent can co-operate with you for the advancement of your school, etc.)

A new fence around our school yard is needed and we are in need of slate blackboards in our school room.

**Failure to File this Report in the Superintendent's Office will be entered in his Record against the Teacher as a Dereliction of Duty.**

This reporting sheet corresponds to the classification section of your Combined Register; please fill it out with ink from your Register and return to me at the end of the last month of the term. It will be kept for public inspection. Study the plan given below and follow it accurately. If you have not a Combined Register in your School *let me know at once;* also inform the President of your School Board or your Director.

The Register can be obtained at the County Superintendent's office.

Please endeavor to have a Register provided for your school *at once,* so that your school may be classified before the end of the term.

---

**How to Classify Your School in the Classification Register.**

1st. Read the course of study carefully; notice the number of forms and the work that each form includes.

2d. Ascertain in which form of the Course each pupil has *most* of his work, and classify him in that form. If he has not all of his studies in this form, mark the form in which such other studies are found, under the headings for these respective studies. (See sample form in Register.)

3d. When a pupil has completed a study and passed a satisfactory examination, credit him with it in the column of "Studies Completed this Term," also record it in the "Record of Studies Completed," in the back part of the Register. This record should show every study which each pupil completes, until he finishes the course and graduates from the district school. The graduating of classes is one of the greatest incentives that can be used in keeping pupils from "dropping out" of school. Diplomas for graduation will be furnished by the County Superintendent for all pupils who finish the course of study.

4th. The "Syllabus of Classes" shows every class in each study, and the pupils (indicated by numbers) belonging to it, also the pages canvassed by each class during the term. The names of pupils belonging to each class may be found by referring to the names, corresponding to each number, in the column of "Names of Pupils."

5th. The *first* classification of any school is the most difficult, and should be made with much care. Succeeding teachers should not change the classification left by their predecessors without good reason.

6th. The classification as left by each teacher should show the status of each pupil at the *close* of each term each being classified in the grade which he has just *finished.* In making your recommendations in the section at right of "Pages Canvassed this Term," *be just.* This section classifies this school for your successor. Make no recommendation that you would not follow scrupulously were you to continue work in this school next term.

7th. A pupil changing from one school to any other in which this Register is used, may receive from his teacher a certificate of his standing, which will enable the teacher whose school he enters to classify him without examination.

8th. *Certificates of Promotion* and Monthly Reports to Parents are valuable helps, and may be obtained from the County Superintendent.

9th. Be *just* and *fair* in your markings, neither too high nor too low, so as to avoid clashing of opinion by successive teachers.

---

**The following will assist you in making your Report accurately:**

Total Number of Days of Absence—This will be the sum of the days of absence of all pupils enrolled during the term. Do not count the days a pupil was "dropped" as "days of absence." When a pupil is "dropped" he is not a member of your school and hence cannot be considered as "absent" in the sense in which the word "absent" is here used.

Absence that is less than half a day will be reported as a half day's absence; for example, if a pupil comes before the close of the forenoon recess, count him tardy only; but if he should not arrive until after the forenoon recess, count him absent a half day. Observe the same rule for the afternoon session.

Total Number of Days of Attendance—This will be the sum of the days of attendance of all pupils enrolled during the term. The total number of days of attendance, plus the total number days of absence, should ALWAYS equal the total number days of membership. This fact will enable you to test the accuracy of your results.

Average Daily Attendance—This is found by dividing the total days of attendance by the number of days taught. Always express the quotient as a whole number. A fraction that is less than a half should be dropped, but a fraction that is a half or more should be called 1.

Number Violating Compulsory Attendance Law—The law requires all pupils between the ages of seven and sixteen to attend school regularly at least twenty-four consecutive weeks. It does not apply to pupils who live more than two miles from school.

Whole Number of Days Taught—Count every day for which you draw pay as taught.

Average Cost of Tuition per Month per Pupil—This is found by dividing the amount paid the teacher per month by the average daily attendance for the term

## TEACHER'S REMARKS TO SUPERINTENDENT.

(NOTE.—State what your school needs in apparatus, blackboards, etc.; also give the names of pupils not provided with books, naming the books needed. Suggest wherein the County Superintendent can co-operate with you for the advancement of your school, etc.)

Slate blackboards are needed in the school rooms and a new fence is needed around the school yard.

## Teacher's Remarks to Superintendent

(NOTE)—Suggest wherein the County Superintendent can co-operate with you for the advancement of your school, etc.

Send some plan by which the teacher can prevent so many tardy marks. A plan to arouse interest for Home Work Credits would be appreciated.

## Teacher's Remarks to Superintendent

(NOTE)—Suggest wherein the County Superintendent can co-operate with you for the advancement of your school, etc.

The directors and patrons have asked me to teach again next year. As yet I have not accepted because I want to attend a University if possible. However any suggestions you wish to send for the advancement of Upper Grove School, may be sent to me at Virden Ill. and I shall see that the rightful owner receives them.

## Teacher's Remarks to Superintendent

(NOTE)—Suggest wherein the County Superintendent can co-operate with you for the advancement of your school, etc.

Drawing was given the younger ones in the form of Busy work

The time for Recitation is very indefinite. I used my own judgment and held Classes accordingly. Some times longer than others

Please use the space below to report any books you use which are not adopted by this county and to give the grade in which used.

Name of books. Used in which grade.

I used other books only for review. Supplemental reading or to gather extra material (Reference work) In the reading Classes rather than make the Children reread stories that were old to them I would gather up what books we could find in the neighborhood so as to save them from buying new books.

**Failure to fill this report and file it with the county superintendent and to leave a copy of it in the Classification register, will be sufficient cause to refuse renewal or registration of the certificate.**

This report agrees with the outline for this County and the State Course.

Pupils shall complete the work outlined for each year and spend the rest of the time in review.

**The classification report in your register and the daily program you leave will be of much help to your succcssor. They should be filled very carefully.**

**The following will assist you in making your Report accurately:**

Total Number of Days of Absence—This will be the sum of the days of absence of all pupils enrolled during the term. Do not count the days a pupil was "dropped" as "days of absence". When a pupil is "dropped" he is not a member of your school, and hence cannot be considered as "absent" in the sense in which the word "absent" is here used.

## CONVENIENT DIRECTIONS

(How to find)

1. Number Belonging Each Day.—From total number enrolled subtract the number whose names have been dropped.

2. Average Number Belonging. — Divide the total number of days all pupils belonged by number of days taught.

3. Average Daily Attendance.—Divide the total number of days attended by the number of days taught. Express the quotient as a whole number.

4. Average Cost of Tuition per Month.—Divide amount paid teacher per month by the average daily attendance for term.

5. The Total Number of different persons enrolled during the year is found by taking the sum of the total enrollment for the first term, the number enrolled second not enrolled the first, and the number enrolled the third not enrolled the first or second term.

## COMPULSORY ATTENDANCE LAW

The law requires all pupils between the ages of seven and sixteen to attend school regularly at least twenty-four consecutive weeks, beginning Sept. 1st.

Whole Number of Days Taught—**Count every day for which you draw pay as taught.**

# TEACHERS' ANNUAL REPORT

## SCHOOL YEAR 1922-1923

To the Teacher or Superintendent: The State and National authorities need and demand all the data called for in this report. You are rendering a valuable service by a careful and prompt filling out of each item. For common schools of one teacher, items with starred numbers only are to be filled. In schools of two or more teachers the data should be collected by the Superintendent or Principal and embodied in one report. Two copies are to be filed with the County Superintendent within one week after the close of school.

* 1. Name of School Upper Grove Dist. No. 12, Macoupin County, Illinois.

Enrollment Note: All whose names have been enrolled during the year should be reported and classified as they are at the close of the year before promotion, or at the time they may have left the district.

Members of the Board of Directors
Upper Grove School
Virden, Illinois

Gentlemen:

On January 31, I visited Upper Grove School, District #12. Miss Eunice Shriver, your teacher, is experienced and well qualified for her work. I think she is doing an excellent job, and I hope you will be able to keep her with you next year, as good teachers are hard to get.

You are to be congratulated upon the excellent manner in which you have improved your school. Your basement and electric lights are very suitable to your needs. The movable seats are also helpful, as well as the modern toilet facilities. The floors could stand a resanding, and then be sealed and waxed. This would make them look more attractive.

I hope that you have ordered the Pupils Reading Circle books from the State Reading Circle Board. These should be ordered every year, as they are the cheapest and best books that you can buy. You will need a half dozen book-size dictionaries for individual use. Your maps and globe are old, but it would be wise to wait until the war is over to purchase them. However, you do need a set of physiology charts for use in the teaching of health.

Very truly yours,

I. K. Juergensmeyer

Inspection report.**

**July 15, 1938**

**Board of Directors
School District #12 Att: Carl Thompson, Clerk.
Virden, Ill.**

**Gentlemen:**

Based on an inspection of the sanitary facilities at Upper Grove School, Dist. #12 Macoupin County made June 21, 1938 we conclude that the following sanitary defects exist:

a) The well is subject to contamination by shallow ground water seepage which may enter through cracks that can develop in the brick well lining; dust, rain, and dog contamination that may be washed under the pump base and into the well; contaminated waste pumpage which will saturate the ground surrounding the well and which may re-enter it.

b) The privies are insanitary as they are accessible to flies, insects and rodents because of the open-back type of vaults, the unprotected openings in the seats and vaults, the absence of lids in the boy's privy, the non-self closing lids in the girl's privy, the unscreened vents.

In order to correct these sanitary defects at the school, we recommend the following improvements:

1. Pour a 6 inch reinforced concrete wall around the outside of the present well lining to a depth of at least 8 feet below the surrounding ground surface. Directions for such construction are shown on page 8 of the enclosed bulletin.

2. Grout a short iron pipe sleeve into the platform so that the end will extend about one inch into the pump as shown in Fig.6 of the enclosed bulletin.

3. Provide a substantial water tight trough to conduct the waste water directly to the drain.

4. Sterilize the well water after the above improvements have been made and before it is used for drinking purposes. The procedure for sterilization is described on pages 16 and 17 of the enclosed bulletin.

5. Seal the open-back on the vaults so that they will be absolutely flytight. This can be done by placing a tight fitting wood cover over the back and then backfilling with earth.

6. Seal the unprotected openings in the seats and vaults so that the vaults will be flytight.

7. Provide the privies with hinged, self-closing lids. These lids when closed should fit so as to exclude flies.

8. Screen the vents with 16 mesh copper screen wire to prevent the entrance of flies.

In view of the poor condition of the privies and the number of improvements necessary to make them sanitary, we suggest that the Board of Directors consider the installation of the "Sanitary Pit" privy. This type of privy has many advantages over the other types of privies, the principal advantage being the prevention of disease by fly transmission. For a limited period these privies can be obtained through a W.P.A. project in Macoupin County. The only cost to the school district being the cost of material, and hauling. Mr. Virbel F. Nolen is in charge of this project, and further information may be had by addressing him at Box 77, Wilwood, Ill.

Since the school officials are responsible for the protection of the pupils' while at school, it is important that the above recommendations be fulfilled.

If the engineer of this department can be of service in connection with your water supply or sewerage problems, we shall be pleased to be so advised.

SANITARY ANALYSIS OF WATER FROM Virden School supply

This analysis indicates that the water was contaminated and was not safe to drink at the time the sample was collected.

The well appears to be subject to contamination caused by shallow ground water and rain seeping through the upper portion of the well lining. Also dust, dog and bird contamination may be washed under the pump base and through the manhole into the well. Therefore, we recommend that the well be reconstructed as dollows:

1. Pour a six-inch reinforced concrete wall aroung the outside of the present well lining to a depth of 8 feet, or remove the old lining and build a proper form in which to pour the concrete. (See bulletin.)
2. Build a new reinforced concrete platform, inserting an iron pipe sleeve in the concrete, underneath the pump base and extending into the pump base at least an inch, as illustrated in the bulletin.
3. After the above repairs are made the well should be sterilized with chlorinated lime as outlined on page 11 of our bulletin on wells.

Unless these improvements are made the well cannot be considered a satisfactory source of drinking water.

The statements on the reverse side are a part of this opinion.

## CONCERNING THIS SANITARY ANALYSIS

The statements on the reverse side are based not only on the analytical results, but also on the description of the source as furnished by you or already on file in this office. It is further recommended as follows:

(a) **If the water is unsafe to drink,** abandon the supply for one of known safety or bring the water to a boil before use, until the suggested improvements have made the supply safe.

(b) If the source is not satisfactory, make the suggested improvements immediately.

(c) If the water is safe, take care to keep it safe by protecting the supply from contamination.

A laboratory examination of the water has been made to show the presence or absence of waste matter of human or animal origin. If the water is contaminated by surface wash or sewage, then parasitic intestinal worms, amebic cysts or germs of intestinal diseases, such as cause bowel complaint, diarrhea, dysentery or typhoid fever, may be present in the water, thus endangering the health of persons drinking the water. The analytical terms and results are briefly explained as follows:

**Physical and Chemical Tests: "Sediment" through "Chloride."** A desirable water has an attractive appearance (no sediment or turbidity) and has no objectionable odor or taste. Chemical results are given in parts per million.

**Bacteriological Tests: "Bacteria per ml."** indicates the number of microörganisms present in one milliliter (ml.) of water (20 drops). The result reported gives the number of bacteria which will grow at body temperature (37°C or 98°F). These bacteria may not be of intestinal origin and therefore may not be of sanitary importance. Occasionally the test plates are overcrowded so that no bacterial count can be obtained. In such case the report shows "Innumerable" indicating more than 1000 bacteria per ml.

**"Bacteria of the colon group" "Presumptive" "Confirmatory Tests":** A water containing bacteria of intestinal origin (colon bacteria), if placed in a sugar broth (lactose), will cause fermentation and production of gas in 24 or 48 hrs. By means of further laboratory tests the presence of these bacteria in 10 ml. portions is indicated by a +, their absence by a —. The numeral preceding the sign shows the number of portions giving that result.

Example: 2+3— indicates that two 10 ml. portions of the sample did show and three portions did not show colon bacteria present.

After receipt of the sample in the laboratory it requires from two to five days to complete the sanitary analysis.
