What is the general condition of your school grounds? Much too small

No trees or improvements

No. living trees on school grounds none. State condition of outbuildings, Boys' good

Girls' good. Coal house good. Teacher's salary per month, \$ 90

Term ends May 4th 1911

Teacher's name Roy H. Bracwell. Address while teaching Scottville

TEACHER'S REMARKS ON CLASSIFICATION

I am greatly handicapped in that I have to cover too much territory. Conditions here are such that a notation is impossible and combining classes is very unsatisfactory especially in grammar. I have about 10 exceptionally good grammar students and three are especially poor. There can be no good class work under such conditions. Attendance here is very poor in the 7th and 8th grades. However those who do come are seldom late absent or tardy. I have 8 especially good 10th year students here who will graduate this coming Spring.

TO THE TEACHER:

This Preliminary Report should show the present organization of your school, and the condition of your schoolroom and grounds. It will enable me to give you prompt and valuable assistance during your present term of school. Please fill out carefully with ink, and mail to me at the close of the FIRST WEEK of school. Due credit will be given you for filing this report promptly.

County Superintendent of Schools

Preliminary Classification Report

Of the Scottsville School, District No. 36, Macoupin County, Illinois.

SPECIAL REPORT

Give general condition of your schoolroom with regard to cleanliness, desks, stove, windows and decorations
The school has been built recently and the floor is easily cleaned, the desks are new, light is good and the room heated by steam.
No. volumes in library None General condition of library books _____ Do you keep a
Library Record? _____ Have you a suitable book-case? No Give full name of dictionary as it appears on the
cover Noah Webster Condition Torn Kind of blackboard in use slate
Condition good What is the general condition of your school grounds? Partly covered with
Cinders, but larger part in good condition, and makes a good playground.
No. living trees on school grounds Three State condition of outbuildings, Boys' Good
Girls' Good Coal house Coal kept in basement Teacher's salary per month, \$ 40.00
Term ends May the First 191 4
Teacher's name Lucile Maxfield Address while teaching Scottsville, Ill.

TEACHER'S REMARKS ON CLASSIFICATION

I find the pupils able to carry the work, for which their former teacher has classified them. The sixth grade are strong on every subjects except Arithmetic and Geography. The latter fact, I think is partly due to the text books. I now use a Tarr and Mc Murry Geography for reference and find it of much help. They are also reviewing 5th Arithmetic. I use "Suggestions for Nature Study and Agriculture, which follows the State Course, in the fourth, fifth and and sixth grade. We need a Dictionary and a Library and are planning to give a play in order to raise sufficient money for these. There are few trees on the grounds, but we intend to plant several Arbor Day.

TO THE TEACHER:

This Preliminary Report should show the present organization of your school, and the condition of your schoolroom and grounds. It will enable me to give you prompt and valuable assistance during your present term of school. Please fill out carefully with ink, and mail to me immediately after school is organized. Due credit will be given for filing this report promptly.

Failure to file this Report in the Superintendent's Office will be entered in his Record against the Teacher as Dereliction of Duty.

This reporting sheet corresponds to a page of your Classification Register (not Attendance Register); please fill it out with ink from your Classification Register and return to me at the end of the last month of the term. It will be kept for public inspection. Study the plan given below and follow it accurately. If you have not a Classification Register in your School let me know at once; also inform the President of your School Board or your Director.

The Register can be obtained at the County Superintendent's office.

Please endeavor to have a Register provided for your school at once, so that all the schools may be classified before the end of the term.

How to Classify Your School in the Classification Register.

1st. Read the course of study carefully; notice the number of grades and the work that each grade includes.

2d. Ascertain in which grade of the Course each pupil has most of his work, and classify him in that grade. If he has not all of his studies in this grade, mark the grade in which such other studies are found, under the headings for these respective studies. (See sample form in Register.)

3d. When a pupil has completed a study and passed a satisfactory examination, credit him with it in the column of "Studies Completed this Term," also record it in the "Record of Studies Completed," in the back part of the Register. This record should show every study which each pupil completes, until he finishes the course and graduates from the district school. The graduating of classes is one of the greatest incentives that can be used in keeping pupils from "dropping out" of school. Diplomas for graduation will be furnished by the County Superintendent for all pupils who finish the course of study.

4th. The "Syllabus of Classes" shows every class in each study, and the pupils (indicated by numbers) belonging to it, also the pages canvassed by each class during the term. The names of pupils belonging to each class may be found by referring to the names, corresponding to each number, in the column of "Names of Pupils."

5th. The first classification of any school is the most difficult, and should be made with much care. Succeeding teachers should not change the classification left by their predecessors without good reason.

6th. The classification as left by each teacher should show the status of each pupil at the close of each term each being classified in the grade which he has just finished.

7th. A pupil changing from one school to any other in which this Register is used, may receive from his teacher a certificate of his standing, which will enable the teacher whose school he enters to classify him without examination.

8th. Certificates of Promotion and Monthly Reports to Parents may be found to be valuable helps.

9th. Be just and fair in your markings, neither too high nor too low, so as to avoid clashing of opinion by successive teachers.

Write Answers to the following Questions:

Is your daily program posted up in your school room? Yes

Do you make daily preparation for your work? Yes

Do you give Oral Language Lessons to the First and Second Reader classes, and have them write from ten to twenty minutes daily? I do.

Do you spend at least fifteen minutes daily in giving special drills in writing to all grades? I do not daily - for want of time

Do you have those in the Third and Fourth Reader grades write at least one letter each week besides other language work? Yes

Do you give Number Work to the lower grades daily? Yes, indeed

Do you try to decorate your school room? Yes

All persons are warned against making or publishing this blank, or any modification of it, as it belongs to a series consisting of "Welch's System of Supervision," and is under copyright.

TEACHER'S REMARKS TO SUPERINTENDENT

(NOTE.—State what your school needs in apparatus, blackboards, etc.; also give the names of pupils not provided with books, naming the books needed. Suggest wherein the County Superintendent can co-operate with you for the advancement of your school, etc.)

Have been teaching in Primary Dept at this place for the past three years, and re-elected for the coming term. Like it very much. Believe there is nothing we need in school supplies at present.

Bessie L. Woolfolk

Failure to file this Report in the Superintendent's Office will be entered in his Record against the Teacher as Dereliction of Duty.

This reporting sheet corresponds to a page of your Classification Register (*not Attendance Register*); please fill it out with ink from your Classification Register and return it to me at the end of the last month of the term. It will be kept for public inspection. Study the plan given below and follow it accurately. If you have not a Classification Register in your School *let me know at once*; also inform the President of your School Board or your Director.

The Register can be obtained at the County Superintendent's office.

Please endeavor to have a Register provided for your school *at once*, so that all the schools may be classified before the end of the term.

How to Classify Your School in the Classification Register.

1st. Read the course of study carefully; notice the number of grades and the work that each grade includes.

2d. Ascertain in which grade of the Course each pupil has *most* of his work, and classify him in that grade. If he has not all of his studies in this grade, mark the grade in which such other studies are found, under the headings for these respective studies. (See sample form in Register.)

3d. When a pupil has completed a study and passed a satisfactory examination, credit him with it in the column of "Studies Completed this Term," also record it in the "Record of Studies Completed," in the back part of the Register. This record should show every study which each pupil completes, until he finishes the course and graduates from the district school. The graduating of classes is one of the greatest incentives that can be used in keeping pupils from "dropping out" of school. Diplomas for graduation will be furnished by the County Superintendent for all pupils who finish the course of study.

4th. The "Syllabus of Classes," shows every class in each study, and the pupils (indicated by numbers) belonging to it, also the pages canvassed by each class during the term. The names of pupils belonging to each class may be found by referring to

the names, corresponding to each number, in the column of "Names of Pupils."

5th. The *first* classification of any school is the most difficult, and should be made with much care. Succeeding teachers should not change the classification left by their predecessors without good reason.

6th. The classification as left by each teacher should show the status of each pupil at the *close* of each term each being classified in the grade which he has just *finished*.

7th. A pupil changing from one school to any other in which this Register is used, may receive from his teacher a certificate of his standing, which will enable the teacher whose school he enters to classify him without examination.

8th. *Certificates of Promotion* and Monthly Reports to Parents may be found to be valuable helps.

9th. Be *just* and *fair* in your markings, neither too high nor too low, so as to avoid clashing of opinion by successive teachers.

All persons are warned against making or publishing this blank, or any modification of it, as it belongs to a series consisting of "Welch's System of Supervision," and is under copyright.

Teacher's Remarks to Superintendent

(NOTE—State what your school needs in apparatus, blackboards, etc.; also give the names of pupils not provided with books, naming the books needed. Suggest wherein the County Superintendent can co-operate with you for the advancement of your school, etc.)

I have n't the daily register. I made this report out from the classification register. I could not fill all data.

Teacher's Remarks to Superintendent

(NOTE—State what your school needs in apparatus, blackboards, etc.; also give the names of pupils not provided with books, naming the books needed. Suggest wherein the County Superintendent can co-operate with you for the advancement of your school, etc.)

I didn't keep a very true record of tardiness. Most of the tardy marks were made by children who lived in the country and it was not always convenient for them to be on time.

Failure to file this Report in the Superintendent's Office will be entered in his Record against the Teacher as Dereliction of Duty.

This reporting sheet corresponds to a page of your Classification Register (not Attendance Register); please fill it out with ink from your Classification Register and return it to me at the end of the last month of the term. It will be kept for public inspection. Study the plan given below and follow it accurately. If you have not a Classification Register in your School let me know at once; also inform the President of your School Board or your Director.

The Register can be obtained at the County Superintendent's office.

Please endeavor to have a Register provided for your school at once, so that all the schools may be classified before the end of the term.

How to Classify Your School in the Classification Register.

1st. Read the course of study carefully; notice the number of grades and the work that each grade includes.

2d. Ascertain in which grade of the Course each pupil has most of his work, and classify him in that grade. If he has not all of his studies in this grade, mark the grade in which such other studies are found, under the headings for these respective studies. (See sample form in Register.)

3d. When a pupil has completed a study and passed a satisfactory examination, credit him with it in the column of "Studies Completed this Term," also record it in the "Record of Studies Completed," in the back part of the Register. This record should show every study which each pupil completes, until he finishes the course and graduates from the district school. The graduating of classes is one of the greatest incentives that can be used in keeping pupils from "dropping out" of school. Diplomas for graduation will be furnished by the County Superintendent for all pupils who finish the course of study.

4th. The "Syllabus of Classes" shows every class in each study, and the pupils (indicated by numbers) belonging to it, also the pages canvassed by each class during the term. The names of pupils belonging to each class may be found by referring to

the names, corresponding to each number, in the column of "Names of Pupils."

5th. The first classification of any school is the most difficult, and should be made with much care. Succeeding teachers should not change the classification left by their predecessors without good reason.

6th. The classification as left by each teacher should show the status of each pupil at the close of each term each being classified in the grade which he has just finished.

7th. A pupil changing from one school to any other in which this Register is used, may receive from his teacher a certificate of his standing, which will enable the teacher whose school he enters to classify him without examination.

8th. Certificates of Promotion and Monthly Reports to Parents may be found to be valuable helps.

9th. Be just and fair in your markings, neither too high nor too low, so as to avoid clashing of opinion by successive teachers.

Write Answers to the following Questions:

Is your daily program posted up in your school room? Yes

Do you make daily preparation for your work? Yes

Do you give Oral Language Lessons to the First and Second Reader classes, and have them write from ten to twenty minutes daily? Yes

Do you spend at least fifteen minutes daily in giving special drills in writing to all grades? Yes

Do you have those in the Third and Fourth Reader grades write at least one letter each week besides other language work?

Do you give Number Work to the lower grades daily? Yes

Do you try to decorate your school room? Yes

All persons are warned against making or publishing this blank, or any modification of it, as it belongs to a series consisting of "Welch's System of Supervision," and is under copyright.

Teacher's Remarks to Superintendent

(NOTE—State what your school needs in apparatus, blackboards, etc.; also give the names of pupils not provided with books, naming the books needed. Suggest wherein the County Superintendent can co-operate with you for the advancement of your school, etc.)

TEACHERS' ANNUAL REPORT

SCHOOL YEAR OF 1919-1920

To the Teacher or Superintendent: The State and National authorities need and demand all the data called for in this report. You are rendering a valued service by a careful and prompt filling out of each item. For common schools of one teacher, items with starred numbers only are to be filled. In schools of two or more teachers the data should be collected by the Superintendent or Principal and embodied in one report. Two copies are to be filed with the County Superintendent within one week after the close of school.

TEACHERS' ANNUAL REPORT

SCHOOL YEAR 1923-1924

To the Teacher or Superintendent: The State and National authorities need and demand all the data called for in this report. You are rendering a valuable service by a careful and prompt filling out of each item. For common schools of one teacher, items with starred numbers only are to be filled. In schools of two or more teachers the data should be collected by the Superintendent or Principal and embodied in one report. Two copies are to be filed with the County Superintendent within one week after the close of school.

1. Name of School Scottdale Dist. No. 36 Macoupin County, Illinois.

Enrollment Note: All whose names have been enrolled during the year should be reported and classified as they are at the close of the year before promotion, or at the time they may have left the district.

Elementary

	Kindergarten		1st Yr.		2nd Yr.		3rd Yr.		4th Yr.		5th Yr.		6th Yr.		7th Yr.		8th Yr.		Total	
	Boys	Girls	Boys	Girls	Boys	Girls	Boys	Girls	Boys	Girls	Boys	Girls	Boys	Girls	Boys	Girls	Boys	Girls	Boys	Girls
Enrollment			6	5	2	3	3	2	3	3	7	2	3	3	3	1	2	6	29	25

2. Secondary (High)—(See note after "Enrollment" above).

	9th Yr.		10th Yr.		11th Yr.		12th Yr.		Total		Grand Total (Elem. and High)	
	Boys	Girls	Boys	Girls	Boys	Girls	Boys	Girls	Boys	Girls	Boys	Girls
Enrollment											29	25

2a. How many of the above were enrolled this year in some other district of this state before enrolling in this district..... Boys 1 Girls 3 Total 4

3a. Length of school year in months..... 8

3f. Actual number of days school was in session..... 172

4. Total days attendance of all pupils enrolled in both elementary and high school..... 7208

4a. Average daily attendance of all pupils enrolled in both elementary and high school (See note below 4c)..... 417

4b. Total days attendance of all high school pupils (above 8th grade).....

4c. Average daily attendance of all high school pupils (above 8th grade) (See note below).
(Note—The average daily attendance in a one-room school is found by dividing the total days attendance by the number of days the school was actually in session. In schools of two or more rooms, or in schools whose records of attendance are kept by session teachers, the average daily attendance is the sum of the averages of the units composing the group. For example: The principal of a two-room school should enter in item 4a the sum of the averages of the two rooms. The principal of a school containing several rooms whose work includes the eight grades and a high school should enter in item 4a the sum of the averages of the grade rooms and of the high school. The superintendent of a city system of schools should enter in item 4a the sum of the averages of the various ward schools and of the high school. The principal of each ward school and the principal of each high school should report the average for his school found by adding the averages of the various rooms or session groups composing the school.)

TEACHER'S ANNUAL REPORT

SCHOOL YEAR 1943-1944

To the Teacher or Superintendent: The State and National authorities need and demand all the data called for in this report. You are rendering a valuable service by a careful and prompt filling out of each item. For common schools of one teacher, items with starred numbers only are to be filled. In schools of two or more teachers the data should be collected by the Superintendent or Principal and embodied in one report. One copy is to be filed with the County Superintendent within one week after the close of school.

Name of School Scottsville Grade Dist. No. 36, Macoupin County, Illinois

Enrollment; Note: All whose names have been enrolled during the year should be reported and classified as they are at the close of the year before promotion, or at the time they may have left the district.

1. TEACHERS AND ENROLLMENT

Elementary (See note after "Enrollment" above.)

(Same as item 5a on claim for state aid)

3cx. Average daily attendance of all pupils enrolled in high school, exclusive of tuition pupils
(Same as item 6ax on claim for state aid)

(Note—The average daily attendance in a one-room school is found by dividing the total days attendance by the number of days the school was actually in session. In schools of two or more rooms, or in schools whose records of attendance are kept by session teachers, the average daily attendance is the sum of the average of the units composing the group. For example: The principal of a two-room school should enter in item 3a the sum of the average of the two rooms. The superintendent of a city system of schools should enter in item 3a the sum of the average of the various ward schools. The principal of each ward school and the principal of each high school should report the average for his school found by adding the averages of the various rooms or session groups composing the school.)

HIGH SCHOOL REPORT

For the year ending June 30, 1918.

Name of District Seestville No. 36

Township 12 Range 9

This report was made out by

O. O. Peddicord
Principal.

Address Seestville, Ill.

Filed June 1 1918

Edw. M. Solomon
County Superintendent.

Filed 1918

Superintendent of Public Instruction.

ILLINOIS PRINTING CO., DANVILLE, ILL.

INSTRUCTIONS

The superintendents or principals of districts or townships maintaining a high school of one or more years are to fill out this blank in duplicate; one copy to be filed with the school records, the other copy forwarded to the county superintendent, who shall transmit the same to the Superintendent of Public Instruction by July 1.

Especial care should be taken in preparing the various items, as follows:

Item 6.—Note that the number of units of work, not years of work, is to be given.

Item 8.—No teacher should be counted more than once.

Item 12 (a).—This should be left blank when the same building is occupied by both high school and grades.

Item 12 (b).—Should always be filled in.

Items 15-17. In case the high school and the grades occupy the same building, the amount to be apportioned to the high school may be estimated by noting the proportional amount of floor space occupied by the high school. The number of class-rooms occupied by the high school and the grades, respectively, often affords a convenient method of obtaining the proportion desired. In case this method proves inexpedient, a division based on relative attendance will be acceptable.

estimated 1927

District 36 Scottville

Board of Directors

Coy Hunt

H. I. Catlett

Ernest Loveless

October 6, 1931

To Directors Scottville School,
District #36,
Macoupin County, Illinois.

Dear Sirs:

Today your County Superintendent Mr. Wilhite and I visited your school. The work of your school is progressing in very good order. The interest and attention of your children were good.

The halls and rooms are very nicely decorated and present a pleasing appearance. The other physical conditions are very good and you have a very satisfactory school plant. I commend you for keeping your well in good order and for having play apparatus. The pictures in your rooms are very suitable and your reference works are adequate.

Your Primary teacher is in need of the word and phrase cards for the work of the children in the first grade. She also needs supplementary readers for the children of the first three grades. Your school is also in need of a good globe. I regret that you have not been able to furnish the Pupils' Reading Circle books for the children of your school.

Certain parts of your toilet rooms are so constructed that it is impossible for the children to use them decently. Please confer with Mr. Wilhite concerning needed change

These suggestions are made to the end that your children may have the best school service that is possible.

Very truly yours,

Assistant Superintendent

W H

September

9

1933

To Directors,
Scottville School District #36,
Macoupin County, Illinois.

Dear Sirs:

Yesterday your County Superintendent Mr. Wilhite and I visited your school. Your teachers are rendering very good service and are making a good start with the year's work. The children were attentive and orderly in spite of the disagreeable weather.

We were much pleased with your new building in most respects. You have a wonderful basement and an excellent heating plant. I regret that you did not provide for inside sanitary toilets and drinking fountains in the halls. These modern conveniences do so much to teach children how to live well.

When you find it possible to do so it will be very easy to run a wall in such manner as will enclose your coat room from the regular school room.

The teacher of the first three grades needs two sets of supplementary readers for the children of those grades as she cannot do satisfactory work without them. Your general library is small but it will soon be satisfactory if you buy the Pupils Reading Circle books each year. These books will give your children much pleasure and information. The teacher needs chart and cards for the reading work in the first grade.

In any three teacher school it is well to have the first two grades only in the first room unless the number of children prohibit such arrangement. It would be fine if you could rearrange the grades in your school so as to have the first and second grades in the first room; third, fourth and fifth in the second room, and the sixth, seventh and eighth in the third room. The first room will then have 22, the second 19, and the third room 31 children. The teacher in the first room will then have time to do the drill work and many other forms of work that are necessary to make progress with little children. It is much easier to teach the three upper grades than to teach the three lower grades. I hope this suggestion will receive your serious consideration.

I commend you for having so good a school building and I have every confidence that you will add these modern improvements when it is possible to do so.

When you make improvements or purchase supplies please confer with Mr. Wilhite as he can aid you in securing correct service.

Page #2

Scottville School District #36,
Macoupin County, Illinois.

These suggestions are made to the end that your children may
have the best possible school privileges.

Very truly yours,

Assistant Superintendent

CHW*FH

April
2
1934

To Directors,
Scottville School District #36,
Macoupin County, Illinois.

Dear Sirs:

Today your County Superintendent Mr. Wilhite and I visited your school. I was pleased to see your school and to meet your teachers. The school is in satisfactory condition. The teachers are rendering good service and have a fine attitude toward the work. The children are orderly and industrious and respond in recitation very well.

In any three teacher school grades one and two should be in the first room, grades three, four and five in the second room, grades six, seven and eight in the third room. This is the best arrangement.

There is need of cabinet space to contain books, work materials and supplies as the teachers cannot do good housekeeping unless they have a place in which to keep such materials.

Besides your reference books and supplementary readers your library is small but it will soon be satisfactory if you buy the Pupils Reading Circle books and a few other worthy books annually.

I make these suggestions: (1) In a short time your walls and ceilings will need to be decorated in the light colors - light cream on the ceilings and light tan on the walls.

(2) It would be fine if, in some way, you could have a few quality pictures in each room. Trees and shrubbery are needed for the building and yard.

(3) The coat rooms as designed in your original plans should be completed at an early date.

(4) Your basement is fine. The floors of the rooms should be cleaned and then treated with a thin covering of some light colored floor oil to retain the natural color of the wood.

I commend you for having the Pupils Reading Circle books, work books, supplementary readers and other supplies needed by the teachers in serving your children.

Having every confidence that you will comply with these reasonable suggestions at an early date I have the pleasure of informing you that your school is hereby designated as a Standard School by the Department of Public Instruction, State of Illinois.

When you make improvements or purchase supplies please confer with Mr. Wilhite as he can help you to secure correct service.

These suggestions are made to the end that your children may have the best possible school privileges.

Very truly yours,

Assistant Superintendent

CHW*FH

January
17
1935

To Directors,
Scottville School District #36,
Macoupin County, Illinois.

Dear Sirs:

Today your County Superintendent Mr. Wilhite and I visited your school. All departments of the school were going very well. Although Miss Predgen is teaching her first school, she is meeting the demands of her position very well.

Great care should be taken to have the reading in all grades to be excellent. Poor readers do very little satisfactory work.

I make these suggestions:

(1) You have a fine basement. I suggest that inside sanitary toilets should be provided at the earliest possible date.

(2) I am disappointed that the partitions have not been installed to make private coat rooms. The present condition makes a very bad appearance.

(3) The cabinets should be better than they are. Mr. Wilhite will give you a good plan for cabinets.

(4) I commend you for having the Pupils' Reading Circle books, supplementary readers, reference books, work books and other supplies needed by the teacher in serving your children.

I am not renewing the standardization for the reasons expressed in No. 2.

When you make improvements or purchase supplies please confer with Mr. Wilhite as he can help you to secure correct service.

These suggestions are made to the end that your children may have the best possible school privileges.

Very truly yours,

Assistant Superintendent

CHW:FR

1935

Mr. G. D. Redfern
Principal of Schools
Scottville, Illinois

Dear Mr. Redfern:

In company with your county superintendent Mr. Kerstein I visited your schools for a short time on Monday of last week. I assure you that it was a real pleasure to visit such an excellent school and wish to thank you and your teachers for the courtesies extended.

Since you have your new building, I believe your chief problem now is to see to it that it is properly equipped. This matter has been taken care of fairly satisfactorily. However, I hope that you and your board will go through the list of recommendations which I left with you and try to meet them insofar as you possibly can. No doubt, you have already met most of these requirements.

We hope in the near future to have some form of recognition set up whereby we can give a certificate of recognition to schools such as yours similar to what has been given to high schools for the past several years.

I wish to commend you, your teachers, and your school board for the effort you are making at Scottville to maintain a school of the very highest type.

Very truly yours

Otis Keeler
Assistant Superintendent

OK*FH

CC: Mr. Karl Kerstein
County Superintendent

January 27, 1938

Mr. Gilbert D. Redfern, Principal,
Scottville Elementary School,
Scottville, Illinois

36

Dear Mr. Redfern:

On January 24, in company with County Superintendent Kerstein, I made a brief visitation of your school. I have the following report to make, which I hope will serve as a guide for further improvement:

You have an excellent building which has been kept in an excellent state of repair. Your building includes playrooms, but not a gymnasium. It was observed that outdoor toilets are provided. It is to be hoped that in the near future you can provide indoor septic tank toilets. The interior of the building has not been decorated, but is in good condition. Since this is the last year for bond payments it is reported that you will decorate next year. May I suggest that you use a very light ivory color for the ceiling and light cream for the walls, so as to secure the maximum amount of reflected light.

I wish to compliment you and the board upon the excellent equipment which has been provided for this school in the way of bulletin boards, blackboards, maps, library books, etc. The few pictures you have are good, but I suggest that another good picture be added to each room. Paper towels are provided, but the arrangement for the lavatory facilities is not very satisfactory, as the pupils are required to go into the furnace room.

The average training of the teachers in this school is less than two years. However, the record of recent summer school attendance is good and should be continued. It is reported that the school term is eight months. This is about the only item which prevents this school from receiving Superior recognition, as one of the requirements is a nine months term.

Mr. Gilbert D. Redfern, Principal,
January 27, 1938,

-2-

I am very happy to recommend to Mr. Wieland that this school be issued a Certificate of Recognition for the year 1937-38. I hope that your teachers will continue to attend summer school and that the board will decide upon a nine months term for next year.

Very truly yours,

E. S. Simmonds
Assistant Superintendent

Subject: Schools-

April 20, 1939

Macoupin County
Scottville Grade School, District #36
Inspection report.

Board of Directors, Att: Wilfred Powell, Clerk
School District #36
Scottville, Ill.

Gentlemen:

Based on an inspection of the sanitary facilities at Scottville Grade School District #36, Macoupin County made April 13, 1939 we conclude that the following sanitary defects exist:

a) The well is subject to contamination by shallow ground water seepage which may enter through cracks that can develop in the brick well lining; rain, waste pumpage, dust, bird and dog contamination which may enter the well through cracks in and around the boards which support the pump; dust, bird and dog contamination that may be washed into the well through the non-watertight junction of curb and platform.

b) The privies are insanitary as they are accessible to flies, insects and rodents because of the open-back type of vaults, the non-self closing lids, the unscreened vents, the openings in the vault around the urinal troughs.

In order to correct these sanitary defects at the school, we recommend the following improvements:

1. Pour a 6 inch reinforced concrete wall around the outside of the present wall lining to a depth of at least 3 feet below the surrounding ground surface. Directions for such construction are shown on page 8 of the enclosed bulletin.

2. Reconstruct the well platform with a 4 inch concrete slab extending beyond the walls at least one foot in all directions. A short iron pipe sleeve, whose diameter will allow the passage of the pump cylinder, should be placed in the platform at the time of construction. Sleeve should extend about one inch into the pump base. The pump should rest directly on the concrete and be firmly bolted in place as shown in Fig. 6 of the enclosed bulletin.

3. Sterilize the well water after the above improvements have been made and before it is used for drinking purposes. The procedure for sterilization is described on pages 16 and 17 of the enclosed bulletin.

4. Seal the open-back on the vaults so that they will be absolutely flytight. This can be done by placing a tight fitting wood cover over the back and then backfilling with earth.

CHIEF SANITARY ENGINEER
CLARENCE W. KLASSEN

5. Provide the privies with hinged, self-closing lids. These lids when closed should fit so as to exclude flies.

6. Screen the vents with 16 mesh copper screen wire to prevent the entrance of flies.

7. Seal the opening in the vault at the entrance of the urinal trough. The urinal should drain into a separate seepage pit filled with broken stone or gravel. This pit should be covered with earth.

Since the school officials are responsible for the protection of the pupils' while at school, it is important that the above recommendations be fulfilled.

If the engineers of this department can be of service in connection with your water supply or sewerage problems, we shall be pleased to be so advised.

We shall appreciate an acknowledgment of this letter and information regarding the action taken toward following the above recommendations.

SCHOOLS: Macoupin County
Scottville Grade School, Dist. #36

Board of Directors
Att: Wilfred Powell, Clerk
Scottville, Illinois.

Gentlemen:

A request for an analysis of the water from your school well was recently relayed to us by Miss Margaret Paul, Area Project Supervisor of School Lunches.

Our records show that the well and toilets of the Scottville Grade School were inspected on April 13, 1939. On April 20, 1939, a letter was addressed to the Board of Directors pointing out defects which existed in the construction of the well and toilets at the time of the inspection and giving recommendations as to improvements necessary for correction of these defects.

On September 10, while in Scottville regarding other matters, the writer contacted Mr. Wilfred Powell, Clerk of Board of Directors, regarding the school well. It was learned that no improvements have been made to the school well since the original inspection.

It is our opinion that an analysis of a sample of water from the school well at this time would accomplish no real good. As long as the defects listed in the inspection report letter of April 20, 1939, exist in the construction of the well, we could give no assurance of the continued safety of the water even if a satisfactory sample were obtained.

It is suggested that the Board of Directors consider the possibility of carrying out the recommended improvements to the well at the earliest possible date in order to safeguard the health of the school children. Also, we have been informed that approval of a school water supply is desired before a W.P.A. Hot Lunch Project is established at the particular school.

In this connection we wish to call to your attention the fact that a W.P.A. school well reconstruction project is proposed for Macoupin County. If this project is put into operation, it will be possible for school boards to make necessary improvements to their school wells by paying the cost of

materials only, labor being furnished by the W.P.A. If you are interested in the possibility of having your well improved under such a project, please notify the District Office in Carlinville or the office of Mr. Karl H. Kerstein, County Supt. of Schools.

In order that there may be no doubt concerning the sanitary quality of drinking water used at the school and of water used in connection with the proposed hot lunch project, it is recommended that all water taken from this well be boiled for five minutes before being used. This is only a temporary measure and should be carried out until the well has been properly improved and a satisfactory sample secured.

If the engineers of this Department can be of further assistance to you in connection with your school water supply and sewerage problems, please do not hesitate to call upon us.

SANITARY ANALYSIS OF WATER FROM Scottville private supply
Source 35' dug well, at grade school, Dist. #36
Date collected Sept. 29, 1936 Laboratory No. 111076
Collected by Gilbert D. Redfarm for _____
Remarks _____

Sediment 0
Turbidity 0
Odor 0
Nitrite nitrogen _____
Nitrate nitrogen _____
Chloride _____
Bacteria per ml. (37° C.) 630

Bacteria of the colon group:

In portions of 10 ml.

Presumptive tests 5+ _____
Confirmatory tests _____

This analysis indicates that the water was contaminated and was not safe to drink at the time the sample was collected.

The well appears to be subject to contamination caused by shallow ground water and rain seeping through the upper portion of the well lining. Also dust, dog and bird contamination may be washed under the pump base and through the manhole into the well. Therefore, we recommend that the well be reconstructed as follows:

1. Pour a six-inch reinforced concrete wall around the outside of the present well lining to a depth of 8 feet, or remove the old lining and build a proper form in which to pour the concrete. (See bulletin.)

2. Build a new reinforced concrete platform, inserting an iron pipe sleeve in the concrete, underneath the pump base and extending into the pump base at least an inch, as illustrated in the bulletin.

3. After the above repairs are made the well should be sterilized with chlorinated lime as outlined on page 11 of our bulletin on wells.

Unless these improvements are made the well cannot be considered a satisfactory source of drinking water.

CONCERNING THIS SANITARY ANALYSIS

The statements on the reverse side are based not only on the analytical results, but also on the description of the source as furnished by you or already on file in this office. It is further recommended as follows:

- (a) If the water is unsafe to drink, abandon the supply for one of known safety or bring the water to a boil before use, until the suggested improvements have made the supply safe.
- (b) If the source is not satisfactory, make the suggested improvements immediately.
- (c) If the water is safe, take care to keep it safe by protecting the supply from contamination.

A laboratory examination of the water has been made to show the presence or absence of waste matter of human or animal origin. If the water is contaminated by surface wash or sewage, then parasitic intestinal worms, amebic cysts or germs of intestinal diseases, such as cause bowel complaint, diarrhea, dysentery or typhoid fever, may be present in the water, thus endangering the health of persons drinking the water. The analytical terms and results are briefly explained as follows:

Physical and Chemical Tests: "Sediment" through "Chloride." A desirable water has an attractive appearance (no sediment or turbidity) and has no objectionable odor or taste. Chemical results are given in parts per million.

Bacteriological Tests: "Bacteria per ml." indicates the number of microorganisms present in one milliliter (ml.) of water (20 drops). The result reported gives the number of bacteria which will grow at body temperature (37°C or 98°F). These bacteria may not be of intestinal origin and therefore may not be of sanitary importance. Occasionally the test plates are overcrowded so that no bacterial count can be obtained. In such case the report shows "Innumerable" indicating more than 1000 bacteria per ml.

"Bacteria of the colon group" "Presumptive" "Confirmatory Tests": A water containing bacteria of intestinal origin (colon bacteria), if placed in a sugar broth (lactose), will cause fermentation and production of gas in 24 or 48 hrs. By means of further laboratory tests the presence of these bacteria in 10 ml. portions is indicated by a +, their absence by a —. The numeral preceding the sign shows the number of portions giving that result.

Example: 2+3— indicates that two 10 ml. portions of the sample did show and three portions did not show colon bacteria present.

After receipt of the sample in the laboratory it requires from two to five days to complete the sanitary analysis.
