TEACHERS AND SCHOOL OFFICERS OF MACOUPIN COUNTY

GREETINGS:

At the beginning of this, the second year of my term of office, it is a great pleasure to look back over the past year and reflect upon what I hoped we could accomplish, and compare it with what has been accomplished. There were two or three things that I considered of paramount importance; the first, uniformity of text books, the second, a movement towards standard schools. To this end I worked the best I knew how, and asked the cooperation of teachers and school officers, as well as patrons. I expected cooperation, of course, or I should not have asked it, but I was literally astounded at the extent of the cooperation given me. Today, practically one hundred per cent of the schools are moving toward uniformity of text books, and the movement is much faster than I advised. Nearly half of the schools have made great progress toward standardization, and I have not been compelled to withhold the distributive fund of a single district in the county.

There is no color of self praise in this statement. What I have done has been made possible entirely by the splendid attitude of my fellow workers, which I appreciate and wish to here publicly acknowledge.

School Library and Pupils Reading Circle

No school library, however small, is properly taken care of unless a library record is kept. This record need not be expensive. In the absence of anything better, a note book or composition book will suffice. When a book is taken from the library, an entry should be made in the record showing the name of the pupil, the name or number of the book, and the date the book was taken. When the book is returned, the date of return should be entered in the record.

Each teacher should make it a point to see that some addition is made to the library every year. The books added should be selected with care. For reference books, there are several good ones. I especially recommend The Book of Knowledge, the World Book and Compton's Pictured Encyclopedia.

For general reading, the safest plan is to buy only those books that are recommended by the Illinois Pupils' Reading Circle. I hope every teacher of a one-room school and every principal or superintendent of grades in Macoupin County will conduct the reading circle work according to the plan fully explained in a circular which is included with the supplies for the year. The teacher will receive 10 credits on her certificate for conducting the work, but the greatest benefit she will receive will be the advancement of her pupils in all branches by reason of the enlarged vocabularies of the pupils occasioned by the additional reading. The pupil will receive a diploma for reading four or more of the books, which inducement often causes a child who does not care to read to become a reader for pleasure. The school will benefit in many ways but one way that is especially easy to point out is that no school can become a standard school unless the reading circle work is done.

Course of Study

The State Course of Study is the adopted course in this county. All pupils' examinations will be based on the work as outlined therein with the exception of the following which will be based on the County Course which is in effect the same course but in a different order for these subjects, following the text book rather than the outline.

Subject, 7th Year Arithmetic; Text, Pilot III; 1st Quarter, Chapter 1; 2nd Quarter, Chapters II and III; 3rd Quarter, Chapters IV and V; 4th Quarter, Chapter VI and VII.

Subject, 7th Year Language; Text, Essential Language Habits; 1st Quarter, Pages 1 to 55; 2nd Quarter, Pages 55 to 104; 3rd Quarter, Pages 104 to 161; 4th Quarter, Pages 161 to 216.

Reading

It is necessary every year for the County Superintendent to announce the authors and selections upon which the examinations will be based. Heretofore it has been necessary, because of the lack of uniformity of readers, for teachers to send away for booklets to be used in addition to the regular texts. Now that nearly all schools in the county have the same reader, it will be possible to save the money that has heretofore been sent away for such booklets by basing the questions on the Elson Readers. In those few schools that do not yet have this reader it will be necessary for the teacher to get a copy and have the children learn from the blackboard unless the Board of Directors can be persuaded to allow the correct book to be introduced.

Reports

The importance of making all reports promptly cannot be over-emphasized. The time wasted in writing for reports that are overdue costs more than any other item in the County Superintendent's office. Report blanks are self-explanatory or full instructions accompany them. **Read the instructions,** be prompt and accurate in reporting, and where several copies are to be made, be sure each copy is sent to the proper place.

Sometime next spring you will receive the blank for your annual report. This blank must be filled out in duplicate completely, so far as it applies to your school. Don't leave out an item because it is troublesome. If it is troublesome for you, right there on the ground how much more so must it be for some one who is not there. Yet if you neglect it, some one must do it for the annual report to the State Superintendent must be made correctly. Mail both copies to this office at the close of school.

The Report of Claim for State Aid (three copies) will reach you about April 1. Fill these out, sign them, have the clerk sign them under oath, and mail all three copies to this office. If there is no one in the district to administer the oath have the clerk sign the report anyway and mail it in without oath. The clerk can then call and be sworn when convenient.

Teachers' Examinations

Teachers' examinations will be held in the Central School Building, Carlinville, on Friday and Saturday, November 16 and 17, 1928, Friday and Saturday, March 15 and 16, Thursday and Friday, July 11 and 12, and Friday and Saturday, November 15 and 16, 1929.

Persons writing for a second grade certificate must be at least 17½ years old and must have had at least two years high school.

Persons writing for first grade certificates must be 18 years old and must have taught six months before the date of examination. Holders of second grade certificates who have taught one year are permitted to take an abbreviated examination for a first grade certificate. The subjects required in this examination are English, Algebra, General History, and any three of the following sciences: Physics, Botany, Zoology, Chemistry and Physiology.

In certain subjects the examining board names the texts on which examinations will he based. So far as named they are as follows:

(1) Pedagogy for first grade and second grade elementary certificates. "Bagley's Class Room Management." (MacMillian Co.)

(2) Pedagogy for high school and special certificates, Inglis' "Principles of Secondary Education." (Houghton, Mifflin & Co.)

(3) For examination for supervisory certificates, History of Education, Graves' "A Student's History of Education." (MacMillian Co.)

School Administration, Cubberley's "School Administration." (Houghton Mifflin & Co.)

Educational Psychology, Cameron's "Psychology and the School." (The Century Co.)

Teachers' Institute

The institute this year will be held October 11 and 12, in the Carlinville Community High School building. Please be present for the first lecture and remain until the last word is spoken. As you are being renumerated for your attendance at institute, come prepared to get value received for your time.

Spelling Contest

A representative to the State Spelling Contest shall be chosen by means of organized county contests approved by the county superintendent of schools.

One person will be selected to represent Macoupin County at the State Spelling Contest. This person will be selected at a contest for spellers to be held in the county superintendent's office in Carlinville, Illinois, on the morning of December 8 at 10:30 o'clock. Each school will be allowed one representative and one alternate, either of whom (but not both) may represent his school. The first list shall consist of one hundred words selected from the Aldine Speller published by Newson and Company, Chicago, Illinois, and fifty words chosen from Cavins Orthography and Word Analysis, chosen from lists A B C and D of Part Two, and lists one to twelve, inclusive, of Part Three. The contestant missing the least number of words shall be declared the winner. No requirements will be made for the analysis, definition, diacritical markings, or use of words in sentences. No proper names shall be included. In case of a tie, subsequent lists of fifty words, twenty-five words, and ten words chosen by the conductor shall be pronounced.

High School Privileges

"Any eighth grade graduate residing in a non-high school district may attend any recognized two, three or four-year high school and his tuition shall be paid by the board of education of the non-high school district in which he resides."

There are three ways by which evidence of having completed the first eight grades may be provided: (1) by a certificate of promotion issued by the home school; (2) by passing an examination given by the county superintendent; (3) by passing an examination given by the high school which the pupil wishes to enter.

SCHOOL HOLIDAYS IN ILLINOIS

Thanksgiving, Christmas, New Year's Day and the Fourth of July.

THE CLOSING OF SCHOOL AND TEACHERS' PAY.

It has been held by the courts when schools are closed on account of prevalence of communicable disease, the teachers are legally entitled to their pay, if they hold themselves in readiness at all times to teach.

However, if the school is closed in good faith on account of the exposure of teachers to communicable diseases to which the school is not exposed, the teachers must stand the loss of time or make up the same.

POINTS IN SCHOOL LAW

Revenue

Boards of education and boards of directors may levy annually not to exceed one per cent for educational purposes, and three-eighths of one per cent for building purposes, a total of one and three-eighths per cent for both purposes, without referendum. ....BY VOTE OF THE PEOPLE—Boards of education and boards of directors may levy not to exceed one and one-half per cent for educational purposes and not to exceed one-half of one per cent for building purposes, a total of not to exceed two per cent for both purposes, authorized by a referendum.

Only the amount needed for educational and building purposes should be included in the certificate of tax levy. The rate is determined by the County Clerk.

School boards may rent suitable buildings in which to hold public school of the District.

Any person who holds a valid certificate may teach and receive a part of the public school fund.

If a Treasurer makes an illegal loan of school funds he is liable on his bond, even though the trustees approve the loan.

A School Treasurer is prohibited from being interested directly or indirectly in a loan made by the Township Trustees.

It is right for a Treasurer to accept interest from the bank on his daily balances, but it should be turned into the school treasury.

When money belonging to a School District is loaned, the note should be given to the Trustees of the Township as payee, and not to the Directors of the District.

A school order should show on its face the purpose for which it was issued. The kind and quantity of supplies, the exact nature of the expense, etc., should be named in the order.

All the school levies should be made by the School Directors and Boards of Education at regular meetings and a record kept of such meetings by the Clerks of the Boards.

School Directors and Boards of Education must file their School Tax Levies with their proper School Treasurer on or before the first Tuesday of August.

School Treasurers should file all School Tax Levies with the County Clerk on or before the second Monday of August.

It must be borne in mind that each and every requirement of the statute providing for tax levies must be strictly followed or the courts cannot sustain the levy.

TAX LEVY 1927-1928

The following assessed valuations, levies and rates are for the year 1927-1928.

The levies have been made for the year 1928-1929, but as the assessed valuations and the rates for this year are not completed and we cannot print them, we are not printing the levies either.

Dist.	Valuation	Levy Ed.	Levy Bldg.	Total Rate
1	175801	500		.30
2	187627	1200		.69
