TEACHER'S REMARKS ON CLASSIFICATION

I find the pupils in need of review before being able to carry the work. The eighth Grade is well classified but the sixth and fourth Grades seem to be too far advanced to carry the work especially in Arithmetic. I find the pupils willing to work and easily controlled.

TEACHER'S REMARKS ON CLASSIFICATION

I have a very full program as this school needs 4th, 6th & 8th. yrs. this year. As no 1st & 5th are needed that helps some. I have some classes hand in written work and correct it outside of school hours. Some classes of only a few pupils in each class can work two classes at a time on board and I can oversee both classes of work quickly.

TO THE TEACHER:

This preliminary Report should show the present organization of your school, and the condition of your schoolroom and grounds. It will enable me to give you prompt and valuable assistance during your present term of school. Please fill out carefully with ink, and mail to me at the close of the FIRST WEEK of school. TEACHER'S REMARKS ON CLASSIFICATION

I find the school has not been properly classified. Owing to a small attendance attendance has not be properly observed. This, with the present increase in attendance causes some classes to be crowded.

TO THE TEACHER:

This Preliminary Report should show the present organization of your school, and the condition of your schoolroom and grounds. It will enable me to give you prompt and valuable assistance during your present term of school. Please fill out carefully with ink, and mail to me immediately after the school is organized. Due credit will be given for filing this report promptly.

Failure to file this Report in the Superintendent's Office will be entered in his Record against the Teacher as Dereliction of Duty.

This reporting sheet corresponds to a page of your Classification Register (not Attendance Register); please fill it out with ink from your Classification Register and return to me at the end of the last month of the term. It will be kept for public inspection. Study the plan given below and follow it accurately. If you have not a Classification Register in your School let me know at once; also inform the President of your School Board or your Director.

The Register can be obtained at the County Superintendent's office.

Please endeavor to have a Register provided for your school at once, so that all the schools may be classified before the end of the term.

How to Classify Your School in the Classification Register.

- 1st. Read the course of study carefully; notice the number of grades and the work that each grade includes.
- 2d. Ascertain in which grade of the Course each pupil has most of his work, and classify him in that grade. If he has not all of his studies in this grade, mark the grade in which such other studies are found, under the headings for these respective studies. (See sample form in Register.)
- 3d. When a pupil has completed a study and passed a satisfactory examination, credit him with it in the column of "Studies Completed this Term," also record it in the "Record of Studies Completed," in the back part of the Register. This record should show every study which each pupil completes, until he finishes the course and graduates from the district school. The graduating of classes is one of the greatest incentives that can be used in keeping pupils from "dropping out" of school. Diplomas for graduation will be furnished by the County Superintendent for all pupils who finish the course of study.
- 4th. The "Syllabus of Classes" shows every class in each study, and the pupils (indicated by numbers) belonging to it, also the pages canvassed by each class during the term. The names of pupils belonging to each class may be found by referring to the names, corresponding to each number, in the column of "Names of Pupils."

- 5th. The first classification of any school is the most difficult, and should be made with much care. Succeeding teachers should not change the classification left by their predecessors without good reason.
- 6th. The classification as left by each teacher should show the status of each pupil at the close of each term each being classified in the grade which he has just finished.
- 7th. A pupil changing from one school to any other in which this Register is used, may receive from his teacher a certificate of his standing, which will enable the teacher whose school he enters to classify him without examination.
- 8th. Certificates of Promotion and Monthly Reports to Parents may be found to be valuable helps.
- 9th. Be just and fair in your markings, neither too high nor too low, so as to avoid clashing of opinion by successive teachers.

Write Answers to the following Questions:

- Is your daily program posted up in your school room? Yes
- Do you make daily preparation for your work? Yes
- Do you give Oral Language Lessons to the First and Second Reader classes, and have them write from ten to twenty minutes daily? Yes
- Do you spend at least fifteen minutes daily in giving special drills in writing to all grades? Yes
- Do you have those in the Third and Fourth Reader grades write at least one letter each week besides other language work? Yes
- Do you give Number Work to the lower grades daily? Yes
- Do you try to decorate your school room? Yes

All persons are warned against making or publishing this blank or any modification of it, as it belongs to a series consisting of "Welch's System of Supervision," and is under copyright.

TEACHER'S REMARKS TO SUPERINTENDENT

(NOTE.—State what your school needs in apparatus, black-boards, etc.; also give the names of pupils not provided with books, naming the books needed. Suggest wherein the County Superintendent can co-operate with you for the advancement of your school, etc.)

Failure to file this Report in the Superintendent's Office will be entered in his Record against the Teacher as Dereliction of Duty.

This reporting sheet corresponds to a page of your Classification Register (not Attendance Register); please fill it out with ink from your Classification Register and return it to me at the end of the last month of the term. It will be kept for public inspection. Study the plan given below and follow it accurately. If you have not a Classification Register in your School let me know at once; also inform the President of your School Board or your Director.

The Register can be obtained at the County Superintendent's office

Please endeavor to have a Register provided for your school at once, so that all the schools may be classified before the end of the term.

How to Classify Your School in the Classification Register.

1st. Read the course of study carefully; notice the number of grades and the work that each grade includes.

2d. Ascertain in which grade of the Course each pupil has most of his work, and classify him in that grade. If he has not all of his studies in this grade, mark the grade in which such other studies are found, under the headings for these respective studies. (See sample form in Register.)

3d. When a pupil has completed a study and passed a satisfactory examination, credit him with it in the column of "Studies Completed this Term," also record it in the "Record of Studies Completed," in the back part of the Register. This record should show every study which each pupil completes, until he finishes the course and graduates from the district school. The graduating of classes is one of the greatest incentives that can be used in keeping pupils from "dropping out" of school. Diplomas for graduation will be furnished by the County Superintendent for all pupils who finish the course of study.

4th. The "Syllabus of Classes" shows every class in each study, and the pupils (indicated by numbers) belonging to it, also the pages canvassed by each class during the term. The names of pupils belonging to each class may be found by referring to

the names, corresponding to each number, in the column of "Names of Pupils."

5th. The first classification of any school is the most difficult, and should be made with much care. Succeeding teachers should not change the classification left by their predecessors without good reason.

6th. The classification as left by each teacher should show the status of each pupil at the close of each term each being classified in the grade which he has just finished.

7th. A pupil changing from one school to any other in which this Register is used, may receive from his teacher a certificate of his standing, which will enable the teacher whose school he enters to classify him without examination.

8th. Certificates of Promotion and Monthly Reports to Parents may be found to be valuable helps.

9th. Be just and fair in your markings, neither too high nor too low, so as to avoid clashing of opinion by successive teachers.

Write Answers to the following Questions:

Is your daily program posted up in your school room? Yes

Do you make daily preparation for your work? Yes

Do you give Oral Language Lessons to the First and Second Reader classes, and have them write from ten to twenty minutes daily? No and yes.

Do you spend at least fifteen minutes daily in giving special drills in writing to all grades? Yes

Do you have those in the Third and Fourth Reader grades write at least one letter each week besides other language work? No.

Do you give Number Work to the lower grades daily? Yes

Do you try to decorate your school room? Yes.

All persons are warned against making or publishing this blank, or any modification of it, as it belongs to a series consisting of "Welch's System of Supervision," and is under copyright.

Teacher's Remarks to Superintendent

(NOTE—State what your school needs in apparatus, blackboards, etc.; also give the names of pupils not provided with books, naming the books needed. Suggest wherein the County Superintendent can co-operate with you for the advancement of your school, etc.)

School in fair condition. New seats and black-boards are badly needed.

Teacher's Remarks to Superintendent

(NOTE—State what your school needs in apparatus, blackboards, etc.; also give the names of pupils not provided with books, naming the books needed. Suggest wherein the County Superintendent can co-operate with you for the advancement of your school, etc.)

The school is in need of a new stove as it is almost impossible to make a fire in it. The desks are home made and the pupils get very tired sitting in them. New desks would be a great help.

Failure to file this Report in the Superintendent's Office will be entered in his Record against the Teacher as Dereliction of Duty.

This reporting sheet corresponds to a page of your Classification Register (*not Attendance Register*); please fill it out with ink from your Classification Register and return it to me at the end of the last month of the term. It will be kept for public inspection. Study the plan given below and follow it accurately. If you have not a Classification Register in your School *let me know at once*; also inform the President of your School Board or your Director.

The Register can be obtained at the County Superintendent's office.

Please endeavor to have a Register provided for your school *at once*, so that all the schools may be classified before the end of the term.

How to Classify Your School in the Classification Register.

1st. Read the course of study carefully; notice the number of grades and the work that each grade includes.

2d. Ascertain in which grade of the Course each pupil has *most* of his work, and classify him in that grade. If he has not all of his studies in this grade, mark the grade in which such other studies are found, under the headings for these respective studies. (See sample form in Register.)

3d. When a pupil has completed a study and passed a satisfactory examination, credit him with it in the column of "Studies Completed this Term," also record it in the "Record of Studies Completed," in the back part of the Register. This record should show every study which each pupil completes, until he finishes the course and graduates from the district school. The graduating of classes is one of the greatest incentives that can be used in keeping pupils from "dropping out" of school. Diplomas for graduation will be furnished by the County Superintendent for all pupils who finish the course of study.

4th. The "Syllabus of Classes" shows every class in each study, and the pupils (indicated by numbers) belonging to it, also the pages canvassed by each class during the term. The names of pupils belonging to each class may be found by referring to

the names, corresponding to each number, in the column of "Names of Pupils."

5th. The *first* classification of any school is the most difficult, and should be made with much care. Succeeding teachers should not change the classification left by their predecessors without good reason.

6th. The classification as left by each teacher should show the status of each pupil at the *close* of each term each being classified in the grade which he has just *finished*.

7th. A pupil changing from one school to any other in which this Register is used, may receive from his teacher a certificate of his standing, which will enable the teacher whose school he enters to classify him without examination.

8th. *Certificates of Promotion* and Monthly Reports to Parents may be found to be valuable helps.

9th. Be *just* and *fair* in your markings, neither too high nor too low, so as to avoid clashing of opinion by successive teachers.

All persons are warned against making or publishing this blank, or any modification of it, as it belongs to a series consisting of "Welch's System of Supervision," and is under copyright.

Teacher's Remarks to Superintendent

(NOTE—State what your school needs in apparatus, blackboards, etc.; also give the names of pupils not provided with books, naming the books needed. Suggest wherein the County Superintendent can co-operate with you for the advancement of your school. etc.)

This school is in a very poor condition, having no maps, charts, globes and a very small space of black board and that in a bad condition.

Failure to File this Report in the Superintendent's Office will be entered in his Record against the Teacher as a Dereliction of Duty.

This reporting sheet corresponds to the classification section of your Combined Register; please fill it out with ink from your Register and return to me at the end of the last month of the term. It will be kept for public inspection. Study the plan given below and follow it accurately. If you have not a Combined Register in your School let me know at once; also inform the President of your School Board or your Director.

The Register can be obtained at the County Superintendent's office.

Please endeavor to have a Register provided for your school at once, so that your school may be classified before the end of the term.

How to Classify Your School in the Classification Register.

1st. Read the course of study carefully; notice the number of forms and the work that each form includes.

2d. Ascertain in which form of the Course each pupil has most of the work, and classify him in that form. If he has not all of his studies in this form, mark the form in which such other studies are found, under the headings for these respective studies. (See sample form in Register.)

3d. When a pupil has completed a study and passed a satisfactory examination, credit him with it in the column of "Studies Completed this Term," also record it in the "Record of Studies Completed," in the back part of the Register. This record should show every study which each pupil completes, until he finishes the course and graduates from the district school. The graduating of classes is one of the greatest incentives that can be used in keeping pupils from "dropping out" of school. Diplomas for graduation will be furnished by the County Superintendent for all pupils who finish the course of study.

4th. The "Syllabus of Classes" shows every class in each study, and the pupils (indicated by numbers) belonging to it, also the pages canvassed by each class during the term. The names of pupils belonging to each class may be found by referring to the names, corresponding to each number, in the column of "Names of Pupils."

5th. The first classification of any school is the most difficult, and should be made with much care. Succeeding teachers should not change the classification left by their predecessors without good reason.

6th. The classification as left by each teacher should show the status of each pupil at the close of each term each being classified in the grade which he

has just finished. In making your recommendations in the section at right of "Pages Canvassed this Term," be just. This section classifies this school for your successor. Make no recommendations that you would not follow scrupulously were you to continue work in this school next term.

7th. A pupil changing from one school to any other in which this Register is used, may receive from his teacher a certificate of his standing, which will enable the teacher whose school he enters to classify him without examination.

8th. Certificates of Promotion and Monthly Reports to Parents are valuable helps and may be obtained from the County Superintendent.

9th. Be just and fair in your markings, neither too high nor too low, so as to avoid clashing of opinion by successive teachers.

The following will assist you in making your Report accurately:

Total Number of Days of Absence—This will be the sum of the days of absence of all pupils enrolled during the term. Do not count the days a pupil was "dropped" as "days of absence." When a pupil is "dropped" he is not a member of your school and hence cannot be considered as "absent" in the sense in which the word "absent" is here used.

Absence that is less than half a day will be reported as a half day's absence; for example, if a pupil comes before the close of the forenoon recess, count him tardy only; but if he should not arrive until after the forenoon recess, count him absent a half day. Observe the same rule for the afternoon session.

Total Number of Days of Attendance—This will be the sum of the days of attendance of all pupils enrolled during the term. The total number of days of attendance, plus the total number days of absence, should ALWAYS equal the total number days of membership. This fact will enable you to test the accuracy of your results.

Average Daily Attendance—This is found by dividing the total days of attendance by the number of days taught. Always express the quotient as a whole number. A fraction that is less than a half should be dropped, but a fraction that is a half or more should be called 1.

Number Violating Compulsory Attendance Law—The law requires all pupils between the ages of seven and sixteen to attend school regularly at least twenty-four consecutive weeks. It does not apply to pupils who live more than two miles from school.

Whole Number of Days Taught—Count every day for which you draw pay as taught.

Average Cost of Tuition per Month per Pupil This is found by dividing the amount paid the teacher per month by the average daily attendance for the term.

Write Answers to the Following Questions:

1. Is your daily program posted up in your school room? Yes

2. Do you make daily preparation for your work? Yes

3. Do you give Oral Language Lessons to the First and Second Reader Classes, and have them write from ten to twenty minutes daily? Yes

4. Do you spend at least fifteen minutes daily in giving special drills in writing in all grades? Yes

5. Do you have your pupils use pen and ink in Writing Lessons? Yes

6. Where do you expect to teach next term? Denby District No. 55

7. If you do not at present have a position for next term, will you notify this office as soon as you get the promise of a position—and give the name of the school? Yes

TEACHER'S REMARKS TO SUPERINTENDENT

(NOTE—State what your school needs in apparatus, blackboards, etc.; also give the names of pupils not provided with books, naming the books needed. Suggest wherein the County Superintendent can co-operate with you for the advancement of your school, etc.)

Our schoolroom needs to be painted or papered. The school should have more reference books also a book case in which to keep the books we have. Our heating system is not good we need a new system of heating and ventilation.

This record should show every study which each pupil completes, until he finishes the course and graduates from the district school. The graduating of classes is one of the greatest incentives that can be used in keeping pupils from "dropping out" of school. Diplomas for graduation will be furnished by the County Superintendent for all pupils who finish the course of study.
- 4th. The "Syllabus of Classes" shows every class in each study, and the pupils (indicated by numbers) belonging to it, also the pages canvassed by each class during the term. The names of pupils belonging to each class may be found by referring to the names, corresponding to each number, in the column of "Names of Pupils."
- 5th. The first classification of any school is the most difficult, and should be made with much care. Succeeding teachers should not change the classification left by their predecessors without good reason.
- 6th. The classification as left by each teacher should show the status of each pupil at the close of each term each being classified in the grade which he has just

finished. In making your recommendations in the section at right of "Pages Canvassed this Term," be just. This section classifies this school for your successor. Make no recommendation that you would not follow scrupulously were you to continue work in this school next term.

7th. A pupil changing from one school to any other in which this Register is used, may receive from his teacher a certificate of his standing, which will enable the teacher whose school he enters to classify him without examination.

8th. Certificates of Promotion and Monthly Reports to Parents are valuable helps, and may be obtained from the County Superintendent.

9th. Be just and fair in your markings, neither too high nor too low, so as to avoid clashing of opinion by successive teachers.

The following will assist you in making your Report accurately:

Total Number of Days of Absence—This will be the sum of the days of absence of all pupils enrolled during the term. Do not count the days a pupil was "dropped" as "days of absence." When a pupil is "dropped" he is not a member of your school and hence cannot be considered as "absent" in the sense in which the word "absent" is here used.

Absence that is less than half a day will be reported as a half day's absence; for example, if a pupil comes before the close of the forenoon recess, count him tardy only; but if he should not arrive until after the forenoon recess, count him absent a half day. Observe the same rule for the afternoon session.

Total Number of Days of Attendance—This will be the sum of the days of attendance of all pupils enrolled during the term. The total number of days of attendance, plus the total number days of absence, should ALWAYS equal the total number days of membership. This fact will enable you to test the accuracy of your results.

Average Daily Attendance—This is found by dividing the total days of attendance by the number of days taught. Always express the quotient as a whole number. A fraction that is less than a half should be dropped, but a fraction that is a half or more should be called 1.

Number Violating Compulsory Attendance Law—The law requires all pupils between the ages of seven and sixteen to attend school regularly at least twenty-four consecutive weeks. It does not apply to pupils who live more than two miles from school.

Whole Number of Days Taught—Count every day for which you draw pay as taught.

Average Cost of Tuition per Month per Pupil—This is found by dividing the amount paid the teacher per month by the average daily attendance for the term

Write Answers to the Following Questions:

1. Is your daily program posted up in your school room? *Yes*
2. Do you make daily preparation for your work? *Yes*
3. Do you give Oral Language Lessons to the First and Second Reader Classes, (and have them write from ten to twenty minutes daily?) *Yes*
4. Do you spend at least fifteen minutes daily in giving special drills in writing in all grades? *Not daily*
5. Do you have your pupils use pen and ink in the Writing Lessons? *Yes*
6. Where do you expect to teach next term? *Berean*
7. If you do not at present have a position for next term, will you notify this office as soon as you get the promise of a position—and give the name of the school?

TEACHER'S REMARKS TO SUPERINTENDENT.

(NOTE.—State what your school needs in apparatus, blackboards, etc.; also give the names of pupils not provided with books, naming the books needed. Suggest wherein the County Superintendent can co-operate with you for the advancement of your school, etc.)

The school needs single seats and a better lighting system to help make it standard.

TEACHERS' ANNUAL REPORT

SCHOOL YEAR OF 1918-19

To the Teacher or Superintendent: The State and National authorities need and demand all the data called for in this report. You are rendering a valued service by a careful and prompt filling out of each item. For common schools of one teacher, items with starred numbers only are to be filled. In schools of two or more teachers the data should be collected by the Superintendent or Principal and embodied in one report. Two copies are to be filed with the County Superintendent within one week after the close of school.

(Note—The average daily attendance in a one-room school is found by dividing the total days attendance by the number of days the school was actually in session. In schools of two or more rooms, or in schools whose records of attendance are kept by session teachers, the average daily attendance is the sum of the averages of the units composing the group. For example: The principal of a two-room school should enter in item 4a the sum of the averages of the two rooms. The principal of a school containing several rooms whose work includes the eight grades and a high school should enter in item 4a the sum of the averages of the grade rooms and of the high school. The superintendent of a city system of schools should enter in item 4a the sum of the averages of the various ward schools and of the high school. The principal of each ward school and the principal of each high school should report the average for his school found by adding the averages of the various rooms or session groups composing the school.)

Mr. John Neenick, Clerk
Board of Directors, District 86
Carlinville, Illinois

Gentlemen:

On October 18 I visited the West Fairview School, District 86. Your teacher, Mrs. Marjorie Peebles, is an experienced teacher. Although she has not taught for several years, she is doing an excellent job. I am sure you appreciate her value in your community and as the leader of your boys and girls. I hope you will be fortunate in having her remain in your school for several years.

You are to be congratulated upon the splendid building you have and the way you have kept it equipped so that it will be on the recognized list. There are a few things which I should like to call to your attention. The plaster is breaking off in several places and should be patched and redecorated. This will make it look a little more attractive. The seats could be put on boards so that they would be movable. Then I suggest that, as soon as you can, you reclean the floor and put a floor seal or varnish on it and then wax it. This will make it look more homelike and take away the dark gloomy appearance. Some additional playground equipment would be valuable for the children. Your teacher's suggestions will be helpful along this line. Paper towels and soap are essential, as towels brought from home soon get dirty and soiled and destroyed. The teacher needs a new axe and shovel for use in her janitor work. In addition to this, I am asking the State Department to test the water in your well as this is a good preventative measure. There is no charge for this inspection.

The new reference books which you bought are a valuable addition to the library. I hope you will always order the Illinois Pupils Reading Circle Books every year as they are the cheapest and best books you can buy for all the children in your school. There is no salesman's profit; therefore, your school not only gets the best books, but at the lowest possible cost.

Sincerely yours,

I. K. Juergenmeyer

West Fairview, Dist. #86
Inspection report.

Aug. 3, 1938

Board of Directors.
School District #86 Att: Wm. K. Dahle, Clerk
Carlinville, Ill.

Gentlemen:

Based on an inspection of the sanitary facilities at West Fairview School, Dist. #86, Macomb County made July 27, 1938 we conclude that the following sanitary defects exist:

a) The well is subject to contamination by shallow ground water seepage which may enter through cracks that can develop in the brick well lining; rain, waste passage, dust, bird and dog contamination which may enter the well through cracks in and around the boards which support the pump; dust, bird and dog contamination that may be washed into the well through cracks in the split-base pump; contaminated waste passage which will saturate the ground surrounding the well and which may re-enter it.

b) The privies are insanitary as they are accessible to flies, insects and rodents because of the unprotected openings in the seats and vaults, the unscreened vents, the non-self closing lids.

c) The privies are in poor structural condition.

In order to correct these sanitary defects at the school, we recommend the following improvements:

1. Pour a 6 inch reinforced concrete wall around the outside of the present well lining to a depth of at least 8 feet below the surrounding ground surface. Directions for such construction are shown on page 8 of the enclosed bulletin.

2. Reconstruct the well platform with a 4 inch concrete slab extending beyond the walls at least one foot in all directions. A short iron pipe sleeve, whose diameter will allow the passage of the pump cylinder, should be placed in the platform at the time of construction. Sleeve should extend about one inch into the pump base. The pump should rest directly on the concrete and be firmly bolted in place. This is shown in Fig. 6 of the enclosed bulletin.

3. Replace the split-base pump with a pump having a one piece circular base. If considered economical, the directors may choose to have the split-base welded together so that there will be no openings in the base.

4. Provide a substantial, water tight trough 15 feet in length to carry waste passage away from the immediate vicinity of the well.

5. Sterilize the well water after the above improvements have been made and before it is used for drinking purposes. The procedure for sterilization is described on pages 16 and 17 of the enclosed bulletin.

6. Seal the unprotected openings in the seats and vaults so that the vaults will be flytight.

7. Screen the vents with 16 mesh copper screen wire to prevent the entrance of flies.

8. Provide the privies with hinged, self-closing lids. These lids when closed should fit so as to exclude flies.

9. Reconstruct the privies so that they will be in good structural condition.

In view of the poor condition of the privies and the number of improvements necessary to make them sanitary, we suggest that the Board of Directors consider the installation of the "Sanitary Pit" privy. This type of privy has many advantages over other types of privies, the principal advantage being the prevention of disease by fly transmission. For a limited period these privies can be obtained through a W.P.A. project in Macoupin County. The only cost to the school district being the cost of material, and hauling. Mr. Virbel F. Holon is in charge of this project, and further information may be had by addressing him at Box, 77, Millwood, Ill.

Since the school officials are responsible for the protection of the pupils while at school, it is important that the above recommendations be fulfilled.

If the engineer of this department can be of service in connection with your water supply or sewerage problems, we shall be pleased to be so advised.
