# Failure to file this Report in the Superintendent's Office will be entered in his Record against the Teacher as Dereliction of Duty.

This reporting sheet corresponds to a page of your Classification Register (not Attendance Register); please fill it out with ink from your Classification Register and return to me at the end of the last month of the term. It will be kept for public inspection. Study the plan given below and follow it accurately. If you have not a Classification Register in your School let me know at once; also inform the President of your School Board or your Director.

The Register can be obtained at the County Superintendent's office.

Please endeavor to have a Register provided for your school at once, so that all the schools may be classified before the end of the term.

# How to Classify Your School in the Classification Register.

1st. Read the course of study carefully; notice the number of grades and the work that each grade includes.

2d. Ascertain in which grade of the Course each pupil has most of his work, and classify him in that grade. If he has not all of his studies in this grade, mark the grade in which such other studies are found, under the headings for these respective studies. (See sample form in Register.)

3d. When a pupil has completed a study and passed a satisfactory examination, credit him with it in the column of "Studies Completed this Term," also record it in the "Record of Studies Completed," in the back part of the Register. This record should show every study which each pupil completes, until he finishes the course and graduates from the district school. The graduating of classes is one of the greatest incentives that can be used in keeping pupils from "dropping out" of school. Diplomas for graduation will be furnished by the County Superintendent for all pupils who finish the course of study.

4th. The "Syllabus of Classes" shows every class in each study, and the pupils (indicated by numbers) belonging to it, also the pages canvassed by each class during the term. The names of pupils belonging to each class may be found by referring to the names, corresponding to each number, in the column of "Names of Pupils."

5th. The first classification of any school is the most difficult, and should be made with much care. Succeeding teachers should not change the classification left by their predecessors without good reason.

6th. The classification as left by each teacher should show the status of each pupil at the close of each term each being classified in the grade which he has just in the status of each term each being classified in the grade which he has just in the status of the status of each term each being classified in the grade which he has just in the status of each teacher should show the status of each teacher should show the status of each teacher should show the status of each pupil at the classified in the grade which he has just in the status of each term each teacher should show the status of each pupil at the classified in the grade which he has just in the status of each term each being classified in the grade which he has just in the status of each term each being classified in the grade which he has just in the status of each term each being classified in the grade which he has just in the status of each term each being classified in the grade which he has just in the status of each term each being classified in the grade which he has just in the status of each term each being classified in the grade which he has just in the gr

7th. A pupil changing from one school to any other in which this Register is used, may receive from his teacher a certificate of his standing, which will enable the teacher whose school he enters to classify him without examination.

8th. Certificates of Promotion and Monthly Reports to Parents may be found to be valuable helps.

9th. Be just and fair in your markings, neither too high nor too low, so as to avoid clashing of opinion by successive teachers.

Write Answers to the following Questions:

Is your daily program posted up in your school room?

Do you make daily preparation for your work?

Do you give Oral Language Lessons to the First and Second Reader classes, and have them write from ten to twenty minutes daily?

Do you spend at least fifteen minutes daily in giving special drills in writing to all grades?

Do you have those in the Third and Fourth Reader grades write at least one letter each week besides other language work?

Do you give Number Work to the lower grades daily?

Do you try to decorate your school room?

Out to any extent of will and fourth work to any extent of will any extent of wi

Do you spend at least fifteen minutes daily
in giving special drills in writing to all grades?
Do you have those in the Third and Fourth
Reader grades write at least one letter each
week besides other language work?
Do you give Number Work to the lower
grades daily? Yes
Do you try to decorate your school room?

## TEACHER'S REMARKS TO SUPERINTENDENT

(Note.—State what your school needs in apparatus, black-boards, etc.; also give the names of pupils not provided with books, naming the books needed. Suggest wherein the County Superintendent can co-operate with you for the advancement of your school, etc.)

### Failure to file this Report in the Superintendent's Office will be entered in his Record against the Teacher as Dereliction of Duty.

This reporting sheet corresponds to a page of your Classification Register (not Attendance Register); please fill it out with ink from your Classification Register and return it to me at the end of the last month of the term. It will be kept for public inspection. Study the plan given below and follow it accurately. If you have not a Classification Register in your School let me know at once; also inform the President of your School Board or your Director.

The Register can be obtained at the County Super-

intendent's office.

Please endeavor to have a Register provided for your school at once, so that all the schools may be classified before the end of the term.

### How to Classify Your School in the Classification Register.

1st. Read the course of study carefully; notice the number of grades and the work that each grade includes.

2d. Ascertain in which grade of the Course each pupil has most of his work, and classify him in that grade. If he has not all of his studies in this grade, mark the grade in which such other studies are found, under the headings for these respective studies.

(See sample form in Register.)

3d. When a pupil has completed a study and passed a satisfactory examination, credit him with it in the column of "Studies Completed this Term," also record it in the "Record of Studies Completed," in the back part of the Register. This record should show every study which each pupil completes, until he finishes the course and graduates from the district school. The graduating of classes is one of the greatest incentives that can be used in keeping pupils from "dropping out" of school. Diplomas for graduation will be furnished by the County Superin-

tendent for all pupils who finish the course of study.
4th. The "Syllabus of Classes" shows every class in each study, and the pupils (indicated by numbers) belonging to it, also the pages canvassed by each class during the term. The names of pupils belonging to each class may be found by referring to

the names, corresponding to each number, in the column of "Names of Pupils."

5th. The first classification of any school is the

most difficult, and should be made with much care. Succeeding teachers should not change the classification left by their predecessors without good reason.

6th. The classification as left by each teacher should show the status of each pupil at the close of each term each being classified in the grade which he has just finished.

7th. A pupil changing from one school to any other in which this Register is used, may receive from his teacher a certificate of his standing, which will enable the teacher whose school he enters to classify him without examination.

8th. Certificates of Promotion and Monthly Reports to Parents may be found to be valuable helps.

9th. Be just and fair in your markings, neither too high nor too low, so as to avoid clashing o' opinion by successive teachers.

## Write Answers to the following Questions:

Is your daily program posted up in your
school room? Yes
Do you make daily preparation for your
work? Yes
Do you give Oral Language Lessons to
the First and Second Reader classes, and
have them write from ten to twenty minutes
daily?
Do you spend at least fifteen minutes
daily in giving special drills in writing to
all grades? <u>Yes</u>
Do you have those in the Third and
Fourth Reader grades write at least one
letter each week besides other language
work? Yes
work? <u>Jes</u> Do you give Number Work to the
lower grades daily? //
Do you try to decorate your school

### Failure to file this Report in the Superintendent's Office will be entered in his Record against the Teacher as Dereliction of Duty.

This reporting sheet corresponds to a page of your Classification Register (not Attendance Register); please fill it out with ink from your Classification Register and return it to me at the end of the last month of the term. It will be kept for public inspection. Study the plan given below and follow it accurately. If you have not a Classification Register in your School let me know at once; also inform the President of your School Board or your Director.

The Register can be obtained at the County Super-

intendent's office.

Please endeavor to have a Register provided for your school at once, so that all the schools may be classified before the end of the term.

## How to Classify Your School in the Classification Register.

1st. Read the course of study carefully; notice the number of grades and the work that each grade includes.

2d. Ascertain in which grade of the Course each pupil has most of his work, and classify him in that grade. If he has not all of his studies in this grade, mark the grade in which such other studies are found, under the headings for these respective studies.

(See sample form in Register.)

When a pupil has completed a study and passed a satisfactory examination, credit him with it in the column of "Studies Completed this Term," also record it in the "Record of Studies Completed," in the back part of the Register. This record should show every study which each pupil completes, until he finishes the course and graduates from the district school. The graduating of classes is one of the greatest incentives that can be used in keeping pupils from "dropping out" of school. Diplomas for graduation will be furnished by the County Superintendent for all pupils who finish the course of study.
4th. The "Syllabus of Classes" shows every

class in each study, and the pupils (indicated by numbers) belonging to it, also the pages canvassed by each class during the term. The names of pupils belonging to each class may be found by referring to

the names, corresponding to each number, in the column of "Names of Pupils."

5th. The first classification of any school is the most difficult, and should be made with much care. Succeeding teachers should not change the classification left by their predecessors without good reason.

6th. The classification as left by each teacher should show the status of each pupil at the close of each term each being classified in the grade which he has just finished.

7th. A pupil changing from one school to any other in which this Register is used, may receive from his teacher a certificate of his standing, which will enable the teacher whose school he enters to classify him without examination.

8th. Certificates of Promotion and Monthly Reports to Parents may be found to be valuable helps.

9th. Be just and fair in your markings, neither too high nor too low, so as to avoid clashing of opinion by successive teachers.

All persons are warned against making or publishing this blank, or any mod-n of it, as it belongs to a series consisting of "Welch's System of Super-" and is under copyright."

#### Failure to file this Report in the Superintendent's Office will be entered in his Record against the Teacher as Dereliction of Duty.

This reporting sheet corresponds to a page of your Classification Register (not Attendance Register); please fill it out with ink from your Classification Register and return it to me at the end of the last month of the term. It will be kept for public inspection. Study the plan given below and follow it accurately. If you have not a Classification Register in your School let me know at once; also inform the President of your School Board or your Director.

The Register can be obtained at the County Super-

intendent's office.

Please endeavor to have a Register provided for your school at once, so that all the schools may be classified before the end of the term.

#### How to Classify Your School in the Classification Register.

1st. Read the course of study carefully; notice the number of grades and the work that each grade includes.

2d. Ascertain in which grade of the Course each pupil has most of his work, and classify him in that grade. If he has not all of his studies in this grade, mark the grade in which such other studies are found, under the headings for these respective studies.

(See sample form in Register.)

3d. When a pupil has completed a study and passed a satisfactory examination, credit him with it in the column of "Studies Completed this Term," also record it in the "Record of Studies Completed," in the back part of the Register. This record should show every study which each pupil completes, until he finishes the course and graduates from the district school. The graduating of classes is one of the greatest incentives that can be used in keeping pupils from "dropping out" of school. Diplomas for graduation will be furnished by the County Superin-

tendent for all pupils who finish the course of study.
4th. The "Syllabus of Classes" shows every class in each study, and the pupils (indicated by numbers) belonging to it, also the pages canvassed by each class during the term. The names of pupils belonging to each class may be found by referring to

the names, corresponding to each number, in the column of "Names of Pupils."

5th. The first classification of any school is the most difficult, and should be made with much care. Succeeding teachers should not change the classification left by their predecessors without good reason.

6th. The classification as left by each teacher should show the status of each pupil at the close of each term each being classified in the grade which

he has just finished. 7th. A pupil changing from one school to any other in which this Register is used, may receive

from his teacher a certificate of his standing, which will enable the teacher whose school he enters to classify him without examination.

8th. Certificates of Promotion and Monthly Reports to Parents may be found to be valuable helps.

9th. Be just and fair in your markings, neither too high nor too low, so as to avoid clashing o' opinion by successive teachers.

#### Write Answers to the following Questions:

•

#### Failure to file this Report in the Superintendent's Office will be entered in his Record against the Teacher as Dereliction of Duty.

This reporting sheet corresponds to a page of your Classification Register (not Attendance Register); please fill it out with ink from your Classification Register and return it to me at the end of the last month of the term. It will be kept for public inspection. Study the plan given below and follow it accurately. If you have not a Classification Register in your School let me know at once; also inform the President of your School Board or your Director.

The Register can be obtained at the County Super-

intendent's office.

Please endeavor to have a Register provided for your school at once, so that all the schools may be classified before the end of the term.

#### How to Classify Your School in the Classification Register.

1st. Read the course of study carefully; notice the number of grades and the work that each grade includes.

2d. Ascertain in which grade of the Course each pupil has most of his work, and classify him in that grade. If he has not all of his studies in this grade, mark the grade in which such other studies are found. under the headings for these respective studies.

(See sample form in Register.)

3d. When a pupil has completed a study and passed a satisfactory examination, credit him with it in the column of "Studies Completed this Term," also record it in the "Record of Studies Completed," in the back part of the Register. This record should show every study which each pupil completes, until he finishes the course and graduates from the district school. The graduating of classes is one of the greatest incentives that can be used in keeping pupils from "dropping out" of school. Diplomas for graduation will be furnished by the County Superintendent for all pupils who finish the course of study.
4th. The "Syllabus of Classes" shows every

class in each study, and the pupils (indicated by numbers) belonging to it, also the pages canvassed by each class during the term. The names of pupils belonging to each class may be found by referring to

Teacher's Remarks to Superintendent (NOTE-State what your school needs in apparatus, blackboards, etc.; also give the names of pupils not provided with books, naming the books needed. Suggest wherein the County Superintendent can co-operate with you for the advance

ment of your school, etc.)

the names, corresponding to each number, in the column of "Names of Pupils."

5th. The first classification of any school is the most difficult, and should be made with much care. Succeeding teachers should not change the classification left by their predecessors without good reason.

6th. The classification as left by each teacher should show the status of each pupil at the *close* of each term each being classified in the grade which

he has just finished.

7th. A pupil changing from one school to any other in which this Register is used, may receive from his teacher a certificate of his standing, which will enable the teacher whose school he enters to classify him without examination.

8th. Certificates of Promotion and Monthly Reports to Parents may be found to be valuable helps.

9th. Be just and fair in your markings, neither too high nor too low, so as to avoid clashing o' opinion by successive teachers.

All persons are warned against making or publishing this blank, or an

Report of Classification, Standing, Advancement and Attendance Township of Hill Carreen District 145 Sefol, 13 1910, and ending May For the Alax Commencing Land V. Con abut Teacher Syllabus of Classes iges Canvassed This Term Pupils in Each Class This Term NAME OF PUPILS (By Number) (By Number) 23452434435 rallasera verton's thisisloge mithe With Harbers Diograp was New Elizabeth Briley Holdred Shanner Leage Sibson 16,17,18,19,31 ,18,19,20,21,22 Irval new Hilbur Sibs 20,21,22,23,27 24, 25,26,28 Genevieve Froster Service Ho ortense For 32 Wellie Shanner Esther James 34 Rolland Phokes 35 Elmo Rhodes 36 Idelle Dugan

#### Failure to File this Report in the Superintendent's Office will be entered in his Record against the Teacher as a Dereliction of Duty.

This reporting sheet corresponds to the classification section of your Combined Register; please fill it out with ink from your Register and return to me at the end of the last month of the term. It will be kept for public inspection. Study the plan given below and follow it accurately. If you have not a Combined Register in your School let me know at once; also inform the President of your School Board or your Director.

The Register can be obtained at the County Super-intendent's office.

Please endeavor to have a Register provided for your school at once, so that your school may be classified before the end of the term.

#### How to Classify Your School in the Classification Register.

1st. Read the course of study carefully; notice the number of forms and the work that each form in-

2d. Ascertain in which form of the Course each pupil has most of the work, and classify him in that form. If he has not all of his studies in this form, mark the form in which such other studies are found, under the headings for these respective studies. (See sample form in Register.)

3d. When a pupil has completed a study and passed a satisfactory examination, credit him with it in the column of "Studies Completed this Term," also record it in the "Record of Studies Completed," in the back part of the Register. This record should show every study which each pupil completes, until he feighbor the course and experience from the dishe finishes the course and graduates from the dis-trict school. The graduating of classes is one of the greatest incentives that can be used in keeping pupils from "dropping out" of school. Diplomas for graduation will be furnished by the County Superintendent for all pupils who finish the course of study.

4th. The "Syllabus of Classes" shows every class in each study, and the pupils (indicated by numbers) belonging to it, also the pages canvassed by each class during the term. The names of pupils belonging to each class may be found by referring to the names, corresponding to each number, in the column of "Names of Pupils."

5th. The first classification of any school is the most difficult, and should be made with much care.

Succeeding teachers should not change the classifica-tion left by their predecessors without good reason. 6th. The classification as left by each teacher should show the status of each pupil at the close of each term each being classified in the grade which he

has just finished. In making your recommendations in the section at right of "Pages Canvassed this Term," be just. This section classifies this school for your successor. Make no recommendations that you would not folow scrupulously were you to continue work in this school next term.

7th. A pupil changing from one school to any other in which this Register is used, may receive from his teacher a certificate of his standing, which will enable the teacher whose school he enters to classify him without examination.

8th. Certificates of Promotion and Monthly Reports to Parents are valuable helps and may be obtained from the County Superintendent.

9th. Be just and fair in your markings, neither

too high nor too low, so as to avoid clashing of opinion by successive teachers.

#### The following will assist you in making your Report accurately:

Total Number of Days of Absence-This will be the sum of the days of absence—Inis will be the sum of the days of absence of all pupils enrolled during the term. Do not count the days a pupil was "dropped" as "days of absence." When a pupil is "dropped" he is not a member of your school and hence cannot be considered as "absent" in the sense in which the word "absent" is here used.

Absence that is less than half a day will be reported as a half day's absence; for example, if a pupil comes before the close of the forenoon recess, count him tardy only; but if he should not arrive until after the forenoon recess, count him absent a half day. Observe the same rule for the afternoon

session.

Total Number of Days of Attendance—This will be the sum of the days of attendance of all pupils enrolled during the term. The total number of days of attendance, plus the total number days of absence, should ALWAYS equal the total number days of membership. This fact will enable you to test the accuracy of your results.

Average Daily Attendance—This is found by di-

Average Daily Attendance—This is found by dividing the total days of attendance by the number of days taught. Always express the quotient as a

days taught. Always express the quotient as a whole number. A fraction that is less than a half should be dropped, but a fraction that is a half or more should be called 1.

Number Violating Compulsory Attendance Law—The law requires all pupils between the ages of seven and sixteen to attend school regularly at least twenty-four consecutive weeks. It does not apply to pupils who live more than two miles from school.

Whole Number of Days Taught—Count every day

Whole Number of Days Taught—Count every day for which you draw pay as taught.

Average Cost of Tuition per Month per Pupil This is found by dividing the amount paid the teacher per month by the average daily attendance for the term.

#### Write Answers to the Following Questions:

1. Is your daily program posted up in your
school room?
2. Do you make daily preparation for your
work?
3. Do you give Oral Language Lessons to
the First and Second Reader Classes, and have
them write from ten to twenty minutes daily?
- Yes
4. Do you spend at least fifteen minutes
daily in giving special drills in writing in all
grades?
5. Do you have your pupils use pen and
ink in Writing Lessons?
6. Where do you expect to teach next term?
7. If you do not at present have a position
for next term, will you notify this office as
soon as you get the promise of a position—and
give the name of the school?

#### TEACHER'S REMARKS TO SUPERINTENDENT

co-operate with you for the adv	chool needs in apparatus. blackboards, pils not provided with books, naming terein the County Superintendent can rancement of your school, etc.)

#### NOTICE.

In districts having two or more buildings and a superintendent, only one copy is to be made by the principal of each building and filed with the superintendent, who is to consolidate the several reports and make two copies of the same and file with the county superintendent at the close of school.

Teachers are requested to fill out each item of this report. This is the initial report for data that is consolidated for the State and forwarded to the U.S. Commissioner of Education. Much depends upon the accuracy of your answers.

#### NOTICE.

This information is to be collected by the principal or the teacher in charge of a building from the teachers under his supervision and summarized in this report.

From the several buildings the reports are to be embodied in one report by the Superintendent who is to send two copies to the County Superintendent of Schools on or before July 15th.

Teachers are requested to fill out each item of this report. This is the initial report for data that is consolidated for the State and forwarded to the U. S. Commissioner of Education. Much depends upon the accuracy of your answers.

### SCHOOL YEAR 1924-1925

To rend num	the Teacher or Superintendent: The State and National authorities need and demand all the data called for in this report. You are lering a valuable service by a careful and prompt filling out of each item. For common schools of one teacher, items with starred bers only are to be filled. In schools of two or more teachers the data should be collected by the Superintendent or Principal and one report. Two copies are to be filled with the County Superintendent within one week after the close of school.
• 1.	Name of Dist. 145 School No. 145 Enrollment Note: All whose names have been enrolled during the year shelper promotion, or at the time they may have left the allested.
Eler	Enrollment Note: All whose names have been enrolled during the year should be reported and classified as they are at the close of the year before promotion, or at the time they may have left the district.

• 4a.	Average daily attendance of all pupils enrolled in both elementary and high school (See note below 4c) 30+
4b.	Total days attendance of all high school pupils (above 8th grade)
40.	Average daily attendance of all high school pupils (above 8th grade) (See note below)  (Note—The average daily attendance in a one-room school is found by dividing the total days attendance by the number of days the school was actually in session. In schools of two or more rooms, or in schools whose records of attendance are kept by session teachers, the average daily attendance is the sum of the averages of the units composing the group. For example: The principal of a two-room school should enter in item 4a the sum of the averages of the two rooms. The principal of a school containing several rooms whose work includes the eight grades and a high school should enter in item 4a the sum of the averages of the grade rooms and of the high school. The superintendent of a city system of schools should enter in item 4a the sum of the averages of the various ward schools and of the high school. The principal of each ward school and the principal of each high school should report the average for his school found by adding the averages of the various rooms or session groups composing the school.)

Teacher's Annual Report

District No. 1 4 5 Metric Filennty, Illinois, for school year ending June 30, 1944.

Building is in Township 8 Range 8

School closed Opril 28

#### **SCHOOL YEAR 1944-1945**

To the Teacher or Superintendent: The State and National authorities need and demand all the data called for in this report. You are rendering a valuable service by a careful and prompt filling out of each item. For common schools of one teacher, items with starred numbers only are to be filled. In schools of two or more teachers the data should be collected by the Superintendent or Principal and embodied in one report. One copy is to be filled with the County Superintendent within one week after the close of school.

#### District 145 Plainview

Board of Directors

Edward R. Pressler Elmo L. Meyers J. F. Caveny

## October 8, 1931

To Directors, Plainting School, District \$145, Macoupin County, Illihois.

Dear Siral

Today your County Superintendent Mr. Wilhite and I visited your school. The children were orderly and attentive to their work and were doing it well. The teachers were carnest and enthusiastic in their efforts to serve the children.

The physical conditions of your school are good. It seems that you have ample supplies. I commend you for all these favorable conditions, for furnishing Pupils' Reading Circle Books, for having play apparatus, and for having so good a yard.

The boilets were in very good shape. The boyst toilet was somewhat mussy and needs a little attention which, we are confident, will be given.

It would be fine for your rooms to have a few good sized quality pictures.

We recommended that your school should be given the ranking of a Stand rd School for the forthcoming year.

These suggestions are mad, to the end that your children may have the best conditions and service in their effort to secure an education.

Very truly yours,

Assistant Superintendent

Nevember 25 1956

Mr, James H. Myers Clerk of School District #145 Plainview, Illinois

Dear Mr. Myeres

In company with your county superintendent of schools, Mr. Kerstein, I visited your school on November 19. I believe with some minor improvements your school will be ready for recognition.

There should be some book shelves provided. You have no good reference encyclopedia. However, due to the fact that you have recently purchased two or three sets of reading encyclopedia, you might delay the purchase of a good reference encyclopedia until some time next year. You are in need of about one-half dozen small dictionaries. I am sorry you did not get the Webster International when you purchased the large dictionary. The one you purchased is not the Webster International. I know very little about the Syndicate dictionary which you have purchased. I find no recommendations for it anywhere. You need bulletin beards in each room and a table and small chairs in the primary room. Supplementary readers are also needed for the lower room.

When at least part of these improvements have been made your school will be ready for recognition by the State Department of Public Instruction.

I might further suggest that next summer you give attention to the proper treatment of your floors. The old black oil should all be sorubbed eff and a good floor seal applied.

Again let me commend your beard for the splendid improvements which you are making. We found your teachers doing good work and I think you have a very splendid school in Plainview.

Very truly yours

Otis Keeler Assistant Superintendent

OK:FH CC: Mr. Kerstein Ce. Supt.

#### December 15, 1937

Mr. Earl Day, Clerk, Plainview School District No. 145, Plainview. Illinois

Dear Mr. Day:

On December 8, in company with County Superintendent Kerstein, I visited your elementary school. I have the following report to make, which I hope will serve as a guide to further improvement:

You have a good building which has been kept in a good state of repair. Some of the desks need refinishing, although some of them are in rather poor condition. Ferhaps it would be better to gradually replace these desks with new movable type units.

I wish to suggest that tack strips be provided above the blackboards in each room. You have geography maps, but no history maps.

Since there is no parent-teacher association in this school, it is required that in order to be "Recognised" the school shall hold at least four meetings of a public relations type. Confer with your teacher and your county superintendent in regard to this.

Since the windows in each room extend too far to the front on the left side, I suggest that better lighting might be secured by diagonal scating. It would be well to provide a shade for the front left window in the lower grade room. The rooms will soon need redecorating. Be sure to use a flat paint of the proper color. I suggest very light ivery for the ceiling and light cream for the walls. Your teacher reported that since the school was last "Recognized" the floors have been cleaned and scaled. I observed these floors at the time of my visit. They are much better than the old type of ciled floor. It was also reported that you have a new fountain, new bulletin boards, eight new movable desks, and a new duplicator.

Plainview School District No. 145, December 15, 1937,

-2-

May I suggest that you arrange your salary schedule so as to make it possible for the teacher to attend summer school and to encourage professional growth.

In view of the fact that the present standards have been maintained and certain suggested improvements made since last year, I am recommending to Mr. Wieland that a new Certificate of Recognition for the school year 1937-38 be issued.

Very truly yours,

E. S. Simmonds Assistant Superintendent

ESS: EO

CC: Co. Supt. Kerstein

Members of the Board of Directors School District \$145 Plainview, Illinois

#### Gentlamen:

I visited the Plainview School, District #145 on the second of February. Your teachers, Mrs. Loretta Butler, and Mrs. Kathryn Hathke, are excellent teachers. They are well qualified for their work, and have had a number of years of experience. I hope you will be able to raise their salaries so that they will remain in your school. Living expenses are much higher, and at the present time it is very difficult to get experienced teachers.

I want to congratulate you upon the way in which you have kept your school on the recognized list. Your school, on the whole, is very well equipped. However, there are a few suggestions which I wish to make. If you have not ordered the Pupils' Reading Circle Books from the State Reading Circle Board, I hope you will do so at once, as these are the cheapest and best books that you can buy. If you buy them each year, you will keep your library up to date. Your maps are rather old, and you need a new globe, but you could make these do until the war is over, as there will be many changes made. A set of physiology charts would be useful in the teaching of health.

The floors, on the whole, are in bad shape. Many schools have resanded their floors, then sealed and waxed them. This makes them look much more attractive, and makes it easier to keep them clean. Of course, in a school your size, you would probably have to wax them two or three times a year. Most schools do so twice a year—at the beginning of the school year, and during the Christmas holidays. Your water fountain should be repaired. It might be well, too, to be thinking about putting a basement under your school. This would not be a costly proposition, but it would give you much more room, and also give your children a place in which to play during bad weather.

Very truly yours,

I. K. Juergensmeyer County Superintendent of Schools

12-34

Subject: Schools-

Hacoupin County Plainview School, District #148 Inspection report

Beard of Directors, Att: J. W. Morgan, Clerk School District #145 Plainview, Ill.

#### Centlement

Ensed on an inspection of the samitary facilities at Plainview School, District \$145, Massupin Sounty, made June 6, 1939 we conclude that the following samidary defects exist:

- a) The well is subject to contamination by shallow ground water seepage which may enter through cracks that can develop in the brick well lining; dust, bird and dog contamination that may be washed into the well through cracks in the split-base pump; dust, rain, and dog contamination that may be washed under the pump base and into the well; dust, rain, bird and dog contamination which can enter the well through the improperly constructed ventilator.
- b) The privies are insenitary as they are accessible to flies, insects and redents because of the open-back type of wault in the boys' privy, the unsersened vents, the absence of lids, the non-self closing lids, the opening in the wault around the urinal trough.

In order to correct these sanitary defects at the school, we recommend the following improvements:

- 1. Four a 6 inch reinforced concrete wall around the outside of the present well lining to a depth of at least 5 feet below the surrounding ground surface. Directions for such construction are shown on page 8 of the enclosed bulletin.
- 2. Reconstruct the well platform with a 4 inch concrete slab extending beyond the walls at least one foot in all directions. A short iron pipe sleeve, whose diameter will allow the passage of the pump cylinder, should be placed in the platform at the time of construction. Sleeve should extend about one inch into the pump base. The pump should rest directly on the concrete and be firmly bolted in place as shown in Fig. 6 of the enclosed bulletin.
- 3. Replace the split-base pump with a pump having a one piece circular base, and a singling box surrounding the pump rod.
- 4. Seal the ventilator with lead or concrete so that it will be absolutely watertight. A ventilator is not necessary and presents as hazard.

#### STATE OF ILLINOIS HENRY HORNER, GOVERNOR

#### DEPARTMENT OF PUBLIC HEALTH

A. C. BAXTER, M. D. ACTING DIRECTOR

DIVISION OF SANITARY ENGINEERING

CHIEF SANITARY ENGINEER CLARENCE W. KLASSEN

ADDRESS ALL CORRESPONDENCE TO THE ACTING DIRECTOR IN REPLY REFER TO FILE S. E.

- S. Sterilise the well water after the above improvements have been made and before it is used for drinking purposes. The precedure for sterilisation is described on pages 16 and 17 of the enclosed bulletin.
- 6. Soul the open-back on the vanit so that it will be absolutely flytight. This can be done by placing a tight fitting wood cover ever the back and then backfilling with earth.
- 7. Provide the privies with hinged, self-closing lide. These lide when closed should fit so as to exclude flies.
- 3. Sgreen the vents with 16 mesh capper screen wire to prevent the entrance of flies.
- 9. Seal the opening in the wault at the entrance of the urinal trough. The urinal should drain into a separate scepage pit filled with broken stone or gravel. This pit should be covered with earth.

In view of the poor condition of the privies and the number of improvements necessary to make them sanitary, we suggest that the Board of Directors consider the installation of the "Sanitary Pit" privy. This type of privy has many advantages over other types of privies, the principal advantage being the prevention of disease by fly transmission.

Since the school efficials are responsible for the protection of the pupils' while at school, it is important that hie above recommendations be fulfilled.

If the engineers of this department can be of service in connection with your mater supply or sewerage problems, we shall be pleased to be so advised.

We shall appreciate an admoviedgment of this letter and information regarding the action taken toward following the above recommendations.

Subject: SCHOOLS--Vacoupin County Plainview School, Dist. #145 Improved well

Board of Education Plainview School, Dist. -145 Attention: Everett Yewby, Secretary Plainview, Illinois

Gentlemen:

The well recently completed at the Plainview School under the Macoupin County W.P.A. School Well Reconstruction Project has been inspected and found to be properly protected against entrance of surface contamination. A sample of water was collected from the well after the improvements had been made and an analysis of this water snowed it to be safe for drinkin; at the time of collection. This was previously reported to you.

We wish to commend you upon your action in having improvements made to your school water supply. This well should continue to furnish a safe mater supply as long as it remains in its present condition.

It is suggested that samples of water be collected from the well eccasionally for analysis as a check upon the condition of the water. Secole containers will be forwarded for this purpose upon request.

By direction of the Direc or

#### CONCERNING THIS SANITARY ANALYSIS

The statements on the reverse side are based not only on the analytical results, but also on the description of the source as furnished by you or already on file in this office. It is further recommended as follows:

- (a) If the water is unsafe to drink, abandon the supply for one of known safety or bring the water to a boil before use, until the suggested improvements have made the supply safe.
  - (b) If the source is not satisfactory, make the suggested improvements immediately.
  - (c) If the water is safe, take care to keep it safe by protecting the supply against contamination.

A laboratory examination of the water has been made to show the presence or absence of waste matter of human or animal origin. If the water is contaminated by surface wash or sewage, then parasitic intestinal worms, amebic cysts or germs of intestinal diseases, such as cause bowel complaint, diarrhea, dysentery or typhoid fever, may be present in the water, thus endangering the health of persons drinking the water. The analytical terms and results are briefly explained as follows:

Physical and Chemical Tests: "Sediment" through "Chloride." A desirable water has an attractive appearance (no sediment or turbidity) and has no objectionable odor or taste. Chemical results are given in parts per million (ppm).

Bacteriological Tests: "Bacteria per ml." indicates the number of microorganisms present in one milliliter (ml.) of water (20 drops) and the number which grew in standard nutrient agar at body temperature (37°C or 98.6°F). These bacteria may not be of intestinal origin and therefore may not be of sanitary importance. Occasionally the test plates are overcrowded so that no bacterial count can be obtained. In such a case the report shows "Innumerable" indicating more than 10,000 bacteria per ml.

"Coli-type bacteria" "Presumptive Tests" "Confirmatory Tests": A water containing bacteria of intestinal origin (E. coli and A. aerogenes, also known as "coliform" bacteria), if placed in a sugar broth (lactose), will cause fermentation and production of gas in 24 or 48 hrs. By means of further laboratory tests the presence of these bacteria in 10 ml. portions is indicated by a +, their absence by a—. The numeral preceding the sign shows the number of portions giving that result.

Example: 2+3— indicates that two 10 ml. portions of the sample did show and three portions did not show coli-type bacteria present.

After receipt of the sample in the laboratory it requires from two to six days to complete the sanitary or bacteriological analysis.

#### VERNON L. NICKELL

SUPERINTENDENT OF PUBLIC INSTRUCTION

# RURAL SCHOOL ANNUAL REPORT AND APPLICATION FOR RECOGNITION

For School Year 1944-1945

To be filed by all districts with one or two teachers

This report is to be made in triplicate by the teacher and signed by both the teacher and the clerk of the board. The teacher is to keep one copy for the files of the school. Not later than October 1st, two copies are to be delivered to the county superintendent of schools who, in turn, will forward a copy to the State Office. For assistance in filling in the report, see the Rural Elementary School Handbook, Office of Superintendent of Public Instruction.
