**TEACHER'S REMARKS ON CLASSIFICATION**

The work in the upper grades is about on an average but the primary work has been pitifully neglected. Children who are classified for second grade can write no better than children who have been in school three months.

We expect to use the text books as outlined in the Plans for the Year but are unable to get them in Girard. We are however sending to Hall & McCreary, Chicago for same. Owing to the several changes in other text books I have substituted the Ridgley Geography notebooks to accompany our same Natural text books as a less expensive plan - We shall probably charge to B. & M. text book later if this plan isn't satisfactory.

**TO THE TEACHER:**

This Preliminary Report should show the present organization of your school, and the condition of your school-room and grounds. It will enable me to give you prompt and valuable assistance during your present term of school. Please fill out carefully with ink, and mail to me at the close of the FIRST WEEK of school. Due credit will be given you for filing this report promptly.

This reporting sheet corresponds to a page of your Classification Register (*not Attendance Register*); please fill it out with ink from your Classification Register and return to me at the end of the last month of the term. It will be kept for public inspection. Study the plan given below and follow it accurately. If you have not a Classification Register in your School *let me know at once;* also inform the President of your School Board or your Director.

The Register can be obtained at the County Superintendent's office.

Please endeavor to have a Register provided for your school *at once*, so that all the schools may be classified before the end of the term.

### How to Classify Your School in the Classification Register.

1st. Read the course of study carefully; notice the number of grades and the work that each grade includes.

2d. Ascertain in which grade of the Course each pupil has *most* of his work, and classify him in that grade. If he has not all of his studies in this grade, mark the grade in which such other studies are found, under the headings for these respective studies. (See sample form in Register.)

3d. When a pupil has completed a study and passed a satisfactory examination, credit him with it in the column of "Studies Completed this Term," also record it in the "Record of Studies Completed," in the back part of the Register. This record should show every study which each pupil completes, until he finishes the course and graduates from the district school. The graduating of classes is one of the greatest incentives that can be used in keeping pupils from "dropping out" of school. Diplomas for graduation will be furnished by the County Superintendent for all pupils who finish the course of study.

4th. The "Syllabus of Classes" shows every class in each study, and the pupils (indicated by numbers) belonging to it, also the pages canvassed by each class during the term. The names of pupils belonging to each class may be found by referring to the names, corresponding to each number, in the column of "Names of Pupils."

5th. The *first* classification of any school is the most difficult, and should be made with much care. Succeeding teachers should not change the classification left by their predecessors without good reason.

6th. The classification as left by each teacher should show the status of each pupil at the *close* of each term each being classified in the grade which he has just *finished.*

7th. A pupil changing from one school to any other in which this Register is used, may receive from his teacher a certificate of his standing, which will enable the teacher whose school he enters to classify him without examination.

8th. *Certificates of Promotion* and Monthly Reports to Parents may be found to be valuable helps.

9th. Be *just* and *fair* in your markings, neither too high nor too low, so as to avoid clashing of opinion by successive teachers.

All persons are warned against making or publishing this blank, or any modification of it, as it belongs to a series consisting of "Welch's System of Supervision," and is under copyright.

### Write Answers to the following Questions:

Is your daily program posted up in your school room? Yes

Do you make *daily* preparation for your work? Yes

Do you give Oral Language Lessons to the First and Second Reader classes, and have them write from ten to twenty minutes daily? Yes

Do you spend at least fifteen minutes daily in giving special drills in writing to all grades? We have a daily period of fifteen minutes, during which time all grades practice & have special instructions in writing

Do you have those in the Third and Fourth Reader grades write at least one letter each week besides other language work? These grades have fifty two days each week and so find one letter in two weeks sufficient

Do you give Number Work to the lower grades daily? Yes

Do you try to decorate your school room? Yes. Our school room decorations consist chiefly of excellent pictures, among which are those of Washington & Lincoln, Landing of the Pilgrims, Penn's Treaty with the Indians, Yosemite valley, Niagra Falls & others of birds, flowers etc.

Also whenever possible both myself & pupils bring flower to school, which are much enjoyed by all.

## TEACHER'S REMARKS TO SUPERINTENDENT

(NOTE.—State what your school needs in apparatus, blackboards, etc.; also give the names of pupils not provided with books, naming the books needed. Suggest wherein the County Superintendent can co-operate with you for the advancement of your school, etc.)

This school is exceptionally well provided with apparatus and nothing whatever is needed except a little more blackboard room, which is much needed in winter for about three months when the older boys attend school.

Mary Brubaker, Chas. Garst & Nellie Winstead, who are in the fourth grade after should have language books, which their parents refused to get, saying that they did not need them. The parents of these children are now members of the board of directors; Mr. Winstead holding over & Mr. Garst, who is also step father of Mary Brubaker, (being re-elected.)

## Teacher's Remarks to Superintendent

(NOTE—State what your school needs in apparatus, blackboards, etc.; also give the names of pupils not provided with books, naming the books needed. Suggest wherein the County Superintendent can co-operate with you for the advancement of your school, etc.)

The school is in good condition using the "Text-Books" as recommended by the County Superintendent, with the exception of Grammar and History, both of which can be put in the following year and cause no trouble. I like the text-book with these two exceptions, which will be straitened out next year. With the new building & fixture it will be a fine school with no exception.

**Failure to file this Report in the Superintendent's Office will be entered in his Record against the Teacher as Dereliction of Duty.**

This reporting sheet corresponds to a page of your Classification Register (*not Attendance Register*); please fill it out with ink from your Classification Register and return it to me at the end of the last month of the term. It will be kept for public inspection. Study the plan given below and follow it accurately. If you have not a Classification Register in your School *let me know at once;* also inform the President of your School Board or your Director.

The Register can be obtained at the County Superintendent's office.

Please endeavor to have a Register provided for your school *at once*, so that all the schools may be classified before the end of the term.

---

## How to Classify Your School in the Classification Register.

1st. Read the course of study carefully; notice the number of grades and the work that each grade includes.

2d. Ascertain in which grade of the Course each pupil has *most* of his work, and classify him in that grade. If he has not all of his studies in this grade, mark the grade in which such other studies are found, under the headings for these respective studies. (See sample form in Register.)

3d. When a pupil has completed a study and passed a satisfactory examination, credit him with it in the column of "Studies Completed this Term," also record it in the "Record of Studies Completed," in the back part of the Register. This record should show every study which each pupil completes, until he finishes the course and graduates from the district school. The graduating of classes is one of the greatest incentives that can be used in keeping pupils from "dropping out" of school. Diplomas for graduation will be furnished by the County Superintendent for all pupils who finish the course of study.

4th. The "Syllabus of Classes" shows every class in each study, and the pupils (indicated by numbers) belonging to it, also the pages canvassed by each class during the term. The names of pupils belonging to each class may be found by referring to the names, corresponding to each number, in the column of "Names of Pupils."

5th. The *first* classification of any school is the most difficult, and should be made with much care. Succeeding teachers should not change the classification left by their predecessors without good reason.

6th. The classification as left by each teacher should show the status of each pupil at the *close* of each term each being classified in the grade which he has just *finished.*

7th. A pupil changing from one school to any other in which this Register is used, may receive from his teacher a certificate of his standing, which will enable the teacher whose school he enters to classify him without examination.

8th. *Certificates of Promotion* and Monthly Reports to Parents may be found to be valuable helps.

9th. Be *just* and *fair* in your markings, neither too high nor too low, so as to avoid clashing of opinion by successive teachers.

**Failure to file this Report in the Superintendent's Office will be entered in his Record against the Teacher as Dereliction of Duty.**

This reporting sheet corresponds to a page of your Classification Register (*not Attendance Register*); please fill it out with ink from your Classification Register and return it to me at the end of the last month of the term. It will be kept for public inspection. Study the plan given below and follow it accurately. If you have not a Classification Register in your School *let me know at once;* also inform the President of your School Board or your Director.

The Register can be obtained at the County Superintendent's office.

Please endeavor to have a Register provided for your school *at once*, so that all the schools may be classified before the end of the term.

---

**How to Classify Your School in the Classification Register.**

1st. Read the course of study carefully; notice the number of grades and the work that each grade includes.

2d. Ascertain in which grade of the Course each pupil has *most* of his work, and classify him in that grade. If he has not all of his studies in this grade, mark the grade in which such other studies are found, under the headings for these respective studies. (See sample form in Register.)

3d. When a pupil has completed a study and passed a satisfactory examination, credit him with it in the column of "Studies Completed this Term," also record it in the "Record of Studies Completed," in the back part of the Register. This record should show every study which each pupil completes, until he finishes the course and graduates from the district school. The graduating of classes is one of the greatest incentives that can be used in keeping pupils from "dropping out" of school. Diplomas for graduation will be furnished by the County Superintendent for all pupils who finish the course of study.

4th. The "Syllabus of Classes" shows every class in each study, and the pupils (indicated by numbers) belonging to it, also the pages canvassed by each class during the term. The names of pupils belonging to each class may be found by referring to the names, corresponding to each number, in the column of "Names of Pupils."

5th. The *first* classification of any school is the most difficult, and should be made with much care. Succeeding teachers should not change the classification left by their predecessors without good reason.

6th. The classification as left by each teacher should show the status of each pupil at the *close* of each term each being classified in the grade which he has just *finished.*

7th. A pupil changing from one school to any other in which this Register is used, may receive from his teacher a certificate of his standing, which will enable the teacher whose school he enters to classify him without examination.

8th. *Certificates of Promotion* and Monthly Reports to Parents may be found to be valuable helps.

9th. Be *just* and *fair* in your markings, neither too high nor too low, so as to avoid clashing of opinion by successive teachers.

All persons are warned against making or publishing this blank, or any modification of it, as it belongs to a series consisting of "Welch's System of Supervision," and is under copyright.

**Write Answers to the following Questions:**

Is your daily program posted up in your school room? Yes

Do you make *daily* preparation for your work? Yes

Do you give Oral Language Lessons to the First and Second Reader classes, and have them write from ten to twenty minutes daily? Yes

Do you spend at least fifteen minutes daily in giving special drills in writing to all grades? When I have time

Do you have those in the Third and Fourth Reader grades write at least one letter each week besides other language work? Yes

Do you give Number Work to the lower grades daily? Yes

Do you try to decorate your school room? Yes

**Teacher's Remarks to Superintendent**

(NOTE—State what your school needs in apparatus, blackboards, etc.; also give the names of pupils not provided with books, naming the books needed. Suggest wherein the County Superintendent can co-operate with you for the advancement of your school, etc.)

The reason I had no pupils at the final examination, was because they had been out of school too much on the account of sickness. About all we need is a well, and our school would be in fine condition.

**Failure to File this Report in the Superintendent's Office will be entered in his Record against the Teacher as a Dereliction of Duty.**

This reporting sheet corresponds to the classification section of your Combined Register; please fill it out with ink from your Register and return to me at the end of the last month of the term. It will be kept for public inspection. Study the plan given below and follow it accurately. If you have not a Combined Register in your School *let me know at once;* also inform the President of your School Board or your Director.

The Register can be obtained at the County Superintendent's office.

Please endeavor to have a Register provided for your school *at once,* so that your school may be classified before the end of the term.

---

**How to Classify Your School in the Classification Register.**

1st. Read the course of study carefully; notice the number of forms and the work that each form includes.

2d. Ascertain in which form of the Course each pupil has *most* of his work, and classify him in that form. If he has not all of his studies in this form, mark the form in which such other studies are found, under the headings for these respective studies. (See sample form in Register.)

3d. When a pupil has completed a study and passed a satisfactory examination, credit him with it in the column of "Studies Completed this Term," also record it in the "Record of Studies Completed," in the back part of the Register. This record should show every study which each pupil completes, until he finishes the course and graduates from the district school. The graduating of classes is one of the greatest incentives that can be used in keeping pupils from "dropping out" of school. Diplomas for graduation will be furnished by the County Superintendent for all pupils who finish the course of study.

4th. The "Syllabus of Classes" shows every class in each study, and the pupils (indicated by numbers) belonging to it, also the pages canvassed by each class during the term. The names of pupils belonging to each class may be found by referring to the names, corresponding to each number, in the column of "Names of Pupils."

5th. The *first* classification of any school is the most difficult, and should be made with much care. Succeeding teachers should not change the classification left by their predecessors without good reason.

6th. The classification as left by each teacher should show the status of each pupil at the *close* of each term each being classified in the grade which he has just *finished.* In making your recommendations in the section at right of "Pages Canvassed this Term," *be just.* This section classifies this school for your successor. Make no recommendation that you would not follow scrupulously were you to continue work in this school next term.

7th. A pupil changing from one school to any other in which this Register is used, may receive from his teacher a certificate of his standing, which will enable the teacher whose school he enters to classify him without examination.

8th. *Certificates of Promotion* and Monthly Reports to Parents are valuable helps, and may be obtained from the County Superintendent.

9th. Be *just* and *fair* in your markings, neither too high nor too low, so as to avoid clashing of opinion by successive teachers.

**The following will assist you in making your Report accurately:**

Total Number of Days of Absence—This will be the sum of the days of absence of all pupils enrolled during the term. Do not count the days a pupil was "dropped" as "days of absence." When a pupil is "dropped" he is not a member of your school and hence cannot be considered as "absent" in the sense in which the word "absent" is here used.

Absence that is less than half a day will be reported as a half day's absence; for example, if a pupil comes before the close of the forenoon recess, count him tardy only; but if he should not arrive until after the forenoon recess, count him absent a half day. Observe the same rule for the afternoon session.

Total Number of Days of Attendance—This will be the sum of the days of attendance of all pupils enrolled during the term. The total number of days of attendance, plus the total number days of absence, should ALWAYS equal the total number days of membership. This fact will enable you to test the accuracy of your results.

Average Daily Attendance—This is found by dividing the total days of attendance by the number of days taught. Always express the quotient as a whole number. A fraction that is less than a half should be dropped, but a fraction that is a half or more should be called 1.

Number Violating Compulsory Attendance Law—The law requires all pupils between the ages of seven and sixteen to attend school regularly at least twenty-four consecutive weeks. It does not apply to pupils who live more than two miles from school.

Whole Number of Days Taught—Count every day for which you draw pay as taught.

Average Cost of Tuition per Month per Pupil—This is found by dividing the amount paid the teacher per month by the average daily attendance for the term

**Failure to File this Report in the Superintendent's Office will be entered in his Record against the Teacher as a Dereliction of Duty.**

This reporting sheet corresponds to the classification section of your Combined Register; please fill it out with ink from your Register and return to me at the end of the last month of the term. It will be kept for public inspection. Study the plan given below and follow it accurately. If you have not a Combined Register in your School *let me know at once;* also inform the President of your School Board or your Director.

The Register can be obtained at the County Superintendent's office.

Please endeavor to have a Register provided for your school *at once,* so that your school may be classified before the end of the term.

---

**How to Classify Your School in the Classification Register.**

1st. Read the course of study carefully; notice the number of forms and the work that each form includes.

2d. Ascertain in which form of the Course each pupil has *most* of his work, and classify him in that form. If he has not all of his studies in this form, mark the form in which such other studies are found, under the headings for these respective studies. (See sample form in Register.)

3d. When a pupil has completed a study and passed a satisfactory examination, credit him with it in the column of "Studies Completed this Term," also record it in the "Record of Studies Completed," in the back part of the Register. This record should show every study which each pupil completes, until he finishes the course and graduates from the district school. The graduating of classes is one of the greatest incentives that can be used in keeping pupils. from "dropping out" of school. Diplomas for graduation will be furnished by the County Superintendent for all pupils who finish the course of study.

4th. The "Syllabus of Classes" shows every class in each study, and the pupils (indicated by numbers) belonging to it, also the pages canvassed by each class during the term. The names of pupils belonging to each class may be found by referring to the names, corresponding to each number, in the column of "Names of Pupils."

5th. The *first* classification of any school is the most difficult, and should be made with much care. Succeeding teachers should not change the classification left by their predecessors without good reason.

6th. The classification as left by each teacher should show the status of each pupil at the *close* of each term each being classified in the grade which he has just *finished.* In making your recommendations in the section at right of "Pages Canvassed this Term," *be just.* This section classifies this school for your successor. Make no recommendation that you would not follow scrupulously were you to continue work in this school next term.

7th. A pupil changing from one school to any other in which this Register is used, may receive from his teacher a certificate of his standing, which will enable the teacher whose school he enters to classify him without examination.

8th. *Certificates of Promotion* and Monthly Reports to Parents are valuable helps, and may be obtained from the County Superintendent.

9th. Be *just* and *fair* in your markings, neither too high nor too low, so as to avoid clashing of opinion by successive teachers.

## Teacher's Remarks to Superintendent

(NOTE)—Suggest wherein the County Superintendent can co-operate with you for the advancement of your school, etc.

This school house has a fine basement and should be equipped with a furnace by all means. School heaters are very poor heating apparatus, especially when conditions are unfavorable. A building erected suitable for a furnace should certainly have one. This expresses my views on heating at this school.

**Failure to fill this report and file it with the county superintendent and to leave a copy of it in the Classification register, will be sufficient cause to refuse renewal or registration of the certificate.**

This report agrees with the outline for this County and the State Course.

Pupils shall complete the work outlined for each year and spend the rest of the time in review.

**The classification report in your register and the daily program you leave will be of much help to your successor. They should be filled very carefully.**

**The following will assist you in making your Report accurately:**

Total Number of Days of Absence—This will be the sum of the days of absence of all pupils enrolled during the term. Do not count the days a pupil was "dropped" as "days of absence". When a pupil is "dropped" he is not a member of your school, and hence cannot be considered as "absent" in the sense in which the word "absent" is here used.

### CONVENIENT DIRECTIONS

(How to find)

1. Number Belonging Each Day.—From total number enrolled subtract the number whose names have been dropped.

2. Average Number Belonging. — Divide the total number of days all pupils belonged by number of days taught.

3. Average Daily Attendance.—Divide the total number of days attended by the number of days taught. Express the quotient as a whole number.

4. Average Cost of Tuition per Month.—Divide amount paid teacher per month by the average daily attendance for term.

5. The Total Number of different persons enrolled during the year is found by taking the sum of the total enrollment for the first term, the number enrolled second not enrolled the first, and the number enrolled the third not enrolled the first or second term.

### COMPULSORY ATTENDANCE LAW

The law requires all pupils between the ages of seven and sixteen to attend school regularly at least twenty-four consecutive weeks, beginning Sept. 1st.

Whole Number of Days Taught—**Count every day for which you draw pay as taught.**

### TEACHER'S REMARKS TO SUPERINTENDENT

(Note—State what your school needs in apparatus, blackboards, etc.; also give the name of pupils not provided with books, naming the books needed. Suggest wherein the County Superintendent can cooperate with you for the advancement of your school, etc.)

Boston Chapel school needs the walls and ceiling re decorated and the floor oiled. The walls and the library is very poor. They lack a single reading circle book.

The windows glass should be painted on the lower sash

Value of apparatus $ 50.00

# TEACHERS' ANNUAL REPORT

## SCHOOL YEAR 1922-1923

To the Teacher or Superintendent: The State and National authorities need and demand all the data called for in this report. You are rendering a valuable service by a careful and prompt filling out of each item. For common schools of one teacher, items with starred numbers only are to be filled. In schools of two or more teachers the data should be collected by the Superintendent or Principal and embodied in one report. Two copies are to be filed with the County Superintendent within one week after the close of school.

(Note—The average daily attendance in a one-room school is found by dividing the total days attendance by the number of days the school was actually in session. In schools of two or more rooms, or in schools whose records of attendance are kept by session teachers, the average daily attendance is the sum of the average of the units composing the group. For example: The principal of a two-room school should enter in Item 3a the sum of the average of the two rooms. The superintendent of a city system of schools should enter in Item 3a the sum of the average of the various ward schools. The principal of each ward school and the principal of each high school should report the average for his school found by adding the averages of the various rooms or session groups composing the school.)

Subject: Schools-
Macoupin County
Boston Chapel, District #38
Inspection report

Board of Directors, Att: L. A. Grimmett, Clerk
School District #38
Girard, Ill.

Gentlemen:

Based on an inspection of the sanitary facilities at Boston Chapel School, District #38, Macoupin County, made May 22, 1939 we conclude that the following sanitary defects exist:

a) The well is subject to contamination by shallow ground water seepage which may enter through cracks that can develop in the brick well lining; rain, waste pumpage, dust, bird and dog contamination which may enter the well through cracks in and around the boards which support the pump; dust, bird and dog contamination that may be washed into the well through cracks in the split-base pump; contaminated waste pumpage which will saturate the ground surrounding the well and which may re-enter it.

In order to correct these sanitary defects at the school, we recommend the following improvements:

1. Pour a 6 inch reinforced concrete wall around the outside of the present well lining to a depth of at least 8 feet below the surrounding ground surface. Directions for such construction are shown on page 8 of the enclosed bulletin.

2. Reconstruct the well platform with a 4 inch concrete slab extending beyond the walls at least one foot in all directions. A short iron pipe sleeve, whose diameter will allow the passage of the pump cylinder, should be placed in the platform at the time of construction. Sleeve should extend about one inch into the pump base. The pump should rest directly on the concrete and be firmly bolted in place as shown in Fig. 6 of the enclosed bulletin.

3. Replace the split-base pump with a pump having a one piece circular base, and a stuffing box surrounding the pump rod.

4. Provide a substantial, water tight trough 15 feet in length to carry waste pumpage away from the immediate vicinity of the well.

5. Sterilize the well water after the above improvements have been made and before it is used for drinking purposes. The procedure for sterilization is described on pages 16 and 17 of the enclosed bulletin.

At the time of inspection, it was noted that the sanitary pit privies were not equipped with drain boards. While this may not be a sanitary defect at present, the continued dripping of rain from the privy roofs will in time wash away the earth mound surrounding the pit. This will then leave openings to the pit through which flies, insects, and rodents can pass. Such a condition would reduce the effectiveness of the privies until they no longer could be classified as "sanitary". We suggest, therefore, that drain boards be installed as shown on the enclosed bulletin.

Since the school officials are responsible for the protection of the pupils' while at school, it is important that the above recommendations be fulfilled.

If the engineers of this department can be of service in connection with your water supply or sewerage problems, we shall be pleased to be so advised.

We shall appreciate an acknowledgement of this letter and information regarding the action taken toward following the above recommendations.
